CUMULATIVE TABLE OF VIRGINIA ADMINISTRATIVE CODE SECTIONS ADOPTED, AMENDED, OR REPEALED

The table printed below lists regulation sections, by Virginia Administrative Code (VAC) title, that have been amended, added or repealed in the *Virginia Register* since the regulations were originally published or last supplemented in VAC (the Fall 2004 VAC Supplement includes final regulations published through *Virginia Register* Volume 20, Issue 24, dated August 9, 2004). Emergency regulations, if any, are listed, followed by the designation "emer," and errata pertaining to final regulations are listed. Proposed regulations are not listed here. The table lists the sections in numerical order and shows action taken, the volume, issue and page number where the section appeared, and the effective date of the section.

PETITIONS FOR RULEMAKING

TITLE 9. ENVIRONMENT

STATE WATER CONTROL BOARD

Initial Agency Notice

<u>Title of Regulation:</u> 9 VAC 25-260. Water Quality Standards.

<u>Statutory Authority:</u> § 62.1-44.15 of the Code of Virginia. Name of Petitioner: Amherst County Service Authority.

<u>Nature of Petitioner's Request:</u> Designate as an exceptional state surface water Cove Creek, Little Cove Creek and its tributaries, Rocky Branch, North Fork of the Buffalo River from its confluence with Rocky Branch downstream to the National Forest boundary, Roberts Creek, and Shady Mountain Creek all of which are within Amherst County.

Agency's Plan for Disposition of Request: The State Water Control Board has delegated to the director to proceed to the Notice of Intended Regulatory Action if no adverse comments are received on the petition from the potentially impacted localities and riparian landowners. If adverse comments are received, the board will decide whether or not to move forward with the rulemaking at their first quarterly meeting of 2005.

Public comments may be submitted until February 14, 2005.

TITLE 8. EDUCATION

STATE BOARD OF EDUCATION

Notice of Intended Regulatory Action

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the State Board of Education intends to consider promulgating regulations entitled **8 VAC 20-660**, **Regulations Governing Reenrollment Plans**. The purpose of the proposed action is to establish regulations regarding the transfer of students between public schools, detention homes and juvenile correctional centers. The regulation will establish a reenrollment plan to share information about a student's public and correctional education and to facilitate a student's reenrollment in public schools upon release from commitment.

The agency intends to hold a public hearing on the proposed action after publication in the Virginia Register.

Statutory Authority: §§ 22.1-17.1, 22.1-343 and 16.1-293 of the Code of Virginia.

Public comments may be submitted until February 10, 2005.

Contact: Dr. Cynthia Cave, Director of Student Services, Department of Education, P.O. Box 2120, Richmond, VA 23218, telephone (804) 225-2818, FAX (804) 225-2524 or e-mail ccave@mail.vak12ed.edu.

TITLE 9. ENVIRONMENT

STATE WATER CONTROL BOARD

† Notice of Intended Regulatory Action

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the State Water Control Board intends to consider amending regulations entitled **9 VAC 25-210, Virginia Water Protection Permit Regulation.** The purpose of the proposed action is to (i) incorporate changes to the Code of Virignia relating to the emergency permitting of water withdrawal projects; (ii) incorporate the U.S. Supreme Court's ruling in Virginia vs. Maryland; (iii) include changes already made to the general permit regulations that corrected administrative procedures, clarified application and permitting requirements, and allowed for a more efficient application review process; (iv) implement a formal preapplication scoping process for water supply projects; (v) clarify the requirement for cumulative impact assessment for water supply projects; (vi) clarify requirements for alternative analysis for water

supply projects; (vii) investigate ways to simplify, clarify and improve coordination of state agency reviews and comments for water supply projects; (viii) clarify who does and does not need a permit for a water withdrawal by more clearly defining certain terms in light of the statutory "grandfathering" of certain withdrawals; and (ix) clarify the process and criteria for establishing minimum instream flow requirements and evaluation of responses during drought conditions.

The agency intends to hold a public hearing on the proposed action after publication in the Virginia Register.

Statutory Authority: § 62.1-44.15 of the Code of Virginia and § 401 of the Clean Water Act.

Public comments may be submitted until March 4, 2005.

Contact: Scott Kudlas, Department of Environmental Quality, P.O. Box 10009, Richmond, VA 23240, telephone (804) 698-4456, FAX (804) 698-4456 or e-mail swkudlas@deq.virginia.gov.

TITLE 12. HEALTH

STATE BOARD OF HEALTH

Notice of Intended Regulatory Action

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the State Board of Health intends to consider amending regulations entitled 12 VAC 5-590, Waterworks Regulations. The purpose of the proposed action is to require waterworks (public water systems) to have an emergency management plan for use during power outages.

The agency does not intend to hold a public hearing on the proposed action after publication in the Virginia Register.

Statutory Authority: § 32.1-170 of the Code of Virginia.

Public comments may be submitted until February 10, 2005.

TITLE 17. LIBRARIES AND CULTURAL RESOURCES

STATE LIBRARY BOARD

Notice of Intended Regulatory Action

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the State Library Board intends to considering promulgating regulations entitled 17 VAC 15-120, Regulations Governing the Destruction of Public Records Containing Social Security Numbers. The purpose of the proposed action is to curb the growing problem of identity theft. Identity theft occurs when a criminal uses another person's personal information to take on that person's identity. The intent of the regulation is to protect individuals from identity theft by eliminating unauthorized access to social security numbers in public records. The regulation will address best methods for destruction of public records containing social security numbers so that the social security numbers cannot be found and used for identity theft.

Any public records, regardless of media, that contain social security numbers are to be destroyed in a manner that protects the confidentiality of the information. These records are to be destroyed, made electronically inaccessible or erased so as to make social security numbers unreadable by any means.

The agency does not intend to hold a public hearing on the proposed action after publication in the Virginia Register.

Statutory Authority: § 42.1-82 of the Code of Virginia.

Public comments may be submitted until February 10, 2005.

DEPARTMENT OF PROFESSIONAL AND OCCUPATIONAL REGULATION

† Notice of Intended Regulatory Action

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the Department of Professional and Occupational Regulation intends to consider amending regulations entitled 18 VAC 120-30, Regulations Governing Polygraph Examiners. The purpose of the proposed action is to review and, where necessary, amend current regulations to reflect statutory changes, industry changes (especially those that involve technological advances in equipment and training), and changes suggested by licensees and members of the public during the board's normal course of operations.

The agency intends to hold a public hearing on the proposed action after publication in the Virginia Register.

Statutory Authority: § 54.1-1802 of the Code of Virginia.

Public comments may be submitted until February 23, 2005.

Contact: Kevin Hoeft, Regulatory Board Administrator, Department of Professional and Occupational Regulation, 3600 W. Broad St., Richmond, VA 23230, telephone (804) 367-6166, FAX (804) 367-2474 or e-mail polygraph@dpor.virginia.gov.

TITLE 9. ENVIRONMENT

STATE WATER CONTROL BOARD

<u>Title of Regulation:</u> 9 VAC 25-260. Water Quality Standards (amending 9 VAC 25-260-30).

Statutory Authority: § 62.1-44.15 of the Code of Virginia, the federal Clean Water Act (33 USC 1251 et seq.), and 40 CFR Part 131.

Public Hearing Date: March 7, 2005 - 2 p.m.

Public comments may be submitted until April 1, 2005.

(See Calendar of Events section for additional information)

Agency Contact: Jean W. Gregory, Department of Environmental Quality, P.O. Box 10009, Richmond, VA 23240, telephone (804) 698-4113, or e-mail jwgregory@deq.virginia.gov.

Basis: Section 62.1-44.15 (3a) of the Code of Virginia mandates and authorizes the board to establish water quality standards and policies for any state waters consistent with the purpose and general policy of the State Water Control Law, and to modify, amend or cancel any such standards or policies established. The federal Clean Water Act at § 303(c) mandates the State Water Control Board to review and, as appropriate, modify and adopt water quality standards. The corresponding federal water quality standards regulation at 40 CFR 131.6 describes the minimum requirements for water quality standards. The minimum requirements are use designations, water quality criteria to protect the designated uses and an antidegradation policy. All of the citations mentioned describe mandates for water quality standards.

The EPA Water Quality Standards regulation (40 CFR 131.12) is the regulatory basis for the EPA requiring the states to establish within the antidegradation policy the exceptional state waters category and the eligibility decision criteria for these waters. EPA retains approval/disapproval oversight, but delegates to the states the election and designation of specific water bodies as exceptional state waters.

<u>Purpose:</u> These proposed amendments are a necessary revision to the state water quality standards regulation. The State Water Control Board took action on these department initiated candidates for proposed designation because department staff had concluded, based on the information available at the time of the preliminary evaluation, that the proposed designation met the eligibility requirements that a water body must meet before it can be afforded the extra point source protection provided by such a designation. The exceptional state waters category of the antidegradation policy allows the board to designate waters which display exceptional environmental settings and either exceptional aquatic communities or exceptional recreational opportunities

for added protection. Once designated, the antidegradation policy provides that no water quality degradation would be allowed in the exceptional state waters. The only exception would be temporary, limited impact activities. By ensuring that no water quality degradation is allowed to occur in waters with exceptional environmental settings and either exceptional recreational opportunities or exceptional aquatic communities, the board is protecting these special waters at their present quality for use and enjoyment by future generations of Virginians.

<u>Substance:</u> The amendments to the Antidegradation Policy of the Water Quality Standards designate portions of Big Run, Doyles River, East Hawksbill Creek, Jeremys Run, East Branch Naked Creek, Piney River, and North Fork Thornton River for special protection as exceptional state waters.

<u>Issues:</u> Upon permanent regulatory designation of a water body as an exceptional state water, the quality of that water body will be maintained and protected by not allowing any degradation except on a very short-term basis. No new, additional or increased point source discharge of sewage, industrial wastes or other pollution would be allowed into waters designated. In addition, no new mixing zones would be allowed in the Exceptional State Water and mixing zones from upstream or tributary waters could not extend into the Exceptional State Water section.

A potential disadvantage to the public may be the prohibition of new or expanded permanent point source discharges imposed within the segment once the regulatory designation is effective that would cause riparian landowners within the designated segment to seek alternatives to discharging to the designated segment and, therefore, to have additional financial expenditures associated with wastewater or storm water treatment. However, the only riparian landowner for each of these waters is a federal agency (National Park Service) and none of these waters contain any permitted point source discharges nor is any anticipated by the federal agency.

The primary advantage to the public is that these waters will be protected at their present high level of quality for the use and enjoyment of current and future generations of Virginians.

