THE VIRGINIA REGISTER INFORMATION PAGE

THE VIRGINIA REGISTER is an official state publication issued every other week throughout the year. Indexes are published quarterly, and the last index of the year is cumulative. THE VIRGINIA REGISTER has several functions. The new and amended sections of regulations, both as proposed and as finally adopted, are required by law to be published in THE VIRGINIA REGISTER OF REGULATIONS. In addition, THE VIRGINIA REGISTER is a source of other information about state government, including all emergency regulations and executive orders issued by the Governor, the Virginia Tax Bulletin issued periodically by the Department of Taxation, and notices of public hearings and open meetings of state agencies.

ADOPTION, AMENDMENT, AND REPEAL OF REGULATIONS

An agency wishing to adopt, amend, or repeal regulations must first publish in the Virginia Register a notice of intended regulatory action; a basis, purpose, substance and issues statement; an economic impact analysis prepared by the Department of Planning and Budget; the agency’s response to the economic impact analysis; a summary; a notice giving the public an opportunity to comment on the proposal; and the text of the proposed regulation.

Following publication of the proposal in the Virginia Register, the promulgating agency receives public comments for a minimum of 60 days. The Governor reviews the proposed regulation to determine if it is necessary to protect the public health, safety and welfare, and if it is clearly written and easily understandable. If the Governor chooses to comment on the proposed regulation, his comments must be transmitted to the agency and the Registrar within 15 days following the completion of the 60-day public comment period. The Governor’s comments, if any, will be published in the Virginia Register. Not less than 15 days following the completion of the 60-day public comment period, the agency may adopt the proposed regulation.

The appropriate standing committee of each branch of the General Assembly may meet during the promulgation or final adoption process and file an objection with the Registrar and the promulgating agency. The objection will be published in the Virginia Register. Within 21 days after receipt by the agency of a legislative objection, the agency shall file a response with the Registrar, the objecting legislative committee, and the Governor.

When final action is taken, the agency again publishes the text of the regulation as adopted, highlighting all changes made to the proposed regulation and explaining any substantial changes made since publication of the proposal. A 30-day final adoption period begins upon final publication in the Virginia Register.

The Governor may review the final regulation during this time and, if he objects, forward his objection to the Registrar and the agency. In addition to or in lieu of filing a formal objection, the Governor may suspend the effective date of a portion or all of a regulation until the end of the next regular General Assembly session by issuing a directive signed by a majority of the members of the appropriate standing committees and the Governor. The Governor’s objection or suspension of the regulation, or both, will be published in the Virginia Register. If the Governor finds that changes made to the proposed regulation have substantial impact, he may require the agency to provide an additional 30-day public comment period on the changes. Notice of the additional public comment period required by the Governor will be published in the Virginia Register.

The agency shall suspend the regulatory process for 30 days when it receives requests from 25 or more individuals to solicit additional public comment, unless the agency determines that the changes have minor or inconsequential impact.

A regulation becomes effective at the conclusion of the 30-day final adoption period, or at any other later date specified by the promulgating agency, unless (i) a legislative objection has been filed, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 21-day extension period; (ii) the Governor exercises his authority to require the agency to provide for additional public comment, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the period for which the Governor has provided for additional public comment; (iii) the Governor and the General Assembly exercise their authority to suspend the effective date of a regulation until the end of the next regular legislative session; or (iv) the agency suspends the regulatory process, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 30-day public comment period.

Proposed regulatory action may be withdrawn by the promulgating agency at any time before the regulation becomes final.

EMERGENCY REGULATIONS

If an agency demonstrates that (i) there is an immediate threat to the public’s health or safety; or (ii) Virginia statutory law, the appropriation act, federal law, or federal regulation requires a regulation to take effect no later than (a) 280 days from the enactment in the case of Virginia or federal law or the appropriation act, or (b) 280 days from the effective date of a federal regulation, it then requests the Governor’s approval to adopt an emergency regulation. The emergency regulation becomes operative upon its adoption and filing with the Registrar of Regulations, unless a later date is specified. Emergency regulations are limited to addressing specifically defined situations and may not exceed 12 months in duration. Emergency regulations are published as soon as possible in the Register.

During the time the emergency status is in effect, the agency may proceed with the adoption of permanent regulations through the usual procedures. To begin promulgating the replacement regulation, the agency must (i) file the Notice of Intended Regulatory Action with the Registrar within 60 days of the effective date of the emergency regulation; and (ii) file the proposed regulation with the Registrar within 180 days of the effective date of the emergency regulation. If the agency chooses not to adopt the regulations, the emergency status ends when the prescribed time limit expires.

STATEMENT

The foregoing constitutes a generalized statement of the procedures to be followed. For specific statutory language, it is suggested that Article 2 (§ 9-6.14:7.1 et seq.) of Chapter 1.1:1 of the Code of Virginia be examined carefully.

Emergency regulations, if any, are listed, followed by the designation “emer,” and errata pertaining to final regulations are listed. Proposed regulations are not listed here. The table lists the sections in numerical order and shows action taken, the volume, issue and page number where the section appeared, and the effective date of the section.

TITLE 9. ENVIRONMENT
STATE WATER CONTROL BOARD

† Notice of Intended Regulatory Action
Notice is hereby given in accordance with § 9-6.14:7.1 of the Code of Virginia that the State Water Control Board intends to consider promulgating regulations entitled: 9 VAC 25-630-10 et seq. General Virginia Pollution Abatement Permit Regulation for Confined Poultry Feeding Operations. This rulemaking is proposed in order to implement the requirements of § 62.1-44.17:1.1 of the Code of Virginia. The general permit will establish requirements for the storage, treatment and management of poultry waste, including dry litter. Owners or operators of confined poultry feeding operations will be required to develop and implement a nutrient management plan, track and account for poultry waste and ensure proper waste storage. The statute requires that the board adopt this general permit regulation no later than October 1, 2000, and that after October 1, 2001, all persons owning or operating confined poultry feeding operations shall operate in compliance with its provisions.