The factors to be considered in determining whether a nominated water body meets the eligibility decision criteria of exceptional environmental settinas and possessing outstanding recreational opportunities and/or exceptional aquatic communities are described in the department's revised April 25, 2001 "Guidance for Exceptional Surface Waters Designations in Antidegradation Policy Section of Virginia Water Quality Standards Regulation (9 VAC 25-260-30 A 3). Although all of these waters proposed for designation are located on public (federal) land, those localities and businesses located near the designated waters may experience financial benefits through an increase in eco-

tourism to the area because of the exceptional nature of the water body that lead to its designation.

There is no disadvantage to the agency or the Commonwealth that will result from the adoption of these amendments.

Department of Planning and Budget's Economic Impact Analysis: The Department of Planning and Budget (DPB) has analyzed the economic impact of this proposed regulation in accordance with § 2.2-4007 H of the Administrative Process Act and Executive Order Number 21 (02). Section 2.2-4007 H requires that such economic impact analyses include, but need not be limited to, the projected number of businesses or other entities to whom the regulation would apply, the identity of any localities and types of businesses or other entities particularly affected, the projected number of persons and employment positions to be affected, the projected costs to affected businesses or entities to implement or comply with the regulation, and the impact on the use and value of private property. The analysis presented below represents DPB's best estimate of these economic impacts.

Summary of the proposed regulation. The General Assembly mandates in § 62.1-44.15 of the Code of Virginia that the State Water Control Board establish standards of quality and policies for any state waters consistent with the purpose and general policy of the State Water Control Law. The code also mandates that the State Water Control Board modify, amend, or cancel any such standards or policies and take all appropriate steps to prevent an alteration to water quality contrary to the public interest or contrary to established standards and policies.

The proposed regulation amends the anti-degradation section of the state's water quality standards to designate seven surface waters within the Shenandoah National Park for special protection as exceptional state waters. These waters, located in the counties of Albemarle, Page, Rappahannock, and Rockingham, include portions of Big Run, Doyles River, East Hawksbill Creek, Jeremys Run, East Branch Naked Creek, Piney River, and North Fork Thornton River.

Estimated economic impact. The proposed regulation designates seven surface waters within the Shenandoah National Park for special protection as exceptional state waters. These waters include portions of Big Run, Doyles River, East Hawksbill Creek, Jeremys Run, East Branch Naked Creek, Piney River, and North Fork Thornton River. The waters to be designated are located in the counties of Albemarle, Page, Rappahannock, and Rockingham. exceptional water quality designation provides extra protection against water quality degradation due to point source discharges. No new or increased point source discharge of sewage, industrial waste, or other pollution are allowed into the water once it has been designated as an exceptional state water. In addition, no new mixing zones are allowed in the designated waters and mixing zones from upstream or tributary waters are not allowed to extend into these designated waters. The designation only makes an exception in the case of temporary, limited impact activities and discharges.

By designating these waters as exceptional state waters, the proposed regulation will prohibit riparian landowners from new or expanded permanent point source discharges. Moreover, by prohibiting new mixing zones in these waters and by restricting mixing zones upstream from expanding into these waters, the proposed change could also affect discharges directly upstream or in tributary waters upstream to the designated water. Under these circumstances, riparian landowners and affected entities upstream of the designation would have to seek alternatives (such as treating the water to a higher degree or using diffusers to reduce the size of upstream mixing zones) to discharging into the stream as currently allowed. Thus, the designation of these waters as exceptional state waters could have a negative impact on future economic activity in the area. However, the designation is also likely to produce some economic benefits. designating these waters as exceptional state waters, the proposed change is likely to encourage tourism in the surrounding areas and counties. The designation is likely to increase the number of people coming to the area seeking recreational outdoor activities such as fishing, camping, hiking, and kayaking. This, in turn, is likely to boost economic activity in the area.

The net impact of the proposed change will depend on whether the negative impact of the proposed change on some types of economic activity will be greater than or less than its positive impact on other types of activity. There are no precise estimates available at this time of the net economic impact of the proposed change. According to the Department of Environmental Quality (DEQ), there is only one riparian landowner, the National Park Service. The head of the Shenandoah National Park has indicated to DEQ that the waters to be designated are not near any visitor or research stations and that no development has been planned in the vicinity of the waters to be designated. There are currently no Virginia Pollution Discharge Elimination System (VPDES) permittees located on these waters and none are anticipated by the National Park Service. Moreover, according to DEQ, the waters to be designated are headwaters, i.e., the source of a river or stream. Thus, the mixing zone restrictions associated with the designation are not relevant to these waters. The fact that the land adjacent to these waters is owned by the National Park Service and that the waters to be designated are headwaters indicate that the negative impact of the proposed change on future economic activity in the area is likely to be limited and quite possibly outweighed by the positive impact on tourism and related economic activity.

Businesses and entities affected. The exceptional state waters designation prohibits new or expanded point source discharges and mixing zones in the designated waters and restricts the size of mixing zones directly upstream or in tributary waters upstream. These restrictions will have a negative effect on any businesses and entities seeking new or expanded point source discharges into or upstream of the designated waters. These businesses and entities will be required to seek alternatives to discharging as currently allowed. However, as the only riparian landowner is the National Park Service and the waters to be designated are headwaters, the number of such entities is likely to be limited.

Other businesses and entities affected by the proposed regulation include those involved in the tourism industry in areas surrounding the waters to be designated. By

encouraging outdoor recreational activities in the area, the proposed change will have a positive economic impact on these businesses.

According to DEQ, there is only one riparian landowner, the National Park Service. There are currently no VPDES permittees located on these waters and none are anticipated by the National Park Service. Moreover, as the waters to be designated are headwaters, there are no VPDES permits upstream of these waters and none are anticipated.

Localities particularly affected. The proposed regulation will affect the counties of Albemarle, Page, Rappahannock, and Rockingham in areas surrounding the waters to be designated.

Projected impact on employment. Designating waters as exceptional state waters is likely to restrict employment growth in industries that would require discharging into or upstream of the designated waters. However, as the National Park Service is the only riparian landowner and the waters to be designated are headwaters, the number of such industries is likely to be limited.

On the other hand, by encouraging outdoor recreational activities, the proposed designation is likely to encourage employment growth in the industries related to tourism and outdoor recreation.

Effects on the use and value of private property. Restrictions associated with the exceptional state waters designation will have a negative effect on any businesses and entities seeking new or expanded point source discharges into or upstream of the designated waters. These businesses and entities will be required to seek alternatives to discharging as currently allowed. However, as the only riparian landowner is the National Park Service and the waters to be designated are headwaters, the number of such entities is likely to be limited.

On the other hand, an increase in the number of people seeking outdoor recreational activities in the area is likely to increase revenues and hence the asset value of firms involved in the tourism and outdoor recreation industry. The proposed designation and any subsequent increase in economic activity could also have a positive impact on property values in the area.

Agency's Response to the Department of Planning and Budget's Economic Impact Analysis: The department has reviewed the economic impact analysis prepared by the Department of Planning and Budget and has no comment.

Summary:

The proposed amendments designate seven surface waters for protection as exceptional state waters as follows: portions of Big Run, Doyles River, East Hawksbill Creek, Jeremys Run, East Branch Naked Creek, Piney River, and North Fork Thornton River.

9 VAC 25-260-30. Antidegradation policy.

A. All surface waters of the Commonwealth shall be provided one of the following three levels, or tiers, of antidegradation protection. This antidegradation policy shall be applied

whenever any activity is proposed that has the potential to affect existing surface water quality.

- 1. As a minimum, existing instream water uses and the level of water quality necessary to protect the existing uses shall be maintained and protected.
- 2. Where the quality of the waters exceed water quality standards, that quality shall be maintained and protected unless the board finds, after full satisfaction of the intergovernmental coordination and public participation provisions of the Commonwealth's continuing planning process, that allowing lower water quality is necessary to accommodate important economic or social development in the area in which the waters are located. In allowing such degradation or lower water quality, the board shall assure water quality adequate to protect existing uses fully. Further, the board shall assure that there shall be achieved the highest statutory and regulatory requirements applicable to all new or existing point source discharges of effluent and all cost-effective and reasonable best management practices for nonpoint source control.
- 3. Surface waters, or portions of these, which provide exceptional environmental settings and exceptional aquatic communities or exceptional recreational opportunities may be designated and protected as described in subdivisions 3 a, b and c of this subsection.
 - a. Designation procedures.
 - (1) Designations shall be adopted in accordance with the provisions of the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia) and the board's public participation guidelines.
 - (2) Upon receiving a nomination of a waterway or segment of a waterway for designation as an exceptional state water pursuant to the board's antidegradation policy, as required by 40 CFR 131.12, the board shall notify each locality in which the waterway or segment lies and shall make a good faith effort to provide notice to impacted riparian property owners. The written notice shall include, at a minimum: (i) a description of the location of the waterway or segment; (ii) the procedures and criteria for designation as well as the impact of the designation; (iii) the name of the person making the nomination; and (iv) the name of a contact person at the Department of Environmental Quality who is knowledgeable about the nomination and the waterway or segment. Notice to property owners shall be based on names and addresses taken from local tax rolls. Such names and addresses shall be provided by the Commissioners of the Revenue or the tax assessor's office of the affected jurisdiction upon request by the board. After receipt of the notice of the nomination, localities shall be provided 60 days to comment on the consistency of the nomination with the locality's comprehensive plan. The comment period established by subdivision 3 a (2) of this subsection shall in no way impact a locality's ability to comment during any additional comment periods established by the board.

- b. Implementation procedures.
 - (1) The quality of waters designated in subdivision 3 c of this subsection shall be maintained and protected to prevent permanent or long-term degradation or impairment.
 - (2) No new, additional, or increased discharge of sewage, industrial wastes or other pollution into waters designated in subdivision 3 c of this subsection shall be allowed.
 - (3) Activities causing temporary sources of pollution may be allowed in waters designated in subdivision 3 c of this subsection even if degradation may be expected to temporarily occur provided that after a minimal period of time the waters are returned or restored to conditions equal to or better than those existing just prior to the temporary source of pollution.
 - c. Surface waters designated under this subdivision are as follows:
 - (1) (Reserved.)
 - (2) (Reserved.)
 - (3) (Reserved.)
 - (4) North Creek in Botetourt County from the first bridge above the United States Forest Service North Creek Camping Area to its headwaters.
 - (5) (Reserved.)
 - (6) (Reserved.)
 - (7) (Reserved.)
 - (8) (Reserved.)
 - (9) (Reserved.)
 - (10) (Reserved.)
 - (11) (Reserved.)
 - (12) Big Run in Rockingham County from its headwaters downstream to the first crossing with the Shenandoah National Park boundary and all tributaries to this segment of Big Run within the confines of Shenandoah National Park.
 - (13) Doyles River in Albemarle County from its headwaters to the first crossing with the Shenandoah National Park boundary and Jones Falls Run from its headwaters to its confluence with Doyles River and all tributaries to these segments of Doyles River and Jones Fall Run within the confines of Shenandoah National Park.
 - (14) East Hawksbill Creek in Page County from its headwaters downstream to the first crossing with the Shenandoah National Park boundary and all tributaries to this segment of East Hawksbill Creek within the confines of Shenandoah National Park.
 - (15) Jeremys Run in Page County from its headwaters downstream to the first crossing with the Shenandoah

- National Park boundary and all tributaries to this segment of Jeremys Run within the confines of Shenandoah National Park.
- (16) East Branch Naked Creek in Page County from its headwaters downstream to the first crossing with the Shenandoah National Park boundary and all tributaries to this segment of East Branch Naked Creek within the confines of Shenandoah National Park.
- (17) Piney River in Rappahannock County from its headwaters downstream to the first crossing with the Shenandoah National Park boundary and all tributaries to this segment of the Piney River within the confines of Shenandoah National Park.
- (18) North Fork Thornton River in Rappahannock County from its headwaters downstream to the first crossing with the Shenandoah National Park boundary and all tributaries to this segment of the North Fork Thornton River within the confines of Shenandoah National Park.
- B. Any determinations concerning thermal discharge limitations made under § 316(a) of the Clean Water Act will be considered to be in compliance with the antidegradation policy.