A technical advisory committee will be formed to assist in the development of the regulations. The statute that mandates the development of this general permit regulation also stipulates that membership on this advisory committee shall be balanced among organizations and persons expressing an interest in the program and shall include a minimum of three representatives of poultry growers, three representatives of commercial poultry processors and three representatives of environmental organizations. The primary function of the committee will be to develop recommendations to the board on the content of the general permit through a process of negotiation and consensus. Persons who desire to be on the committee should notify the agency contact person in writing by 4:30 p.m. on Friday, April 16, 1999, and provide name, address, telephone number and organization represented (if any). Notification of the composition of the technical advisory committee will be sent to all applicants. Following publication of the draft general permit regulation in the Virginia Register, the board will hold at least one public hearing to provide opportunity for public comment. The agency intends to hold a public hearing on the proposed regulation after publication.

Statutory Authority: §§ 62.1-44.15(10) and 62.1-44.17:1.1 of the Code of Virginia.

Public comments may be submitted until 4:30 p.m. on Friday, April 16, 1999.

Contact: Richard Ayers, Technical Services Administrator, Department of Environmental Quality, P.O. Box 10009, Richmond, VA, 23240, telephone (804) 698-4075 or FAX (804) 698-4032.

TITLE 22. SOCIAL SERVICES

STATE BOARD OF SOCIAL SERVICES

Notice of Intended Regulatory Action
Notice is hereby given in accordance with § 9-6.14:7.1 of the Code of Virginia that the State Board of Social Services intends to consider repealing regulations entitled: 22 VAC 40-30-10 et seq. Food Stamp Program–Resource Exclusion. The purpose of the proposed action is to repeal the regulation that allows an exclusion of a special savings account from the resource evaluation for the Food Stamp Program. The agency does not intend to hold a public hearing on the proposed regulation after publication.

Statutory Authority: § 63.1-25 of the Code of Virginia.

Public comments may be submitted until March 17, 1999.

Contact: Patricia Duva, Food Stamp Program Manager, Department of Social Services, Division of Temporary Assistance Programs, 730 E. Broad St., Richmond, VA 23219, telephone (804) 692-1712 or FAX (804) 692-1704.

Notice of Intended Regulatory Action
Notice is hereby given in accordance with § 9-6.14:7.1 of the Code of Virginia that the State Board of Social Services intends to consider promulgating regulations entitled: 22 VAC 40-295-10 et seq. Temporary Assistance for Needy Families (TANF). The purpose of the proposed action is to promulgate a regulation that will implement the recommendations of the TANF Advisory Committee and will serve as a comprehensive TANF regulation. On August 22, 1996, the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) was enacted, introducing welfare reform at the federal level. In Title I of the Act, Congress replaced the Aid to Families with Dependent Child (AFDC) Program with the Temporary Assistance for Needy Families (TANF) block grant. This block grant considerably reduced federal regulation of cash assistance and employment services programs, allowing states to design their programs within limited parameters.

Because the framework of the AFDC programs was repealed by Congress, Virginia adopted pre-TANF federal definitions of eligibility criteria in order to maintain the program as it
currently operated in Virginia. To that end, the 1997 Virginia General Assembly adopted legislation that codified the old rules, and an advisory committee comprised of legislators, social services directors and workers, local government officials, and citizens was formed to consider new TANF options. The committee made recommendations to simplify and streamline the TANF and VIEW programs. The agency intends to hold a public hearing on the proposed regulation after publication.

Statutory Authority: § 63.1-25 of the Code of Virginia.

Public comments may be submitted until March 17, 1999.

Contact: Mark L. Golden, Human Services Program Consultant, Department of Social Services, 730 E. Broad St., Richmond, VA 23219, telephone (804) 692-1730 or FAX (804) 692-1704.

Notice of Intended Regulatory Action

Notice is hereby given in accordance with § 9-6.14:7.1 of the Code of Virginia that the State Board of Social Services intends to consider amending regulations entitled: 22 VAC 40-880-10 et seq. Child Support Enforcement Program.

The purpose of the proposed action is to update selected sections of the current child support enforcement regulation. Changes will be made only to sections impacted by recent state and federal legislation. The current regulation encompasses all functions of the child support enforcement program including application, eligibility for services, location, paternity establishment, order establishment, enforcement, collection, distribution, and case closure. This regulation became effective February 1990, and was last updated in 1995. These changes are necessary to incorporate new state and federal legislation into the current regulation. The agency does not intend to hold a public hearing on the proposed regulation after publication.

Public comments may be submitted until March 17, 1999.

Contact: Bill Brownfield, Manager, Division of Child Support Enforcement, Department of Social Services, 730 E. Broad St., Richmond, VA 23219, telephone (804) 692-2401 or FAX (804) 692-2410.
This section gives notice of public comment periods and public hearings to be held on proposed regulations. The notice will be published once at the same time the proposed regulation is published in the Proposed Regulations section of the Virginia Register. The notice will continue to be carried in the Calendar of Events section of the Virginia Register until the public comment period and public hearing date have passed.

Notice is given in compliance with § 9-6.14:7.1 of the Code of Virginia that the following public hearings and public comment periods regarding proposed state agency regulations are set to afford the public an opportunity to express their views.

TITLE 12. HEALTH

STATE MENTAL HEALTH, MENTAL RETARDATION AND SUBSTANCE ABUSE SERVICES BOARD

May 14, 1999 - Public comments may be submitted until this date.

Notice is hereby given in accordance with § 9-6.14:7.1 of the Code of Virginia that the State Mental Health, Mental Retardation and Substance Abuse Services Board intends to adopt regulations entitled: 12 VAC 35-171-10 et seq. Certification of Providers of Mental Health/Mental Retardation Case Management Services. The proposed regulation defines the qualifications that mental health and mental retardation case managers must have for Medicaid reimbursement.

Statutory Authority: § 37.1-182.2 of the Code of Virginia.

Public comments may be submitted until 5 p.m. on Friday, May 14, 1999, to Cathy Rowe, Office of Mental Retardation Services, Department of Mental Health, Mental Retardation and Substance Abuse Services, P.O. Box 1797, Richmond, VA 23218.