TITLE 18. PROFESSIONAL AND OCCUPATIONAL LICENSING

BOARD FOR FUNERAL DIRECTORS AND EMBALMERS

<u>Title of Regulation:</u> 18 VAC 65-20. Regulations of the Board of Funeral Directors and Embalmers (adding 18 VAC 65-20-15).

Statutory Authority: § 54.1-2400 of the Code of Virginia.

Public Hearing Date: February 9, 2005 - 8:45 a.m.

Public comments may be submitted until March 25, 2005. (See Calendar of Events section for additional information)

Agency Contact: Elizabeth Young, Executive Director, Board for Funeral Directors and Embalmers, 6603 West Broad Street, 5th Floor, Richmond, VA 23230-1712, telephone (804) 662-9907, FAX (804) 662-9943, or e-mail elizabeth.young@dhp.virginia.gov.

<u>Basis:</u> Section 54.1-2400 of the Code of Virginia provides the Board of Funeral Directors and Embalmers the authority to promulgate regulations to administer the regulatory system and to delegate informal fact finding to an agency subordinate.

<u>Purpose:</u> One of the most important functions of the Department of Health Professions is the investigation and adjudication of disciplinary cases to ensure that the public is adequately protected if a health care professional violates a

law or regulation. The law enacted by the 2004 General Assembly and adoption of these proposed rules give another tool to health regulatory boards seeking to bring closure to cases in a timely manner by allowing cases to be delegated to an agency subordinate, who could be a single board member trained and qualified to conduct a fact-finding proceeding.

In § 2.2-4019 of the Administrative Process Act (APA), provisions for an informal fact-finding proceeding establish the rights of parties to a disciplinary case including the right to "appear in person or by counsel or other qualified representative before the agency or its subordinates, or before a hearing officer for the informal presentation of factual data, argument, or proof in connection with any case." A "subordinate" is defined in the APA as "(i) one or more but less than a quorum of the members of a board constituting an agency, (ii) one or more of its staff members or employees, or (iii) any other person or persons designated by the agency to act in its behalf." The proposed regulations specify that health regulatory boards can conduct fact-finding proceedings by delegation to a subordinate, the types of cases that are not appropriate for delegation and the criteria for a subordinate.

The board will retain the authority to determine whether to delegate any proceedings, the type of disciplinary case that could be delegated and who would serve as its subordinate. While certain standard of care cases may continue to be heard by board members appointed to a special conference committee, other disciplinary matters could be delegated to a person qualified by knowledge and background to determine the facts in the case. Delegation to an agency subordinate will be available to address cases that may arise from audits for continuing education compliance, or inspection-related violations. Proposed regulations state the types of cases that may not be heard by a subordinate. The ability of a board to delegate certain cases through a proceeding conducted by a subordinate will alleviate the disciplinary burden for board members, ensure resolution in a timelier manner and reserve board member time for hearing more serious matters.

<u>Substance:</u> 18 VAC 65-20-15 is added to Part I, General Provisions, in order to establish in regulation the criteria for delegation, including the decision to delegate at the time of a probable cause determination, the types of cases that cannot be delegated, and the individuals who may be designated as agency subordinates.

Issues: The only advantage to the public may be a speedier resolution of disciplinary cases, but the cases that would likely be heard by a subordinate of the Board of Funeral Directors and Embalmers would probably not involve standard of care for patients. It is likely that the board will delegate cases that involve such violations as failure to obtain continuing education or certain inspection violations. Therefore, there may not be any real advantage or disadvantage to the public.

There are no disadvantages to the agency or the Commonwealth. If adjudication of certain types of cases could be handled with the use of a subordinate rather than a committee of the board, there may be some advantages in resolution of cases and a modest reduction in costs for informal fact finding. Scheduling a single board member to sit as an agency subordinate will be easier than scheduling for

two or more members, so it may be possible for cases to be heard more quickly. On the other hand, recommendations of the subordinate will have to be ratified by the board, so resolution of the case may be somewhat delayed until the next scheduled meeting at which a quorum of the board can be present.

Department of Planning and Budget's Economic Impact Analysis: The Department of Planning and Budget (DPB) has analyzed the economic impact of this proposed regulation in accordance with § 2.2-4007 H of the Administrative Process Act and Executive Order Number 21 (02). Section 2.2-4007 H requires that such economic impact analyses include, but need not be limited to, the projected number of businesses or other entities to whom the regulation would apply, the identity of any localities and types of businesses or other entities particularly affected, the projected number of persons and employment positions to be affected, the projected costs to affected businesses or entities to implement or comply with the regulation, and the impact on the use and value of private property. The analysis presented below represents DPB's best estimate of these economic impacts.

Summary of the proposed regulation. Pursuant to House Bill 577 of the 2004 General Assembly, the Board of Funeral Directors and Embalmers (board) proposes to delineate the criteria for delegation of informal fact-finding proceedings to an agency subordinate.

Estimated economic impact. Section 54.1-2400 of the Code of Virginia (Code) describes the general powers and duties of health regulatory boards. Among the powers and duties listed is to appoint a special conference committee upon receipt of information that a practitioner of the board in question may be "The special conference subject to disciplinary action. committee may (i) exonerate the practitioner; (ii) reinstate the practitioner; (iii) place the practitioner on probation with such terms as it may deem appropriate; (iv) reprimand the practitioner; (v) modify a previous order; and (vi) impose a monetary penalty ..." House Bill 577 of the 2004 General Assembly added the following language to this section of the Code: "This subdivision shall not be construed to limit the authority of a board to delegate to an appropriately qualified agency subordinate, as defined in § 2.2-4001, the authority to conduct informal fact-finding proceedings ..., upon receipt of information that a practitioner may be subject to disciplinary action. Criteria for the appointment of an agency subordinate shall be set forth in regulations adopted by the board."

In response, the board proposes regulations that specify criteria for delegation of informal fact-finding proceedings to an agency subordinate. Section 2.2-4001 of the Code defines "subordinate" to mean "(i) one or more but less than a quorum of the members of a board constituting an agency, (ii) one or more of its staff members or employees, or (iii) any other person or persons designated by the agency to act in its behalf." According to the Department of Health Professions (department), the board has not been delegating to an agency subordinate the authority to conduct informal fact-finding proceedings upon receipt of information that a practitioner may be subject to disciplinary action. The department believes that the introduced clarifying language in the Code and the proposed criteria for delegation of informal fact-finding

proceedings to an agency subordinate in the regulations will make it more likely that the board will delegate to an agency subordinate the authority to conduct informal fact-finding proceedings. The department also believes that it is more likely that such agency subordinates will consist of current or past board members than department staff.

It is generally easier for smaller groups (including just one individual) to schedule the time necessary to conduct factfinding proceedings than for larger groups, i.e., the entire board. Thus, to the extent that the adoption of the proposed criteria in the regulations paired with the clarifying language in the Code make it more likely that the board will delegate to an agency subordinate the task to conduct informal fact-finding proceedings, closure may be brought to some disciplinary cases in a more timely manner. Since the board must still ratify recommendations of the subordinate, the subject of the potential disciplinary action will still be under the judgment of the entire board, rather than just a subset. Therefore, since the proposal produces no significant cost and the potential for disciplinary cases to be concluded in a timelier manner is created, the proposed amendment to the regulations will likely produce a net benefit.

Businesses and entities affected. The proposed criteria potentially affect the 1,439 funeral service providers, 131 funeral directors, 6 embalmers, 520 funeral establishments, 48 surface transportation and removal service firms, 70 crematories, 183 resident trainees, and 109 courtesy card holders regulated by the board, 1 as well as their clients.

Localities particularly affected. The proposed regulations affect all Virginia localities.

Projected impact on employment. The proposed amendments will not significantly affect employment levels.

Effects on the use and value of private property. The proposed amendments will not have a large impact on the use and value of private property.

Agency's Response to the Department of Planning and Budget's Economic Impact Analysis: The Board of Funeral Directors and Embalmers concurs with the analysis of the Department of Planning and Budget for the proposed regulation, 18 VAC 65-20, relating to delegation of informal fact finding to an agency subordinate.

Summary:

The proposed amendments establish the criteria for delegation of informal fact-finding proceedings to an agency subordinate, including the decision to delegate at the time of a probable cause determination, the types of cases that cannot be delegated, and the individuals who may be designated as agency subordinates. The proposed regulation will replace emergency regulations that have been in effect since July 15, 2004.

18 VAC 65-20-15. Criteria for delegation of informal factfinding proceedings to an agency subordinate.

- A. Decision to delegate. In accordance with § 54.1-2400 (10) of the Code of Virginia, the board may delegate an informal fact-finding proceeding to an agency subordinate upon determination that probable cause exists that a practitioner may be subject to a disciplinary action.
- B. Criteria for delegation. Cases that may not be delegated to an agency subordinate are those that involve:
 - 1. Intentional or negligent conduct that causes or is likely to cause injury;
 - 2. Conducting the practice of funeral services in such a manner as to constitute a danger to the health, safety, and well-being of the staff or the public;
 - 3. Impairment with an inability to practice with skill and safety;
 - 4. Inappropriate handling of dead human bodies;
 - Sexual misconduct;
 - 6. Misappropriation of funds; or
 - 7. Aiding or abetting unauthorized practice.
- C. Criteria for an agency subordinate.
 - 1. An agency subordinate authorized by the board to conduct an informal fact-finding proceeding may include board members deemed knowledgeable by virtue of their training and experience in administrative proceedings involving the regulation and discipline of health professionals.
 - 2. The executive director shall maintain a list of appropriately qualified persons to whom an informal fact-finding proceeding may be delegated.
 - 3. The board may delegate to the executive director the selection of the agency subordinate who is deemed appropriately qualified to conduct a proceeding based on the qualifications of the subordinate and the type of case being heard.

<u>Basis:</u> Section 54.1-2400 of the Code of Virginia provides the Board of Nursing the authority to promulgate regulations to administer the regulatory system and to delegate informal fact-finding to an agency subordinate.

<u>Purpose:</u> One of the most important functions of the Department of Health Professions is the investigation and adjudication of disciplinary cases to ensure that the public is adequately protected if a health care professional violates a law or regulation. A "subordinate" is defined in the APA as "(i) one or more but less than a quorum of the members of a board constituting an agency, (ii) one or more of its staff members or employees, or (iii) any other person or persons designated by the agency to act in its behalf." The proposed regulations specify that health regulatory boards can conduct fact-finding proceedings by delegation to a subordinate, the types of cases that are not appropriate for delegation and the criteria for a subordinate.

The board will retain the authority to determine whether to delegate any proceedings, the type of disciplinary case that could be delegated and who would serve as its subordinate. While certain standard of care cases may continue to be heard by board members appointed to a special conference committee, other disciplinary matters could be delegated to a person qualified by knowledge and background to determine the facts in the case. Delegation to an agency subordinate will be available to address cases that may arise from application denial or other violations. Proposed regulations state the types of cases that may not be heard by a subordinate but leave the final decision of delegation to the board president. The ability of a board to delegate certain cases through a proceeding conducted by a subordinate will alleviate the disciplinary burden for board members, ensure resolution in a timelier manner and reserve board member time for hearing more serious matters.

<u>Substance:</u> New regulations are established in order to set in regulation the criteria for delegation, including the decision to delegate at the time of a probable cause determination, the types of cases that cannot be delegated except as may be approved by the board president, and the individuals who may be designated as agency subordinates.

<u>Issues:</u> The only advantage to the public may be a speedier resolution of disciplinary cases. Initially, the cases that would likely be heard by a subordinate of the Board of Nursing would probably not involve standard of care for patients. Therefore, there may not be any real advantage or disadvantage to the public.

There are no disadvantages to the agency or the Commonwealth. If adjudication of certain types of cases could be handled with the use of a subordinate rather than a committee of the board, there may be some advantages in resolution of cases and a modest reduction in costs for informal fact finding. Scheduling a single board member to sit as an agency subordinate will be easier than scheduling for two or more members, so it may be possible for cases to be heard more quickly. On the other hand, recommendations of the subordinate will have to be ratified by the board, so resolution of the case may be somewhat delayed until the next scheduled meeting at which a quorum of the board can be present. Since the board meets at least six times per year, there would be no significant delays.

Department of Planning and Budget's Economic Impact Analysis: The Department of Planning and Budget (DPB) has analyzed the economic impact of this proposed regulation in accordance with § 2.2-4007 H of the Administrative Process Act and Executive Order Number 21 (02). Section 2.2-4007 H requires that such economic impact analyses include, but need not be limited to, the projected number of businesses or other entities to whom the regulation would apply, the identity of any localities and types of businesses or other entities particularly affected, the projected number of persons and employment positions to be affected, the projected costs to affected businesses or entities to implement or comply with the regulation, and the impact on the use and value of private property. The analysis presented below represents DPB's best estimate of these economic impacts.

Summary of the proposed regulation. Pursuant to House Bill 577 of the 2004 General Assembly, the Board of Nursing (board) proposes to delineate the criteria for delegation of informal fact-finding proceedings to an agency subordinate.

Estimated economic impact. Section 54.1-2400 of the Code of Virginia (Code) describes the general powers and duties of health regulatory boards. Among the powers and duties listed is to appoint a special conference committee upon receipt of information that a practitioner of the board in question may be subject to disciplinary action. "The special conference committee may (i) exonerate the practitioner; (ii) reinstate the practitioner; (iii) place the practitioner on probation with such terms as it may deem appropriate; (iv) reprimand the practitioner; (v) modify a previous order; and (vi) impose a monetary penalty ..." House Bill 577 of the 2004 General Assembly added the following language to this section of the Code: "This subdivision shall not be construed to limit the authority of a board to delegate to an appropriately qualified agency subordinate, as defined in § 2.2-4001, the authority to conduct informal fact-finding proceedings ..., upon receipt of information that a practitioner may be subject to disciplinary action. Criteria for the appointment of an agency subordinate shall be set forth in regulations adopted by the board."

In response, the board proposes regulations that specify criteria for delegation of informal fact-finding proceedings to an agency subordinate. Section 2.2-4001 of the Code defines "subordinate" to mean "(i) one or more but less than a quorum of the members of a board constituting an agency, (ii) one or more of its staff members or employees, or (iii) any other person or persons designated by the agency to act in its

behalf." According to the Department of Health Professions (department), the board has not been delegating to an agency subordinate the authority to conduct informal fact-finding proceedings upon receipt of information that a practitioner may be subject to disciplinary action. The department believes that the introduced clarifying language in the Code and the proposed criteria for delegation of informal fact-finding proceedings to an agency subordinate in the regulations will make it more likely that the board will delegate to an agency subordinate the authority to conduct informal fact-finding proceedings. The department also believes that it is more likely that such agency subordinates will consist of current or past board members than department staff.

It is generally easier for smaller groups (including just one individual) to schedule the time necessary to conduct factfinding proceedings than for larger groups, i.e., the entire board. Thus, to the extent that the adoption of the proposed criteria in the regulations paired with the clarifying language in the Code make it more likely that the board will delegate to an agency subordinate the task to conduct informal fact-finding proceedings, closure may be brought to some disciplinary cases in a more timely manner. Since the board must still ratify recommendations of the subordinate, the subject of the potential disciplinary action will still be under the judgment of the entire board, rather than just a subset. Therefore, since the proposal produces no significant cost and the potential for disciplinary cases to be concluded in a timelier manner is created, the proposed amendment to the regulations will likely produce a net benefit.

Businesses and entities affected. The proposed criteria potentially affect the 87,414 registered nurses, 28,579 practical nurses, 463 clinical nurse specialists, 4,955 licensed nurse practitioners, 3,863 certified massage therapists, and 40,680 certified nurse aids¹ in the Commonwealth, as well as their patients.

Localities Particularly Affected. The proposed regulations affect all Virginia localities.

Projected Impact on Employment. The proposed amendments will not significantly affect employment levels.

Effects on the Use and Value of Private Property. The proposed amendments will not have a large impact on the use and value of private property.

Agency's Response to the Department of Planning and Budget's Economic Impact Analysis: The Board of Nursing concurs with the analysis of the Department of Planning and Budget for the proposed regulation, 18 VAC 90-15, relating to delegation of informal fact finding to an agency subordinate.

Summary:

The proposed regulation establishes the criteria for delegation of informal fact-finding proceedings to an agency subordinate, including the decision to delegate at the time of a probable cause determination, the types of cases that cannot be delegated except by approval of the board president, and the individuals who may be designated as

agency subordinates. The proposed regulation will replace emergency regulations that have been in effect since September 1, 2004.

CHAPTER 15. REGULATIONS GOVERNING DELEGATION TO AN AGENCY SUBORDINATE.

18 VAC 90-15-10. Decision to delegate.

In accordance with § 54.1-2400 (10) of the Code of Virginia, the board may delegate an informal fact-finding proceeding to an agency subordinate upon determination that probable cause exists that a practitioner may be subject to a disciplinary action.

18 VAC 90-15-20. Criteria for delegation.

Cases that involve intentional or negligent conduct that caused serious injury or harm to a patient may not be delegated to an agency subordinate, except as may be approved by the president of the board.

18 VAC 90-15-30. Criteria for an agency subordinate.

- A. An agency subordinate authorized by the board to conduct an informal fact-finding proceeding may include current or past board members and professional staff or other persons deemed knowledgeable by virtue of their training and experience in administrative proceedings involving the regulation and discipline of health professionals.
- B. The executive director shall maintain a list of appropriately qualified persons to whom an informal fact-finding proceeding may be delegated.
- C. The board may delegate to the executive director the selection of the agency subordinate who is deemed appropriately qualified to conduct a proceeding based on the qualifications of the subordinate and the type of case being heard.

<u>Basis:</u> Section 54.1-2400 provides the Boards of Nursing and Medicine the authority to promulgate regulations to administer the regulatory system.

¹ Source: Department of Health Professions.

The specific legal mandate to promulgate the regulation for the licensure of nurse practitioners is found in §§ 54.1-2957 and 54.1-2957.02 of the Code of Virginia.

Purpose: The purpose of the legislation and the enabling regulation is to permit licensed nurse practitioners to sign various forms and certificates and provide medical information or treatment in certain situations, including situations involving the immunization of children, examination of persons suspected of having tuberculosis, prenatal tests, nursing homes, release of certain privileged medical information, competency for driver licenses, release of certain veterinary records, and assisted living facilities. In many circumstances, it is the nurse practitioner who has performed the evaluation or examination upon which an attestation is made or a form signed. Therefore, it is reasonable that the nurse practitioner rather than the physician (who has not seen the patient) be the one authorized to sign certain papers. Public health and safety are sufficiently balanced with greater access to health care by nurse practitioners who are practicing within their specialty training and licensure and working in collaboration with supervising physicians who must periodically review their care of the patients.

<u>Substance:</u> Proposed regulations require that the written protocol between the supervising physician and the nurse practitioner must include the nurse practitioner's authority for signatures, certifications, stamps, verifications, affidavits and endorsements provided the signing of documents is (i) in accordance with the specialty license of the nurse practitioner and with the scope of practice of the supervising physician; (ii) permitted by § 54.1-2957.02 or applicable sections of the Code of Virginia; and (iii) not in conflict with federal law or regulation.

Issues: There are no disadvantages to the public; the proposed rules will allow a nurse practitioner to sign certain documents and attestations on which previous law required the signature of a physician. Provided the nurse practitioner is the one that has performed the physical or treated the patient. it is logical that he or she be the person who signed the appropriate form since the physician may not have personal knowledge of the patient's condition. Proposed rules will ensure that there is a clear understanding, as reflected in the written protocol, about which documents requiring a signature may be signed by the nurse practitioner instead of the supervising physician. The only disadvantage may be a lack of understanding on the part of practitioners about the statutory responsibilities of a physician, who may mistakenly believe he can delegate certain medical acts that are specifically reserved for a licensed physician.

There are no specific advantages or disadvantages to the agency or the Commonwealth. Rules about the written protocol would appear to be understandable and provide appropriate guidance to licensees.

<u>Department of Planning and Budget's Economic Impact Analysis:</u> The Department of Planning and Budget (DPB) has analyzed the economic impact of this proposed regulation in accordance with § 2.2-4007 H of the Administrative Process Act and Executive Order Number 21 (02). Section 2.2-4007 H requires that such economic impact analyses include, but

need not be limited to, the projected number of businesses or other entities to whom the regulation would apply, the identity of any localities and types of businesses or other entities particularly affected, the projected number of persons and employment positions to be affected, the projected costs to affected businesses or entities to implement or comply with the regulation, and the impact on the use and value of private property. The analysis presented below represents DPB's best estimate of these economic impacts.