Contact: Marion Greenfield, Policy Analyst, Department of Mental Health, Mental Retardation and Substance Abuse Services, P.O. Box 1797, Richmond, VA 23218-1797, telephone (804) 786-6431 or FAX (804) 371-0092.
TITLE 12. HEALTH

STATE MENTAL HEALTH, MENTAL RETARDATION AND SUBSTANCE ABUSE SERVICES BOARD

Title of Regulation: 12 VAC 35-171-10 et seq. Certification of Providers of Mental Health/Mental Retardation Case Management Services.

Statutory Authority: § 37.1-182.2 of the Code of Virginia.

Public Hearing Date: N/A -- Public comments may be submitted until May 14, 1999.

Basis: Section 37.1-10 of the Code of Virginia grants the State Mental Health, Mental Retardation and Substance Abuse Services Board the authority to make, adopt, and promulgate such rules and regulations as may be necessary to carry out the provisions of the laws of the Commonwealth administered by the commission or the department.

Section 37.1-182.2 of the Code of Virginia grants the department the authority, subject to regulations promulgated by the board, to certify to the Department of Medical Assistance (DMAS) the qualification of providers of mental health/mental retardation case management services in accordance with the provisions of the State Plan for Medical Assistance.

Purpose: This regulation is intended to ensure that individuals who provide case management services for which reimbursement is sought from DMAS possess a combination of applicable mental health or mental retardation work experience or related education, which indicates that these individuals possess the knowledge, skills, and abilities to perform case management for persons with mental illness or mental retardation.

Substance: The proposed regulation:

1. Establishes the minimum knowledge, skills, and abilities that an individual must possess, through education, training, or experience, to perform the functions of a case manager;
2. Establishes mechanisms to apply for, review, and issue the certification;
3. Establishes a mechanism to revoke the department’s approval and certification of providers who fail to maintain the standards set forth under this regulation;
4. Establishes requirements for review of records to ensure compliance; and
5. Requires adherence to applicable human rights regulations promulgated by the State Mental Health, Mental Retardation and Substance Abuse Services Board.

Issues: The functions of a case manager are not within the exclusive domain of any one professional group; there are no commonly accepted standards for the practice of case management; and there are no established set of competencies that an individual must have, at entry level, to provide case management services. In the absence of standards, some providers have elected to utilize only individuals with advanced degrees in a human service profession to provide case management services while other providers select individuals with little or no education, training, or experience in mental health or mental retardation. As a result, the quality of care may vary significantly from one organization to another.

The proposed regulation will benefit the public by ensuring that all Medicaid eligible providers of mental health/mental retardation case management services employ only individuals who meet the minimum standards set forth in this regulation. The regulation proposes to review the credentials of applicants to ensure that they possess the requisite knowledge, skills, and abilities based on their documented educational preparation, training, and experience. The purpose of the review of credentials is to certify to DMAS that these individuals have presented documented evidence that they possess the knowledge, skills, and abilities to provide case management services as defined by the Department of Medical Assistance Services.

The regulation will also benefit consumers by standardizing the entry level requirements for case managers, which is an integral first step towards ensuring that consumers are provided with high quality services irrespective of where they receive those services.

There are no known disadvantages to providers of case management services, consumers, or the general public. The regulation will impose no undue burdens on providers of case management services and it will not restrict the provision of case management services.

Department of Planning and Budget's Economic Impact Analysis: The Department of Planning and Budget (DPB) has analyzed the economic impact of this proposed regulation in accordance with § 9-6.14:7.1 G of the Administrative Process Act and Executive Order Number 13 (94). Section 9-6.14:7.1 G requires that such economic impact analyses include, but need not be limited to, the projected number of businesses or other entities to whom the regulation would apply, the identity of any localities and types of businesses or other entities particularly affected, the projected number of persons and employment positions to be affected, the projected costs to affected businesses or
entities to implement or comply with the regulation, and the
impact on the use and value of private property. The
analysis presented below represents DBP's best estimate of
these economic impacts.

Summary of the proposed regulation. This proposal
replaces existing regulations that govern the certification of
case management services for Medicaid reimbursement.
The existing regulations define the required qualifications of
mental health and mental retardation case managers; establish
certification procedures; and establish programmatic,
administrative, and fiscal requirements for facilities that provide
case management services. There is no statutory authority for the current regulations, as the cited
provision of the 1990 Appropriation Act is no longer in effect.
This replacement proposal provides qualification
requirements and certification procedures for mental health
and mental retardation case managers, but eliminates the
regulations governing facilities, since § 37.1-182.2 of the
Code of Virginia does not provide authority for the
certification of facilities.

Estimated economic impact. Facilities providing case
management services are regulated by Department of
Medical Assistance Services (DMAS). The existing
Department of Mental Health, Mental Retardation and
Substance Abuse Services (DMHMRNAS) regulations merely
reiterate the DMAS standards. At no time has DMHMRNAS
had the statutory authority to certify such facilities. The
removal of sections governing facilities will not adversely
affect case managers, patients, or facilities, and is legally
required.

The proposed regulations are not expected to have any
significant economic effects since they establish
requirements and procedures that are identical to those
currently in place.

Businesses and entities affected. The proposed regulation
governs cases of mental health, adult, and children
services. The regulation will affect case managers and
to provide qualifications for mental health and mental retardation case
managers employed by Virginia’s 40
community services boards and all potential applicants.
Since the proposed requirements and procedures are
identical to those currently in place, this regulation will not
have any impact on these individuals.

Localities particularly affected. The proposed regulation
is not expected to disproportionately affect any particular
localities.

Projected impact on employment. The proposed regulation
is not expected to have any significant impact on
employment.

Effects on the use and value of private property. The
proposed regulation is not expected to have any significant
effect on the use and value of private property.

Agency’s Response to the Department of Planning and
Budget’s Economic Impact Analysis: The agency concurs
with the economic impact analysis prepared by the
Department of Planning and Budget regarding the regulation
concerning Certification of Providers of Mental Health/Mental
Retardation Case Management Services.

Summary:
The proposed regulation provides qualification
requirements and certification procedures for mental
health and mental retardation case managers, but
eliminates the regulations governing facilities, since
§ 37.1-182.2 of the Code of Virginia does not provide
authority for the certification of facilities. The regulation
defines the specific knowledge, skills, and abilities that
mental health and mental retardation case managers
must have at entry level for reimbursement for Medicaid
mental health/mental retardation case management
services. The regulation further defines who is subject
to approval and certification of qualifications to the
Department of Medical Assistance Services (DMAS), the
application procedure, the conditions under which
approval and certification of qualifications to DMAS can
be revoked and subsequently reinstated, and provider
agreement to inspection of records to ensure compliance
with this regulation. This regulation will replace existing
regulations (12 VAC 35-170-10 et seq.) that govern the
certification of case management services for Medicaid
reimbursement, which will be repealed in a separate
regulatory action.

TITLE 12. HEALTH

STATE MENTAL HEALTH, MENTAL RETARDATION AND SUBSTANCE ABUSE SERVICES BOARD

Title of Regulation: 12 VAC 35-210-10 et seq. Certification of the Qualifications of Providers of Behavior Consultation Services.

Statutory Authority: §§ 37.1-10 and 37.1-182.2 of the Code of Virginia.

Effective Date: April 15, 1999.

Summary:

The regulation defines the specific knowledge, skills, and abilities that mental retardation behavior consultants must have at entry level for Medicaid reimbursement for mental retardation waiver services. The regulation further defines who is subject to certification, the application procedure, the conditions under which a certification can be revoked and subsequently reinstated, provider agreement to inspection of records to ensure compliance with this regulation, and notification that all certified behavior consultants are subject to the department’s human rights regulation.

The final regulations (i) expand and more clearly define the training, academic and supervision requirements for certification to DMAS as a behavior consultant; (ii) clarify that behavior consultants do not perform work that is comparable to a professional who is a certified behavior analyst, certified applied behavior analyst, or licensed psychologist with a specialty in behavioral consultation; (iii) prohibit behavior consultants from developing, implementing, or teaching any restrictive behaviors; and (iv) prohibit behavior consultants from using any title that implies a professional certification in behavior consultation, behavior analysis, or applied behavior analysis, unless so certified by a legally and professionally recognized certifying body.

Summary of Public Comments and Agency’s Response: A summary of comments made by the public and the agency’s response may be obtained from the promulgating agency or viewed at the office of the Registrar of Regulations.

Agency Contact: Copies of the regulation may be obtained from Marion Greenfield, Policy Analyst, Department of Mental Health, Mental Retardation and Substance Abuse Services, P.O. Box 1797, Richmond, VA 23218, telephone (804) 786-6431.

Exemptions Claimed:

This regulation is exempt from the Administrative Process Act pursuant to § 9-6.14:4.1 B 2 of the Code of Virginia, which exempts agency action involving the award or denial of state contracts, as well as decisions regarding compliance therewith. Subdivision 2 f of § 2.3 of the Virginia Code Commission Regulations allows regulations concerning public contracts to be filed by description subject to the authorization of the Registrar of Regulations.

Summary:

The Agency Procurement and Surplus Property Manual sets forth policies and procedures to be followed by state agencies in fulfilling procurement responsibilities within their delegated limits. In addition, the Division of Purchases and Supply of the Department of General Services may from time to time issue directives or memoranda which are effective until included in a revision to the manual or rescinded. This edition of the manual was issued in September 1998. The manual was revised to make it more “user friendly,” and pincorporated recommendations from an interagency task force and users. The Department of General Services filed the manual as a regulation (1 VAC 30-130-10) in 15:1 VA.R. 44, September 28, 1999, and it was effective September 15, 1998.

The Administrative Services Division Manual generally outlines the procedures and policies for procuring nonprofessional services and for purchasing, storing and issuing material, equipment and supplies. It also provides information relative to administration of the following general services by the Administrative Services Division: Capital Outlay Expenditures, Central Filing and Record Retention Services, Distribution and Collection of Mail, Maintenance of Central Office Buildings, Information Desk: Insurance and Claims Services, and Fixed Asset Accounting and Control System.

DISCUSSION

6. BACKGROUND: The sections of the State Plan affected by this action are preprinted pages 19c and 20c (12 VAC 30-10-140, 12 VAC 30-10-150) and Services provided to Categorically Needy (Attachment 3.1 A (12 VAC 30-50-10), Services provided to Medically Needy (Attachment 3.1-B (12 VAC 30-50-50), and Program of All-Inclusive Care for the Elderly (Supplement 6 to Attachment 3.1-A (12 VAC 30-50-320). The regulations affected by this action are Program of All-Inclusive Care for the Elderly (12 VAC 30-120-61 through 12 VAC 30-120-68).

The Program of All-Inclusive Care for the Elderly (PACE) is a nationwide replication of the comprehensive service delivery and financing model of long term care for the frail elderly pioneered by On Lok Senior Health services in San Francisco in the 1970s. The various states have been allowed in the past to operate PACE programming through waiver authority from HCFA. The Balanced Budget Act of 1997 (BBA) gave states the option of providing PACE services as an optional state plan service which granted provider status to authorized PACE programs. Prior to BBA '97, DMAS had authority to provide pre-PACE services in a long-term care prepaid health plan which offered Medicaid services under Medicaid capitation while Medicare fee-for-service services were coordinated by the pre-PACE site.

PACE provides a community-based health care plan as an alternative to nursing home care that integrates all aspects of care to include primary, medical and specialty care, nursing, social services, personal care, in-home supportive services, rehabilitative therapies, meals and nutritional care, transportation, hospitalization, and nursing home care.

The mission of the PACE model serves to:

♦ Enhance the quality of life and autonomy of frail, older adults;
♦ Maximize the dignity and respect of older adults;
♦ Enable frail, older adults to live in their homes and in the community as long as medically and socially feasible;
♦ Preserve and support the older adult's family unit.

PACE programs achieve this mission by using a multidisciplinary team approach to managing care while providing a comprehensive range of services and preventive care at a cost that is lower, due to its capitation payment mechanism, than the cost of traditional fee-for-service care.