Summary of the proposed regulation. Pursuant to Chapter 855 of the 2004 Acts of the Assembly, the Board of Nursing (board) proposes to amend these regulations so as to indicate that the written protocol between the supervising physician and the nurse practitioner include the nurse practitioner's authority for signatures, certifications, stamps, verifications, affidavits and endorsements. The board also proposes to clarify that this authority must be in accordance with the specialty license of the nurse practitioner and with the scope of practice of the supervising physician.

Estimated economic impact. Chapter 855 of the 2004 Acts of the Assembly introduced § 54.1-2957.02 to the Code of Virginia. Section 54.1-2957.02 in its entirety is as follows: "Whenever any law or regulation requires a signature, certification, stamp, verification, affidavit or endorsement by a physician, it shall be deemed to include a signature, certification, stamp, verification, affidavit or endorsement by a nurse practitioner." Prior to this legislative act, nurse practitioners were not permitted to sign various forms and certificates and provide medical information or treatment in certain situations, including situations involving immunization of children, examination of persons suspected of having tuberculosis, prenatal tests, nursing homes, release of certain privileged medical information, competency for driver licenses, release of certain veterinary records, and assisted living facilities. The patient was required to wait for the nurse practitioner's supervising physician to be available to sign, etc. In many circumstances, it is the nurse practitioner who has performed the evaluation or examination upon which an attestation is made or a form signed.

By permitting nurse practitioners to provide the signature, certification, stamp, verification, affidavit or endorsement, patients will have shorter waits before the procedures, actions, etc. that necessitated the approval can be performed. This can potentially result in real health benefits. For example, patients who need authorization to receive the flu shot or flu mist may be able to avoid contracting the disease because they are able to get authorization sooner.

Chapter 855 also indicates that the board shall amend these regulations to "require inclusion of the nurse practitioner's authority for signatures, certifications, stamps, verifications, affidavits and endorsements in the written protocol between the supervising physician and the nurse practitioner." Pursuant to Chapter 855, the board proposes to require that the written protocol between the supervising physician and the nurse practitioner include the nurse practitioner's authority for signatures, certifications, stamps, verifications, affidavits and endorsements, provided it is "In accordance with the specialty license of the nurse practitioner and with the scope of practice of the supervising physician." The board's proposal to add the

language specifying that the authority for signatures, etc., be in accordance with the nurse practitioner's specialty license and with the supervising physician's scope of practice is for clarification and does not provide any additional restriction. Thus, the board's proposed language has no effect, beyond clarification.

Businesses and entities affected. The proposed amendments concern the 4,925 licensed nurse practitioners in the Commonwealth, ¹ as well as their patients and supervising physicians.

Localities particularly affected. The proposed amendments affect all Virginia localities.

Projected impact on employment. The proposed amendments to the regulations will not affect employment.

Effects on the use and value of private property. The proposed amendments will not affect the use and value of private property.

Agency's Response to the Department of Planning and Budget's Economic Impact Analysis: The Boards of Nursing and Medicine concur with the analysis of the Department of Planning and Budget for the proposed action on the written protocol for regulation, 18 VAC 90-30, Regulations Governing the Practice of Nurse Practitioners.

Summary:

The proposed amendments require that the written protocol between the supervising physician and the nurse practitioner must include the nurse practitioner's authority for signatures, certifications, stamps, verifications, affidavits and endorsements provided the signing of documents is (i) in accordance with the specialty license of the nurse practitioner and with the scope of practice of the supervising physician; (ii) permitted by § 54.1-2957.02 or applicable sections of the Code of Virginia; and (iii) not in conflict with federal law or regulation.

18 VAC 90-30-120. Practice of licensed nurse practitioners.

- A. A licensed nurse practitioner shall be authorized to engage in practices constituting the practice of medicine in collaboration with and under the medical direction and supervision of a licensed physician.
- B. The practice of licensed nurse practitioners shall be based on specialty education preparation as a nurse practitioner in accordance with standards of the applicable certifying organization and written protocols as defined in 18 VAC 90-30-10.
- C. The written protocol shall include the nurse practitioner's authority for signatures, certifications, stamps, verifications, affidavits and endorsements provided it is:
 - 1. In accordance with the specialty license of the nurse practitioner and with the scope of practice of the supervising physician;

- 2. Permitted by § 54.1-2957.02 or applicable sections of the Code of Virginia; and
- 3. Not in conflict with federal law or regulation.
- G. D. A certified registered nurse anesthetist shall practice in accordance with the functions and standards defined by the American Association of Nurse Anesthetists (Guidelines and Standards for Nurse Anesthesia Practice, Revised 1998) and under the medical direction and supervision of a doctor of medicine or a doctor of osteopathy or the medical direction and supervision of a dentist in accordance with rules and regulations promulgated by the Board of Dentistry.
- D. E. A certified nurse midwife shall practice in accordance with the Standards for the Practice of Nurse-Midwifery (Revised 1993) defined by the American College of Nurse-Midwives.

BOARD OF SOCIAL WORK

<u>Title of Regulation:</u> 18 VAC 140-20. Regulations Governing the Practice of Social Work (adding 18 VAC 140-20-171).

Statutory Authority: § 54.1-2400 of the Code of Virginia.

Public Hearing Date: February 25, 2005 - 10 a.m.

Public comments may be submitted until March 25, 2005.

(See Calendar of Events section for additional information)

Agency Contact: Evelyn B. Brown, Executive Director, Board of Social Work, 6603 West Broad Street, 5th Floor, Richmond, VA 23230-1712, telephone (804) 662-9914, FAX (804) 662-9943, or e-mail evelyn.brown@dhp.virginia.gov.

<u>Basis</u>: Section 54.1-2400 of the Code of Virginia provides the Board of Social Work the authority to promulgate regulations to administer the regulatory system and to delegate informal fact-finding to an agency subordinate.

<u>Purpose:</u> One of the most important functions of the Department of Health Professions is the investigation and adjudication of disciplinary cases to ensure that the public is adequately protected if a health care professional violates a law or regulation. The law enacted by the 2004 General Assembly and adoption of these proposed rules give another tool to health regulatory boards seeking to bring closure to cases in a timely manner by allowing cases to be delegated to an agency subordinate, who could be a single board member trained and qualified to conduct a fact-finding proceeding.

In § 2.2-4019 of the Administrative Process Act (APA), provisions for an informal fact-finding proceeding establish the rights of parties to a disciplinary case including the right to "appear in person or by counsel or other qualified representative before the agency or its subordinates, or before a hearing officer for the informal presentation of factual data, argument, or proof in connection with any case." A "subordinate" is defined in the APA as "(i) one or more but less than a quorum of the members of a board constituting an agency, (ii) one or more of its staff members or employees, or (iii) any other person or persons designated by the agency to

¹ Source: Department of Health Professions

act in its behalf." The proposed regulations specify that health regulatory boards can conduct fact-finding proceedings by delegation to a subordinate, the types of cases that are not appropriate for delegation and the criteria for a subordinate.

The board will retain the authority to determine whether to delegate any proceedings, the type of disciplinary case that could be delegated and who would serve as its subordinate. While certain standard of care cases may continue to be heard by board members appointed to a special conference committee, other disciplinary matters could be delegated to a person qualified by knowledge and background to determine the facts in the case. Delegation to an agency subordinate will be available to address cases that may arise from audits for continuing education compliance or other cases not involving patient care. Proposed regulations state the types of cases that may not be heard by a subordinate but leave the final decision of delegation to the probable cause committee in consultation with the board chair. The ability of a board to delegate certain cases through a proceeding conducted by a subordinate will alleviate the disciplinary burden for board members, ensure resolution in a timelier manner and reserve board member time for hearing more serious matters.

<u>Substance:</u> The amendments establish in regulation the criteria for delegation, including the decision to delegate at the time of a probable cause determination, the types of cases that cannot be delegated except as may be approved by a committee of the board, and the individuals who may be designated as agency subordinates.

Issues: The only advantage to the public may be a speedier resolution of disciplinary cases, but the cases that would likely be heard by a subordinate of the Board of Social Work would probably not involve standard of care for patients. It is likely that the board will delegate cases that involve such violations as failure to obtain continuing education. Therefore, there may not be any real advantage or disadvantage to the public.

There are no disadvantages to the agency or the Commonwealth. If adjudication of certain types of cases could be handled with the use of a subordinate rather than a committee of the board, there may be some advantages in resolution of cases and a modest reduction in costs for informal fact finding. Scheduling a single board member to sit as an agency subordinate will be easier than scheduling for two or more members, so it may be possible for cases to be heard more quickly. On the other hand, recommendations of the subordinate will have to be ratified by the board, so resolution of the case may be somewhat delayed until the next scheduled meeting at which a quorum of the board can be present.

<u>Department of Planning and Budget's Economic Impact Analysis:</u> The Department of Planning and Budget (DPB) has analyzed the economic impact of this proposed regulation in accordance with § 2.2-4007 H of the Administrative Process Act and Executive Order Number 21 (02). Section 2.2-4007 H requires that such economic impact analyses include, but need not be limited to, the projected number of businesses or other entities to whom the regulation would apply, the identity of any localities and types of businesses or other entities particularly affected, the projected number of persons and

employment positions to be affected, the projected costs to affected businesses or entities to implement or comply with the regulation, and the impact on the use and value of private property. The analysis presented below represents DPB's best estimate of these economic impacts.

Summary of the proposed regulation. Pursuant to House Bill 577 of the 2004 General Assembly, the Board of Social Work (board) proposes to delineate the criteria for delegation of informal fact-finding proceedings to an agency subordinate.

Estimated economic impact. Section 54.1-2400 of the Code of Virginia (Code) describes the general powers and duties of health regulatory boards. Among the powers and duties listed is to appoint a special conference committee upon receipt of information that a practitioner of the board in question may be subject to disciplinary action. "The special conference committee may (i) exonerate the practitioner; (ii) reinstate the practitioner; (iii) place the practitioner on probation with such terms as it may deem appropriate; (iv) reprimand the practitioner; (v) modify a previous order; and (vi) impose a monetary penalty ... " House Bill 577 of the 2004 General Assembly added the following language to this section of the Code: "This subdivision shall not be construed to limit the authority of a board to delegate to an appropriately qualified agency subordinate, as defined in § 2.2-4001, the authority to conduct informal fact-finding proceedings ..., upon receipt of information that a practitioner may be subject to disciplinary action. Criteria for the appointment of an agency subordinate shall be set forth in regulations adopted by the board."