Cost savings result from the pooling of Medicare (Title XVIII) and Medicaid (Title XIX) funding in a care coordination model that allows the PACE provider to manage the care within the program payment limits while providing a full range of services to include long-term care. Such pooling of funds is permitted by the Health Care Financing
Emergency Regulations

Administration (HCFA) in its approval of the Commonwealth's State Plan Amendment.

In order for an individual to qualify for PACE services, he must: be age 55 or older; be certified for nursing home care; be residing in the service, or catchment, area; and agree to all the conditions and terms of participation. The services that such PACE individuals will receive are, but may not be limited to:

- Medical services, including the services of a PCP and other specialists;
- Transportation services;
- Outpatient rehabilitation services, including physical, occupational and speech therapy services;
- Hospital (acute care) services;
- Nursing facility (long-term care) services;
- Prescription drugs;
- Home health services;
- Laboratory services;
- Radiology services;
- Ambulatory surgery services;
- Respite care services;
- Personal care services;
- Hospice services;
- Adult day care services, to include social work services;
- Multi-disciplinary case management services;
- Outpatient mental health and mental retardation services;
- Outpatient psychological services;
- Prosthetics; and
- Durable medical equipment and other medical supplies.

PACE provides needed care in the most appropriate setting for the enrollee. Services are provided in the PACE center, at home, and if needed, in the hospital or other institutional setting. Specialty and ancillary medical services are provided, as are long-term care services. If nursing home placement is needed, PACE provides the service and maintains the continuity of care by regular monitoring of the enrollee's condition. By providing preventive and rehabilitative services, chronic conditions can be stabilized and complications averted or lessened, thereby enhancing quality of life. An interdisciplinary team, consisting of professional and paraprofessional staff, assesses enrollees' needs, develops care plans, and delivers needed services.

This additional service option will provide to Medicaid recipients another cost effective choice to operate in conjunction with existing institutional and community based services. PACE providers must provide access to all necessary covered services, on a 24-hour basis, to enrollees without any limitations or conditions. Prior to BBA '97, DMAS was not permitted by federal law to offer PACE services as provided for in these regulations.

The effect of this State Plan Amendment and regulatory action on families will be supportive in that their elderly members will be able to remain in their homes longer without having to be institutionalized in nursing facilities.

7. AUTHORITY TO ACT: The Code of Virginia (1950) as amended, § 32.1-325, grants to the Board of Medical Assistance Services (BMAS) the authority to administer and amend the Plan for Medical Assistance. The Code of Virginia (1950) as amended, § 32.1-324, grants to the Director of the Department of Medical Assistance Services (DMAS) the authority to administer and amend the Plan for Medical Assistance in lieu of Board action pursuant to the Board's requirements. The Code also provides, in the Administrative Process Act (APA) § 9-6.14:4.1(C)(5), for an agency's adoption of emergency regulations subject to the Governor's prior approval.

Chapter 464 of the 1998 Virginia Acts of the Assembly, item 335 D stated that: "The State Plan for Medical Assistance shall be amended to include provision of services under a PACE (Program of All-Inclusive Care for the Elderly) program of care to eligible Medicaid recipients. This PACE program of services shall be consistent with all requirements of the Balanced Budget Act of 1997, §§ 4802 and 4803, including, but not limited to requirements for (i) recipient eligibility, (ii) provider requirements and payment methodology, (iii) scope of benefits, and (iv) quality assurance. The amendments to the State Plan for Medical Assistance shall become effective in 280 days or less of enactment of this Act."

Subsequent to the emergency adoption action and filing with the Registrar of Regulations, this agency is initiating the public notice and comment process contained in Article 2 of the APA. Therefore, approval to file the required Notice of Intended Regulatory Action is also necessary and hereby being requested by this action.

Without an emergency regulation, these amendments to the State Plan and regulations cannot become effective until the publication and concurrent comment and review period requirements of the APA's Article 2 are met. Therefore, an emergency regulation is needed to meet the January 19, 1999, effective date established by the General Assembly.

Pursuant to the Code § 32.1-330.3, DMAS distributed the draft emergency regulations to the PACE Transitional Advisory Group for comments. Comments were received from the State Corporation Commission's Bureau of Insurance and the Department of Social Services and have been incorporated where appropriate.

8. NEED FOR EMERGENCY ACTION: The Code § 96.14:4.1(C)(5) provides for regulations which an agency finds are necessitated by an emergency situation. To enable the Director, in lieu of the Board of Medical Assistance Services, to comply with the Acts of the Assembly, he must adopt this emergency regulation. This issue qualifies as an emergency regulation as provided for in § 9-6.14:4.1(C)(5)(ii), because Virginia statutory law or the appropriation act or federal law requires this regulation to be effective within 280 days from the enactment of the law or regulation. As such, this regulation may be adopted without public comment with the prior approval of the Governor.
Since this emergency regulation will be effective for no more than 12 months and the Director wishes to continue regulating the subject entities, the department is initiating the Administrative Process Act Article 2 procedures.

9. **FISCAL/BUDGETARY IMPACT:** The 1995 General Assembly directed DMAS to seek a § 1115 (a) waiver from HCFA to implement one or more Programs of All-Inclusive Care for the Elderly (PACE) demonstration projects (pre-PACE), effective July 1, 1995. Pre-PACE and PACE projects target the frail elderly to remain as independent as possible, while meeting their health care needs. The participants remain in the community through the coordination of services of an adult day health center, home care, medical and social care. Typically, these clients have 7.9 medical diagnoses and are age 80 and above. Approximately 60 percent are cognitively impaired, including having Alzheimer's disease.

Virginia's Pre-PACE program began under a partially capitated arrangement in order to reduce the risk to providers while experience was gained, and subsequently will make a transition to a fully capitated program after about 100 clients are enrolled. Currently, Virginia has one Pre-PACE under contract with Sentara Senior Community Care. As a Pre-PACE, the capitation rate is initially limited to selected Medicaid covered services, with other Medicaid and Medicare services available under the traditional fee-for-service payment system.

The PACE program in December, 1998, served 102 individuals. This is an increase from 52 individuals served in January, 1998. The total cost of the program from January, 1998, through December, 1998, was $1,832,031.99 (or $17,961 per person). The capitation rate is set at 95% of the cost of institutional care for these individuals. DMAS' average cost of care for an individual in a nursing facility for a year is $23,360.

Section 4802 of the federal Balanced Budget Act of 1997 established and defined the PACE program by creating the new section 1934 to the Social Security Act. Section 4803 established and defined the PACE program by creating the new section 1934 to the Social Security Act. Section 4803 established the beginning date of August 5, 1998, for PACE under contract with Sentara Senior Community Care. As a Pre-PACE, the capitation rate is initially limited to selected Medicaid covered services, with other Medicaid and Medicare services available under the traditional fee-for-service payment system.

There are no localities which are uniquely affected by these regulations as they apply statewide. HCFA has retained the authority to approve PACE providers.

10. **RECOMMENDATION:** Recommend approval of this request to adopt this emergency regulation to become effective as soon as possible, in conjunction with federal approval. From its effective date, this regulation is to remain in force for one full year or until superseded by final regulations. Without an effective emergency regulation, the department would lack the authority to comply with the Balanced Budget Act of 1997 and Chapter 464 of the Acts of the Assembly, Item 335 D.

11. **APPROVAL SOUGHT FOR 12 VAC 30-10-140, 12 VAC 30-10-150, 12 VAC 30-50-30, 12 VAC 30-50-70, 12 VAC 30-50-320 and 12 VAC 30-120-61 through 12 VAC 30-120-69.** Approval of the Governor is sought for an emergency modification of the Medicaid State Plan in accordance with the Code of Virginia § 9-6.14:4.1(C)(5) to adopt the following regulation:

The group is responsible for advising the Department of Medical Assistance Services on issues of PACE plan license requirements, reviewing regulations, and providing ongoing oversight.

“Uniform Assessment Instrument (UAI)” means the standardized, multi-dimensional questionnaire used to assess an individual’s physical and mental health and social and functional abilities. Under these regulations, the UAI is used to gather the information needed to determine an individual’s long-term care needs and PACE plan service eligibility, for planning the care to be provided, and for monitoring care as it is provided.

12 VAC 30-120-62. General PACE plan requirements.

A. DMAS, the state agency responsible for administering Virginia’s Medicaid program, shall only enter into PACE plan contracts with approved PACE plan contractors.

B. A PACE plan feasibility study shall be performed before DMAS enters into any PACE plan contract. DMAS shall contract only with those entities it determines to have the ability and resources to effectively operate a PACE plan.

C. PACE plans shall offer a voluntary alternative to enrollees who would otherwise be placed in a nursing facility. PACE plan services shall be comprehensive and offered as an alternative to nursing facility admission.

D. All enrollees shall meet the non-financial and financial Medicaid eligibility criteria established by federal law and these regulations. To the extent federal law or regulations are inconsistent with these regulations, federal law and regulations shall control.

Each PACE plan shall operate a PACE site that is in continuous compliance with all state licensure requirements for that site.

Each PACE plan shall offer core PACE services through a coordination site that is licensed as an adult day care center by DSS.

G. Each PACE plan shall ensure that services are provided by health care providers and institutions that are in continuous compliance with state licensure and certification requirements.

Each PACE plan shall meet the requirements of Va. Code §§ 32.1-330.2 and 330.3.

A. Eligibility shall be determined in the manner provided for in the State Plan and these regulations. To the extent these regulations differ from other provisions of the State Plan for purposes of PACE eligibility and enrollment these regulations shall control.

B. Individuals meeting the following non-financial criteria shall be eligible to enroll in PACE plans approved by DMAS:

1. Individuals who are age 55 or older;

2. Individuals who require nursing facility level of care and are at imminent risk of nursing facility placement as
determined by a Nursing Home Pre-Admission Screening Team through a Nursing Home Pre-Admission Screening performed using the UAI;

3. Individuals for whom PACE plan services are medically appropriate and necessary because without the services the individual is at imminent risk of nursing facility placement;

4. Individuals who reside in a PACE plan catchment area;

5. Individuals who meet other criteria specified in a PACE plan contract;

6. Individuals who participate in the Medicaid or Medicare programs as specified in the Code § 32.1-330.3 E; and

7. Individuals who voluntarily enroll in a PACE plan and agree to the terms and conditions of enrollment.

C. To the extent permitted by federal law and regulation, individuals meeting the following financial criteria shall be eligible to enroll in PACE plans approved by DMAS:

1. Individuals whose income is determined by DMAS under the provision of the State Plan to be equal to or less than 300% of the current Supplemental Security Income payment standard for one person; and

2. Individuals whose resources are determined by DMAS under the provisions of the State Plan to be equal to or less than the current resource allowance established in the State Plan.

D. For purposes of a financial eligibility determination, applicants shall be considered as if they are institutionalized for the purpose of applying institutional deeming rules.

E. DMAS shall not pay for services provided to an applicant by a PACE contractor if such services are provided prior to the PACE plan authorization date set by the Nursing Home Pre-Admission Screening team.

12 VAC 30-120-64. PACE enrollee rights.

A. PACE plan contractors shall ensure that enrollees are fully informed of their rights and responsibilities in accordance with all state and federal requirements. These rights and responsibilities shall include, but not be limited to:

1. The right to be fully informed at the time of enrollment that PACE plan enrollment can only be guaranteed for a 30-day period pursuant to the Va. Code § 32.1-330.2;

2. The right to receive PACE plan services directly from the contractor or under arrangements made by the contractor; and

3. The right to be fully informed in writing of any action to be taken affecting the receipt of PACE plan services.

DEPARTMENT OF MEDICAL ASSISTANCE SERVICES

Central Virginia Expansion of Medallion II

The purpose of this notice is to provide information about the expansion of Medallion II into 33 localities in the Central Virginia Region. The Central Virginia expansion consists of the Richmond metropolitan, Eastern Shore, and Southwest Tidewater regions. All Medicaid providers are being notified of this expansion with an agency memorandum.