In response, the board proposes regulations that specify criteria for delegation of informal fact-finding proceedings to an agency subordinate. Section 2.2-4001 of the Code defines "subordinate" to mean "(i) one or more but less than a quorum of the members of a board constituting an agency, (ii) one or more of its staff members or employees, or (iii) any other person or persons designated by the agency to act in its behalf." According to the Department of Health Professions (department), the board has not been delegating to an agency subordinate the authority to conduct informal fact-finding proceedings upon receipt of information that a practitioner may be subject to disciplinary action. The department believes that the introduced clarifying language in the Code and the proposed criteria for delegation of informal fact-finding proceedings to an agency subordinate in the regulations will make it more likely that the board will delegate to an agency subordinate the authority to conduct informal fact-finding proceedings. The department also believes that it is more likely that such agency subordinates will consist of current or past board members than department staff.

It is generally easier for smaller groups (including just one individual) to schedule the time necessary to conduct fact-finding proceedings than for larger groups, i.e., the entire board. Thus, to the extent that the adoption of the proposed criteria in the regulations paired with the clarifying language in the Code make it more likely that the board will delegate to an agency subordinate the task to conduct informal fact-finding proceedings, closure may be brought to some disciplinary cases in a more timely manner. Since the board must still ratify recommendations of the subordinate, the subject of the potential disciplinary action will still be under the judgment of

the entire board, rather than just a subset. Therefore, since the proposal produces no significant cost and the potential for disciplinary cases to be concluded in a timelier manner is created, the proposed amendment to the regulations will likely produce a net benefit.

Businesses and entities affected. The proposed criteria potentially affect the 4,527 licensed clinical social workers, 354 licensed social workers, 75 registered social workers, and 6 associate social workers¹ in the Commonwealth, as well as their patients.

Localities particularly affected. The proposed regulations affect all Virginia localities.

Projected impact on employment. The proposed amendments will not significantly affect employment levels.

Effects on the use and value of private property. The proposed amendments will not have a large impact on the use and value of private property.

Agency's Response to the Department of Planning and Budget's Economic Impact Analysis: The Board of Social Work concurs with the analysis of the Department of Planning and Budget for the proposed regulation, 18 VAC 140-20, relating to delegation of informal fact finding to an agency subordinate.

Summary:

The amendments establish in regulation the criteria for delegation, including the decision to delegate at the time of a probable cause determination, the types of cases that cannot be delegated, and the individuals who may be designated as agency subordinates. The proposed regulations will replace emergency regulations that have been in effect since August 25, 2004.

18 VAC 140-20-171. Criteria for delegation of informal factfinding proceedings to an agency subordinate.

- A. Decision to delegate. In accordance with § 54.1-2400 (10) of the Code of Virginia, the board may delegate an informal fact-finding proceeding to an agency subordinate upon determination that probable cause exists that a practitioner may be subject to a disciplinary action.
- B. Criteria for delegation. Cases that may not be delegated to an agency subordinate include violations of standards of practice as set forth in 18 VAC 140-20-150, except as may otherwise be determined by the probable cause committee in consultation with the board chair.
- C. Criteria for an agency subordinate.
 - 1. An agency subordinate authorized by the board to conduct an informal fact-finding proceeding may include board members and professional staff or other persons deemed knowledgeable by virtue of their training and experience in administrative proceedings involving the regulation and discipline of health professionals.

- 2. The executive director shall maintain a list of appropriately qualified persons to whom an informal fact-finding proceeding may be delegated.
- 3. The board may delegate to the executive director the selection of the agency subordinate who is deemed appropriately qualified to conduct a proceeding based on the qualifications of the subordinate and the type of case being heard.

kilowatts; and (iii) add as a condition of interconnection that the vendor has certified that the renewable fuel generator being installed is in compliance with IEEE Standard 1547. The proposed amendments also add, in the case of renewable fuel generators with an alternating current capacity greater than 25 kilowatts, certain requirements that must be met before interconnection may occur. These requirements include electric distribution facilities and customer impact limitations; secondary, service and service entrance limitations; transformer loading limitations; integration with electric distribution company facilities grounding; and balance limitation. The interconnection form contained in 20 VAC 5-315-90 is also amended.

AT RICHMOND, DECEMBER 23, 2004

COMMONWEALTH OF VIRGINIA <u>ex rel</u>. STATE CORPORATION COMMISSION

CASE NO. PUE-2004-00060

Ex Parte: In the matter of amending regulations governing net energy metering

ORDER FOR NOTICE AND INVITING COMMENTS AND REQUESTS FOR HEARING

On May 25, 2000, the State Corporation Commission ("Commission") adopted Regulations Governing Net Energy Metering, 20 VAC 5-315-10 et seq. ("Net Energy Metering Rules"), pursuant to § 56-594 of the Virginia Electric Utility Restructuring Act, Chapter 23 (§ 56-576 et seq.) of Title 56 of the Code of Virginia ("Restructuring Act"), to permit eligible customer-generators to engage in net energy metering by interconnecting their electrical generating facilities with a utility's electric grid and receiving credit for electricity generated and fed back to the electric grid.

Chapter 827 of the 2004 Acts of Assembly amended § 56-594 of the Restructuring Act to revise the definition of eligible customer-generator. Eligible customer-generator has been revised to mean a customer that owns and operates an electrical generating facility that, among other things, has a capacity of not more than 10 kW for residential customers and 500 kW for nonresidential customers. The current Net Energy Metering Rules reflect the previous capacity limit for nonresidential customers of 25 kW.

On June 3, 2004, the Commission entered an Order Establishing Proceeding to amend the Net Energy Metering Rules. Notice of this proceeding was published in the Virginia Register and in newspapers of general circulation throughout the Commonwealth. Interested persons were directed to file comments and comments were filed by Appalachian Power Company ("APCO"); Virginia Department of Environmental Quality ("DEQ"); Virginia Electric and Power Company ("Dominion Virginia Power"); Maryland, District of Columbia, Virginia Solar Energy Industries Association ("MDV-SEIA"); and the Virginia Wind Energy Collaborative ("VWEC"). The Staff was directed to investigate the matter and to file a report with the Commission presenting its recommendations.

On August 5, 2004, Dominion Virginia Power filed a motion for leave to file reply comments and for modification of the

procedural schedule ("Motion"). The Motion requested the Commission to allow for a work group to be convened before the Staff filed its Report and that the parties be allowed an additional opportunity to comment on the Staff Report.

On August 11, 2004, the Commission entered an Order permitting responses to the Motion, permitting Dominion Virginia Power to reply to those responses, and suspending the procedural schedule. The Commission received responses from APCO, MDV-SEIA, and VWEC supporting a work group. On August 27, 2004, Dominion Virginia Power filed a reply renewing its request for a work group to be convened.

On September 17, 2004, the Commission issued an Order finding it appropriate to convene a work group and granting the Motion. The Staff was directed to convene a work group on October 6, 2004. The work group was directed to focus on developing amendments to the Net Energy Metering Rules that are essential to implementing the statutory change; in other words, those revisions directly related to increasing the capacity limit for nonresidential customer generators from 25 kW to 500 kW. The Staff was directed to file a report that included proposed rules and interested parties were afforded the opportunity to comment on the Staff Report.

On November 19, 2004, the Staff filed its report. The Staff Report notes that APCO, DEQ, Dominion Virginia Power, MDV-SEIA, VWEC, as well as Old Mill Power Company and the Virginia, Maryland & Delaware Association of Electric Cooperatives participated in the work group. The Staff Report summarizes the proposals made by the various work group participants and indicates how such proposals were incorporated into the proposed rules accompanying the Staff Report as Exhibit A ("Proposed Rules").

Among other things, the Proposed Rules amend the definition of "renewable fuel generator" to reflect the statutory change in capacity limit to 500 kW for nonresidential generators. Nonresidential generators with capacity in excess of 25 kW must submit notification to the electric distribution provider and/or energy service provider at least 60 days prior to the date of interconnection. Renewable fuel generators are required to be in compliance with the requirements of IEEE Standard 1547 or its successor. Additional requirements for interconnection for nonresidential systems with capacity in excess of 25 kW include: electric distribution facilities and customer impact limitations; secondary, service, and service entrance limitations; transformer loading integration with electric distribution company facilities grounding; and balance limitations. The Interconnection Notification form is revised to include a recommendation that a prospective net metering customer contact the electric distribution company prior to making financial commitments to the project.

The Staff declined to incorporate proposals by the work group participants regarding, among other things, application and study fees, increased insurance limits, time-of-use metering, and additional information requirements. The Staff determined that certain proposals would increase requirements on the class of net metering customers currently subject to the Net Energy Metering Rules, were not essential

to implementing the statutory change, required more specific support or evidence to implement, or were too open-ended.

The Staff Report also makes two suggestions to clarify the Net Energy Metering Rules and assure consistency with the Code. These proposals would not be directly related to increasing the capacity limit for nonresidential customer generators from 25 kW to 500 kW. The Staff proposes to make clear that the 0.1% limit on the total renewable fuel generator capacity in a customer's electric distribution company's service territory was intended to apply only to renewable fuel generators that net meter, rather than all solar, wind, and hydro generators. The Staff further proposes to make clear that the phrase "customer's electric distribution company's service territory" applies only to the Virginia portion of the service territory. The Staff did not include these proposals in the Proposed Rules, but requests the Commission consider such suggestions.

Comments on the Staff Report were received from APCO, which indicates satisfaction with the Proposed Rules, and Dominion Virginia Power, which supports the Staff's Proposed Rules and does not oppose the suggestions made by the Staff for the Commission's consideration. MDV-SEIA and VWEC MDV-SEIA filed comments providing several additional proposals for amending the Net Energy Metering Rules. Both MDV-SEIA and VWEC also comment on the prohibition on net metering customer generators using time-of-meters. MDV-SEIA and VWEC argue that this restriction should be eliminated since the change in the law was intended to encompass larger commercial systems and many such generators are required to be on a time-of-use meter based on their peak load. Mr. Alden M. Hathaway, who lives in a solar powered home and is net-metered, also filed comments requesting the opportunity to be on a time-of-use meter.

NOW THE COMMISSION, upon consideration of the initial comments filed herein, the work group deliberations, the Staff Report and Proposed Rules, and the comments filed thereto, finds that the attached Proposed Rules should be published in the Virginia Register and that public notice be given. We will direct interested persons to file written comments on, propose modifications or supplements to, or to request a hearing on the Proposed Rules. As we have indicated before, this proceeding is intended to consider revisions only directly related to increasing the capacity limit for nonresidential customer generators from 25 kW to 500 kW. Issues outside the scope of implementing this modification will not be open for consideration. We ask that interested persons specifically address the issue of time-of-use metering.

Accordingly, IT IS ORDERED THAT:

- (1) A copy of this Order and the attached Proposed Rules shall be delivered forthwith to the Registrar of Regulations for publication in the Virginia Register.
- (2) On or before January 24, 2005, the Commission's Division of Information Resources shall publish the following notice as classified advertising in newspapers of general circulation throughout the Commonwealth of Virginia:

NOTICE TO THE PUBLIC OF A PROCEEDING
TO AMEND REGULATIONS FOR NET ENERGY METERING
PURSUANT TO § 56-594 OF THE CODE OF VIRGINIA
CASE NO. PUE-2004-00060

On May 25, 2000, the State Corporation Commission ("Commission") adopted Regulations Governing Net Energy Metering, 20 VAC 5-315-10 et seq. ("Net Energy Metering Rules"), pursuant to § 56-594 of the Virginia Electric Utility Restructuring Act, Chapter 23 (§ 56-576 et seq.) of Title 56 of the Code of Virginia ("Restructuring Act"), to permit eligible customer-generators to engage in net energy metering by interconnecting their electrical generating facilities with a utility's electric grid and receiving credit for electricity generated and fed back to the electric grid.

Chapter 827 of the 2004 Acts of Assembly amended § 56-594 of the Restructuring Act to revise the definition of eligible customergenerator. Eligible customer-generator has been revised to mean a customer that owns and operates an electrical generating facility that, among other things, has a capacity of not more than 10 kW for residential customers and 500 kW for nonresidential customers. The current Net Energy Metering Rules reflect the previous capacity limit for nonresidential customers of 25 kW.

The Commission established this proceeding and requested comment on how the Net Energy Metering Rules should be amended to implement the legislation. The Commission convened a work group to facilitate the development of amendments. Based on the filed comments previously and deliberations of the work group, Commission Staff filed a report along with proposed rules. A copy of the Staff Report and the proposed rules is available for public inspection at the Commission's Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia 23219, Monday through Friday, 8:15 a.m. to 5:00 p.m., or may be downloaded from the Commission's website: http://www.scc.virginia.gov/caseinfo.htm.

The Commission has issued an order in this proceeding directing that on or before February 14, 2005, any interested person may file an original and fifteen (15) copies of any comments on the proposed rules with the Clerk of the Commission at the address set forth below. Comments should be directly related to increasing the capacity limit for nonresidential customer generators from 25 kW to 500 kW. The Commission also requests comments on the issue of time-of-use metering. Interested persons desiring to

submit comments electronically may do so by following the instructions available at the Commission's website.

On or before February 14, 2005, any interested person also may file an original and fifteen (15) copies of any requests for hearing on the proposed rules with the Clerk of the Commission at the address set forth below. Any request for hearing shall state with specificity why the issues raised in the request for hearing cannot be adequately addressed in written comments. If sufficient request for hearing is not received, the Commission may enter an order based upon the papers filed. Persons expecting to participate as a respondent in any hearing that may be scheduled shall include with their request for hearing an original and fifteen (15) copies of a notice of participation in accordance with 5 VAC 5-20-80 of the Commission Rules of Practice and Procedure.

All filings in this proceeding shall be directed to Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218, and shall refer to Case No. PUE-2004-00060.

- (3) On or before February 14, 2005, any interested person may comment or request a hearing by filing an original and fifteen (15) copies of such comments or requests with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218. Any request for hearing shall state with specificity why the issues raised in the request for hearing cannot be adequately addressed in written comments. If a sufficient request for hearing is not received, the Commission may consider the matter and enter an order based upon the papers filed herein. Interested parties shall refer in their comments or requests to Case No. PUE-2004-00060. Interested persons desiring to submit comments electronically may do so by following the instructions available at the Commission's website: http://www.scc.virginia.gov/caseinfo.htm.
- (4) On or before February 14, 2005, persons filing a request for hearing and expecting to participate as a respondent in any hearing that may be scheduled in this matter shall file an original and fifteen (15) copies of a notice of participation in accordance with 5 VAC 5-20-80 of the Commission Rules of Practice and Procedure. Interested parties shall refer in their notices to Case No. PUE-2004-00060. All notices of participation shall be filed with the Clerk of the Commission at the address set forth in Paragraph (4) above.
- (5) This matter is continued for further order of the Commission.

AN ATTESTED COPY hereof shall be sent by the Clerk of the Commission to: All electric cooperatives and electric companies in Virginia as listed on Attachment A to this Order; all persons included on Attachment B to this Order; C. Meade Browder, Jr., Senior Assistant Attorney General, Division of

Consumer Counsel, Office of the Attorney General, 900 East Main Street, Richmond, Virginia 23219; and the Commission's Divisions of Economics and Finance and Energy Regulation.

20 VAC 5-315-20. Definitions.

The following words and terms when used in this chapter shall have the following meaning unless the context clearly indicates otherwise:

"Billing period" means, as to a particular customer, the time period between the dates on which the electric distribution company or energy service provider, as the case may be, issues the customer's bills.

"Electric distribution company" means the entity that owns and/or operates the distribution facilities delivering electricity to the net metering customer's premises.

"Energy service provider" means the entity providing electric energy to a net metering customer, either as a tariffed, competitive, or default service pursuant to § 56-585 of the Code of Virginia.

"Net metering customer" means a customer owning and operating a renewable fuel generator under a net metering service arrangement.

"Net metering period" means each successive 12-month period beginning with the first meter reading date following the date of final interconnection of the renewable fuel generator with the electric distribution company's facilities.

"Net metering service" means measuring the difference, over the net metering period between electricity supplied to a net metering customer from the electric grid and the electricity generated and fed back to the electric grid by the net metering customer, using a single meter or, as provided in 20 VAC 5-315-70, additional meters.

"Renewable fuel generator" means an electrical generating facility that:

- 1. Has an alternating current capacity of not more than 10 kilowatts for residential customers and not more than 25 500 kilowatts for nonresidential customers;
- 2. Uses as its total fuel source solar, wind, or hydro energy;
- 3. Is owned and operated by the net metering customer and is located on the customer's premises;
- 4. Is interconnected and operated in parallel with the electric distribution company's facilities; and
- 5. Is intended primarily to offset all or part of the net metering customer's own electricity requirements.

20 VAC 5-315-30. Company notification.

A. The prospective net metering customer shall submit a completed commission-approved notification form, as provided in 20 VAC 5-315-90, to the electric distribution company and, if different from the electric distribution company, the energy service provider, according to the following time limits.

- 1. For a renewable fuel generator with an alternating current capacity of 25 kilowatts or less, the notification form shall be submitted at least 30 days prior to the date the customer intends to interconnect his renewable fuel generator to the electric distribution company's facilities. A—Such net metering customer shall have all equipment necessary to complete the grid interconnection installed prior to such notification. The electric distribution company shall have 30 days from the date of notification to determine whether the requirements contained in 20 VAC 5-315-40 have been met. The date of notification shall be considered to be the third day following the mailing of such notification form by the prospective net metering customer.
- 2. For a renewable fuel generator with an alternating current capacity greater than 25 kilowatts, the notification form shall be submitted at least 60 days prior to the date the customer intends to interconnect his renewable fuel generator to the electric distribution company's facilities. Such net metering customer shall have all equipment necessary to complete the grid interconnection installed prior to such notification. Such net metering customer should contact his electric distribution company prior to making financial commitments. The electric distribution company shall have 60 days from the date of notification to determine whether the requirements contained in 20 VAC 5-315-40 have been met. The date of notification shall be considered to be the third day following the mailing of such notification form by the prospective net metering customer.
- B. Thirty-one days after the date of notification for renewable fuel generators with a rated capacity of 25 kilowatts or less, and 61 days after the date of notification for renewable fuel generators with an alternating current capacity greater than 25 kilowatts, a net metering customer may interconnect his renewable fuel generator and begin operation of said renewable fuel generator unless the electric distribution company or the energy service provider requests a waiver of this requirement under the provisions of 20 VAC 5-315-80, prior to said 31st or 61st day, respectively. In cases where the electric distribution company or energy service provider requests a waiver, a copy of the request for waiver must be mailed simultaneously by the requesting party to the net metering customer and to the commission's Division of Energy Regulation.
- C. The electric distribution company shall file with the commission's Division of Energy Regulation a copy of each completed notification form within 30 days of final interconnection.

20 VAC 5-315-40. Conditions of interconnection.

- A. A prospective net metering customer may begin operation of his renewable fuel generator on an interconnected basis when:
 - 1. The net metering customer has properly notified both the electric distribution company and energy service provider (in accordance with 20 VAC 5-315-30) of his intent to interconnect:
 - 2. If required by the electric distribution company's net metering tariff, the net metering customer has installed a

- lockable, electric distribution company accessible, load breaking manual disconnect switch;
- 3. A licensed electrician has certified, by signing the commission-approved notification form as provided in 20 VAC 5-315-90, that any required manual disconnect switch has been installed properly and that the renewable fuel generator has been installed in accordance with the manufacturer's specifications as well as all applicable provisions of the National Electrical Code:
- 4. The vendor has certified, by signing the commission-approved notification form as provided in 20 VAC 5-315-90, that the renewable fuel generator being installed is in compliance with the requirements established by Underwriters Laboratories or other national testing laboratories in accordance with IEEE Standard 1547, Standard for Interconnecting Distributed Resources with Electric Power Systems, July 2003;
- 5. In the case of static inverter-connected renewable fuel generators with an alternating current capacity in excess of 10 kilowatts, the net metering customer has had the inverter settings inspected by the electric distribution company. The inspecting electric distribution company may impose a fee on the net metering customer of no more than \$50 for such inspection;
- 6. In the case of nonstatic inverter-connected renewable fuel generators, the net metering customer has interconnected according to the electric distribution company's interconnection guidelines and the electric distribution company has inspected all protective equipment settings. The inspecting electric distribution company may impose a fee on the net metering customer of no more than \$50 for such inspection.
- 7. In the case of renewable fuel generators with an alternating current capacity greater than 25 kilowatts, the following requirements shall be met before interconnection may occur:
 - a. Electric distribution facilities and customer impact limitations. A renewable fuel generator shall not be permitted to interconnect to distribution facilities if the interconnection would reasonably lead to damage to any of the electric distribution company's facilities or would reasonably lead to voltage regulation or power quality problems at other customer revenue meters due to the incremental effect of the generator on the performance of the electric distribution system, unless the customer reimburses the electric distribution company for its cost to modify any facilities needed to accommodate the interconnection.
- b. Secondary, service, and service entrance limitations. The capacity of the renewable fuel generator shall be less than the capacity of the electric distribution companyowned secondary, service, and service entrance cable connected to the point of interconnection, unless the customer reimburses the electric distribution company for its cost to modify any facilities needed to accommodate the interconnection.