Medallion II began January 1, 1996, as the newest managed care initiative for the Virginia Medical Assistance Program. Medallion II, which originally covered Medicaid populations in Chesapeake, Norfolk, Portsmouth, Virginia Beach, Hampton, Newport News, and Poquoson, was expanded in November of 1997 to include the counties of York, James City, Gloucester, Isle of Wight, and the cities of Suffolk and Williamsburg. Medallion II requires mandatory enrollment into a contracted health maintenance organization (HMO) for certain groups of Medicaid recipients. These HMOs are responsible for providing most services covered by Medicaid.

Over the past three years, the Medallion II Program has been successful in:

- Enhancing access and availability of care by requiring HMOs to maintain an adequate network of physicians, hospitals, ancillary, transportation, and specialty providers—As a result, primary care access in the region was increased by 44%.
- Promoting recipient services and preventive care services, as well as the continuity and appropriateness of care—The HMOs provide extensive new member services including 24-hour nurse advice lines, as well as offering enhanced services, e.g., adult dental and vision services; enhanced prenatal programs; case management services; and group and individualized health education.
- Assuring the quality of care by requiring the HMOs to seek national accreditation and by conducting independent quality assurance studies—Three of the HMOs have received three-year accreditation from the National Committee for Quality Assurance (NCQA). Two of the HMOs have received national recognition for medical management practices in asthma and prenatal care, respectively.

Moreover, an independently conducted household survey indicated that more than 90% of Medicaid recipients were satisfied with the medical care and treatment they received through the Medallion II Program.

Central Virginia Area Expansion

Effective April 1, 1999, Medallion II will expand to include managed-care-eligible Medicaid recipients residing in the following 33 Central Virginia localities.

Volume 15, Issue 13
Monday, March 15, 1999
Medicaid recipients in these localities will have at least two licensed and qualified HMOs from which to choose. The HMOs in central Virginia are: Sentara family Care (33 localities), Trigon Healthkeepers Plus (30 localities), Southern Health – Carenet (26 localities), Virginia Chartered Health Plan (26 localities), and Optimum Choice, Inc. (23 localities).

For those recipients who do not select a specific HMO, an assignment to a qualified HMO will be made for them. The assignment algorithm first matches the recipient with any previous primary care provider or qualified HMO with which the recipient or family member may have been associated and in its geographic location in relation to the recipient’s residence. This process helps preserve existing provider/patient relationships.

All HMOs must provide, at a minimum, the same services paid for under the fee-for-service systems. However, because of their emphasis on preventive health, many of the HMOs offer enriched benefit packages designed to improve the health of their members.

The HMOs cannot directly market or enroll recipients. The education and enrollment function is the responsibility of the Department of Medical Assistance Services’ (DMAS) contracted enrollment broker. The enrollment broker assists recipients in selecting a plan, registers members’ concerns, and completes health assessment status surveys that are forwarded to the HMOs. The enrollment broker managed care helpline telephone number is 1-800-643-2273.

The 69,000 Medicaid recipients in the region who qualify for Temporary Assistance to Needy Families (TANF) and Supplemental Security Income (SSI) are managed-care-eligible. However, Medicaid recipients in the following groups are excluded from Medallion II. When recipients no longer meet the criteria for exclusion, they will be required to enroll in an HMO. The health services for these groups excluded from the Medallion II program will continue to be paid for through DMAS’ traditional fee-for-service system. These groups are:

- Individuals approved by DMAS as inpatients in nursing facilities, state mental hospitals, long-stay hospitals, intermediate care facilities for the mentally retarded, or hospices;
- Individuals pre-assigned to an HMO, but who have not been enrolled, who are inpatients in hospitals other than those above, until the first day of the month following discharge;

Exclusion requests may be made by the HMO, a provider, or the recipient.

In addition, there are certain services excluded from the HMOs. This includes community rehabilitation mental health services, school-based services, and abortions. **Children’s Medical Security Insurance Plan**

Children’s Medical Security Insurance Plan (CMSIP) provides assistance with health coverage for children through the age of 18 who currently do not have health insurance and who meet the income standards and other criteria set by the State for CMSIP coverage. The plan is paid for by the state and federal governments and is designed to cover children of working Virginia families who make too much to qualify for medical assistance under Medicaid and too little to afford private insurance.

Applicants can call the toll-free hotline number at 1-877-VA-CMSIP (1-877-822-6747) or visit their local department of
social services to request an application. CMSIP enrollees in the Medallion II areas served by HMOs will be enrolled in the HMO of their choice. The HMOs’ emphasis on preventive health care services such as prenatal visits, well baby visits, and immunizations, should improve the care status of the children served by CMSIP.

**DEPARTMENT OF SOCIAL SERVICES**

**Welfare-to-Work (WtW) Grant**

On August 5, 1997, President Clinton signed the Balanced Budget Act of 1997. This legislation amended certain Temporary Assistance for Needy Families (TANF) provisions of the Social Security Act and authorized the Secretary of Labor to provide Welfare-to-Work (WtW) grant to states and local communities. This grant is targeted to provide transitional assistance to move hard-to-employ TANF welfare recipients and certain noncustodial parents into unsubsidized jobs and economic self-sufficiency.

As a part of this effort, the U.S. Department of Labor (DOL), Employment and Training Administration (ETA) has announced the third round of national competitive grants under the WtW grant program. The WtW announcement can be found on the WIW home page at http:wtw.doleta.gov. This announcement describes the conditions under which applications will be received for the WtW competitive grants and how DOL/ETA will determine which applications will be funded. Please note that as you analyze the possibilities of applying and preparing your grant application it is important to coordinate with your local departments of social services and private industry councils.

The Department of Labor is placing a high priority on funding applications targeted to specific populations who face particular challenges in moving from welfare-to-work: noncustodial parents, individuals with disabilities, individuals who require substance abuse treatment, victims of domestic violence, and individuals with limited English proficiency. Applications targeting these high priority populations may be eligible for bonus points. Applications for other WtW projects will also be considered but will not be eligible for these bonus points.

The closing date for receipt of the WtW, round three, grant applications is April 30, 1999. Please note that there are earlier deadlines for your submission and review by the local Private Industry Council and the Governor’s designated review with the Virginia Department of Social Services. Any questions regarding Virginia’s Welfare-to-Work program can be addressed to David Olds, Virginia Department of Social Services, at (804) 692-2251 or Wendy Howard-Drumgole, Virginia Department of Social Services, at (804) 692-1358.

STATE AIR POLLUTION CONTROL BOARD

Reproposed

March 17, 1999 - 10 a.m. -- Public Hearing
Department of Environmental Quality, 629 East Main Street, 1st Floor, Training Room, Richmond, Virginia.

March 18, 1999 -- Public comments may be submitted until this date.

Notice is hereby given in accordance with § 9-6.14:7.1 of the Code of Virginia that the State Air Pollution Control Board intends to amend regulations entitled: 9 VAC 5-50-10 et seq. New and Modified Stationary Sources and 9 VAC 5-80-10 et seq. Permits for Stationary Sources (Revision YY). The regulations apply to the construction or reconstruction of new stationary sources or expansions (modifications) to existing ones. Exemptions are provided for smaller facilities. With some exceptions, the owner must obtain a permit from the agency prior to the construction or modification of the source. The owner of the proposed new or modified source must provide information as may be needed to enable the agency to conduct a preconstruction review in order to determine compliance with applicable control technology and other standards and to assess the impact of the emissions from the facility on air quality. The regulation also provides the basis for the agency's final action (approval or disapproval) on the permit depending upon the results of the preconstruction review. The regulation provides a source-wide perspective to determine applicability based solely upon the emissions changes directly resultant from the physical or operational change. The regulation provides for the use of a plantwide applicability limit (PAL). Under this concept, a source owner could make physical or operational changes to emission

Virginia Register of Regulations

1956
units covered by the PAL without being subject to the major new source permit program as long as the overall emissions did not exceed the PAL. Concurrent construction, that is construction while waiting for the permit to be issued, is allowed in some cases. Under this arrangement the source owner would assume full liability should the permit not be issued. Provisions covering general permits are included. Procedures for making changes to permits are included. The regulation also allows consideration of additional factors for making Best Available Control Technology determinations for sources subject to minor new source review.

On December 8, 1997, the board published for public comment a proposal to amend its regulations concerning new and modified new source review. In response to that request, comments were submitted that resulted in several changes being made to the original proposal, primarily to meet EPA regulations and policy. Because of the substantive nature of these additional changes, the board is now republishing the proposal for public comment. The changes are enumerated below and derived from (i) comments made by the general public during the public comment period on the original proposal, (ii) comments made by EPA during the public comment period on the original proposal and during subsequent discussions and negotiations, and (iii) clarifications and other improvements noted by DEQ staff during subsequent reviews.

1. The changes to the regulation are being presented in strikethrough/italicized form using the current version as the base document in order to facilitate review of the proposal in light of the current regulation.

2. The definition of actual emissions has been revised to include the “actuals to future actuals” approach as an option to the “actual to potential” approach for new units as EPA has done in its major source new source review (NSR) reform proposal.

3. The definition of “significant” has been revised to exclude hazardous air pollutants as EPA has done in its major source NSR reform proposal.

4. The definition of “stationary source” has been revised to exclude nonroad engines.

5. Provisions have been added to allow implementation of the federal hazardous air pollutant new source review program (FHAPNSR) by incorporation by reference rather than trying to alter the text of the regulation to accommodate these program elements; it was very difficult to write text to implement this program given the differences and complexities of the various program elements. The FHAPNSR program includes the various preconstruction approval requirements found in 40 CFR Part 61 and 40 CFR Part 63 (including the § 112(g) requirements). The provisions covering public participation have been changed to require a public comment period only for permit applications requiring a case-by-case maximum available control technology determination under the FHAPNSR program. These changes are reflected in the definition of “federal hazardous air pollutant new source review program,” 9 VAC 5-80-1120 H, and various other provisions throughout the new version.

6. The provisions concerning concurrent construction have been revised such that they are not applicable to (i) any stationary source or emissions unit subject to the major source NSR requirements for prevention of significant deterioration (PSD) or nonattainment areas, (ii) any stationary source for which a plantwide applicability limit is established, or (iii) any synthetic minor or other stationary source receiving a minor NSR permit that would establish terms and conditions that would enable the source to avoid major source permit and other requirements. These changes are reflected in the definition of “synthetic minor” and 9 VAC 5-80-1130 D in the new version.

7. The provisions correcting the public participation requirements for major modifications that have been disapproved by EPA have been rewritten for clarity. These changes are reflected in the definition of “major modification” and 9 VAC 5-80-1170 D 2 in the new version.

8. The provisions concerning plantwide applicability limits (PAL) have been revised to incorporate the following provisions: (i) PALs may only be used for the entire stationary source not just a part, (ii) the definition of actual emissions from the current PSD regulations is used in lieu of the version used for the regulation at large, (iii) PALs may only be used to avoid permits for major source modifications unless the permit includes preapprovals (with appropriate terms and conditions) for the specific changes that would otherwise be subject to minor NSR. A minor NSR permit would be required for any changes not covered by the advance approvals. These changes are reflected in the definition of “plantwide applicability limit” and “plantwide applicability limit modification” and 9 VAC 5-80-1310 in the new version.

9. The exemptions related to solvent cleaning operations and various coating operations have been clarified such that they are limited to volatile organic compounds, as was the original intent. These changes are reflected in 9 VAC 5-80-1320 B 4 and B 6 through B19.

10. The exemption of stationary sources under 9 VAC 5-80-1320 C has been rewritten to exclude the facilities exempted under 9 VAC 5-80-1320 B from the calculation of potential to emit.

11. The shutdown (9 VAC 5-20-220) and certification (9 VAC 5-20-230) provisions have been removed as they have already been adopted as part of our amendments to the state operating permit regulation.

Localities Affected: There is no locality which will bear any identified disproportionate material air quality impact due to the proposed regulation which would not be experienced by other localities.