- c. Transformer loading limitations. The renewable fuel generator shall not have the ability to overload the electric distribution company transformer, or any transformer winding, beyond manufacturer or nameplate ratings, unless the customer reimburses the electric distribution company for its cost to modify any facilities needed to accommodate the interconnection.
- d. Integration with electric distribution company facilities grounding. The grounding scheme of the renewable fuel generator shall comply with IEEE 1547, Standard for Interconnecting Distributed Resources with Electric Power Systems, July 2003, and the electric distribution company shall assist the net metering customer in selecting a grounding scheme that coordinates with its distribution system.
- e. Balance limitation. The renewable fuel generator shall not create a voltage imbalance of more than 3.0% at any other customer's revenue meter if the electric distribution company transformer, with the secondary connected to the point of interconnection, is a three-phase transformer, unless the customer reimburses the electric distribution company for its cost to modify any facilities needed to accommodate the interconnection.
- B. A prospective net metering customer shall not be allowed to interconnect a renewable fuel generator if doing so will cause the total rated generating alternating current capacity of all interconnected renewable fuel generators within that customer's electric distribution company's service territory to exceed 0.1% of that company's Virginia peak-load forecast for the previous year. In any case where a prospective net metering customer has submitted a notification form required by 20 VAC 5-315-30 and that customer's interconnection would cause the total rated generating alternating current capacity of all interconnected renewable fuel generators within that electric distribution company's service territory to exceed 0.1% of that company's Virginia peak-load forecast for the previous year, the electric distribution company shall, at the time it becomes aware of the fact, send written notification to such prospective net metering customer and to the commission's Division of Energy Regulation that the interconnection is not allowed. In addition, upon request from any customer, the electric distribution company shall provide to the customer the amount of capacity still available for interconnection pursuant to § 56-594 D of the Code of Virginia.
- C. Neither the electric distribution company nor the energy service provider shall impose any charges upon a net metering customer for any interconnection requirements specified by this chapter, except as provided under subdivisions A 5 and 6 of this section, and 20 VAC 5-315-50 as related to off-site metering.

20 VAC 5-315-90. Commission-approved interconnection notification form.

The following commission-approved interconnection notification form shall be used as specified in this chapter.

TITLE 4. CONSERVATION AND NATURAL RESOURCES

VIRGINIA SOIL AND WATER CONSERVATION BOARD

Notice of Effective Date

<u>Titles of Regulations</u>: 4 VAC 3-20. Stormwater Management Regulations (REPEALED).

4 VAC 50-60. Virginia Stormwater Management Program (VSMP) Permit Regulations (adding 4 VAC 50-60-10 through 4 VAC 50-60-1240).

Statutory Authority: § 10.1-603.2:1 of the Code of Virginia.

Effective Date: January 29, 2005.

On September 16, 2004, the Virginia Soil and Water Conservation Board adopted revisions to the Stormwater Management Regulations (4 VAC 50-60) pursuant to Chapter 372 of the 2004 Virginia Acts of Assembly (HB1177). These revisions consolidated Virginia's stormwater management programs within the Department of Conservation and Recreation including elements of the State Water Control Board's regulations related to federal NPDES permit issuance for Municipal Separate Storm Sewer Systems (MS4s) and construction activities. The final amendments to the Virginia Soil and Water Conservation Board regulations were published in 21:3 VA.R. 317 (summary only) October 18, 2004, with an effective date of January 1, 2005, or 30 days the U.S. Environmental Protection Agency's authorization for delegation of program authority for administering the issuance of national pollutant discharge elimination system permits for the control of stormwater discharges from MS4 and construction activities to the Virginia Soil and Water Conservation Board, whichever is the latter.

The Virginia Soil and Water Conservation Board and the State Water Control Board hereby notice EPA approval of the program revision transferring the permitting program for construction and MS4 stormwater discharges from the Department of Environmental Quality to the Department of Conservation and Recreation via a letter dated December 30, 2004, from Donald S. Welsh, Regional Administrator, EPA Region 3 to The Honorable W. Tayloe Murphy, Jr., Secretary of Natural Resources, with copies to Mr. Joseph H. Maroon, Director of VADCR and to Mr. Robert Burnley, Director of VADEQ.

MARINE RESOURCES COMMISSION

REGISTRAR'S NOTICE: The following regulation filed by the Marine Resources Commission is exempt from the Administrative Process Act in accordance with § 2.2-4006 A 12 of the Code of Virginia; however, the commission is required to publish the full text of final regulations.

<u>Title of Regulation:</u> 4 VAC 20-620. Pertaining to Summer Flounder (amending 4 VAC 20-620-40).

Statutory Authority: §§ 28.2-201 and 28.2-204 of the Code of Virginia.

Effective Date: January 1, 2005.

Agency Contact: Deborah Cawthon, Agency Regulatory Coordinator, Marine Resources Commission, 2600 Washington Avenue, 3rd Floor, Newport News, VA 23607, telephone (757) 247-2248, FAX (757) 247-2002 or e-mail debbie.cawthon@mrc.virginia.gov.

Summary:

The amendments (i) change certain time frames for harvesting, possessing, and landing Summer Flounder and (ii) increase vessel possession and landing limits during certain time frames.

4 VAC 20-620-40. Commercial vessel possession limitations.

A. From the first Monday in January 1 through the first Sunday in February day preceding the fourth Monday in January, it shall be unlawful for any person harvesting Summer Flounder outside of Virginia's waters to possess aboard any vessel in Virginia any amount of Summer Flounder in excess of 10% by weight of all other landed species on board the vessel.

- B. From the first Monday in February fourth Monday in January through March 31 of each year, it shall be unlawful for any person harvesting Summer Flounder outside of Virginia waters to do any of the following:
 - 1. Possess aboard any vessel in Virginia waters an amount of Summer Flounder in excess of 7,500 12,500 pounds.
 - 2. Land Summer Flounder in Virginia for commercial purposes more than twice within each consecutive 10-day period, with the first 10-day period beginning on the first Monday in February fourth Monday in January.

Final Regulations

- 3. Land in Virginia more than a total of 7,500 12,500 pounds of Summer Flounder during each consecutive 10-day period, with the first 10-day period beginning on the first Monday in February fourth Monday in January.
- C. When it is projected and announced that 85% of the quota for the period from the first Monday in January through March 31 has been taken, it shall be unlawful for any person harvesting Summer Flounder outside of Virginia's waters to possess aboard any vessel in Virginia any amount of Summer Flounder in excess of 10% by weight of all other landed species on board the vessel.
- D. During the period of April 1 through June 30 of each calendar year, it shall be unlawful for any person harvesting Summer Flounder outside of Virginia's waters to possess aboard any vessel in Virginia any amount of Summer Flounder in excess of 2,500 pounds, except that when it is projected and announced that 85% of the quota for this period has been taken, it shall be unlawful for any person harvesting Summer Flounder outside of Virginia's waters to possess aboard any vessel in Virginia any amount of Summer Flounder in excess of 10% by weight of all other landed species on board the vessel.
- E. From July 1 through the day preceding the last Monday in October of each calendar year, it shall be unlawful for any person harvesting Summer Flounder outside of Virginia's waters to possess aboard any vessel in Virginia any amount of Summer Flounder in excess of 10% by weight of all other landed species on board the vessel.
- F. From the last Monday in October through December 31 of each year, it shall be unlawful for any person harvesting Summer Flounder outside of Virginia waters to do any of the following:
 - 1. Possess aboard any vessel in Virginia waters an amount of Summer Flounder in excess of 10,000 pounds.
 - 2. Land Summer Flounder in Virginia for commercial purposes more than twice within each consecutive 10-day period, with the first 10-day period beginning on the last Monday in October.
 - 3. Land in Virginia more than a total of 10,000 pounds of Summer Flounder during each consecutive 10-day period, with the first 10-day period beginning on the last Monday in October.
- G. For each of the time periods set forth in subsections A, B, C, D, E and F of this section, the Marine Resources Commission will give timely notice of any changes in possession limits.
- H. Each possession limit described in subsections A, B, C, D, E and F of this section shall be determined by the net weight of Summer Flounder as customarily packed, boxed and weighed by the seafood buyer or processor. The net weight of any Summer Flounder found in excess of this possession limit described in subsections A, B, C, D, E and F of this section shall be prima facie evidence of violation of this chapter. Persons in possession of Summer Flounder, aboard any vessel, in excess of the possession limit shall be in violation of this chapter. Any buyer or processor offloading or accepting any quantity of Summer Flounder from any vessel

in excess of the possession limit shall be in violation of this chapter.

- I. If a person violates the possession limits described in this section, the entire amount of Summer Flounder in that person's possession shall be confiscated. Any confiscated Summer Flounder shall be considered as a removal from the appropriate commercial harvest or landings quota. Upon confiscation, the marine patrol officer shall inventory the confiscated Summer Flounder and, at a minimum, secure two bids for purchase of the confiscated Summer Flounder from approved and licensed seafood buyers. The confiscated fish will be sold to the highest bidder and all funds derived from such sale shall be deposited for the Commonwealth pending court resolution of the charge of violating the possession limits established by this chapter. All of the collected funds will be returned to the accused upon a finding of innocence or forfeited to the Commonwealth upon a finding of guilty.
- J. It shall be unlawful for a licensed seafood buyer or federally permitted seafood buyer to fail to contact the Marine Resources Commission Operation Station prior to a vessel offloading Summer Flounder harvested outside of Virginia. The buyer shall provide to the Marine Resources Commission the name of the vessel and its captain and the anticipated or approximate offloading time. Once offloading of any vessel is complete and the weight of the landed Summer Flounder has been determined, the buyer shall contact the Marine Resources Commission Operations Station and report the vessel name and corresponding weight of Summer Flounder landed. It shall be unlawful for any person to offload from a boat or vessel for commercial purposes any Summer Flounder during the period of 10 p.m. to 7 a.m.
- K. Any boat or vessel possessing more than the lawful limit of Summer Flounder that has entered Virginia waters for safe harbor shall not offload any Summer Flounder.
- L. After any commercial harvest or landing quota as described in 4 VAC 20-620-30 has been attained and announced as such, any boat or vessel possessing Summer Flounder on board may enter Virginia waters for safe harbor but shall contact the Marine Resources Commission Operation Center in advance of such entry into Virginia waters.

TITLE 9. ENVIRONMENT

STATE WATER CONTROL BOARD

Notice of Effective Date

<u>Title of Regulation:</u> 9 VAC 25-31. Virginia Pollutant Discharge Elimination System (VPDES) Permit Regulation (amending 9 VAC 25-31-10, 9 VAC 25-31-100, 9 VAC 25-31-120, 9 VAC 25-31-130, 9 VAC 25-31-170, 9 VAC 25-31-200, 9 VAC 25-31-220, and 9 VAC 25-31-390; repealing 9 VAC 25-31-121.)

Statutory Authority: § 62.1-44.15 of the Code of Virginia; 40 CFR Parts 122, 123, 124, 403 and 503.

Effective Date: February 9, 2005.

On December 2, 2004, the State Water Control Board adopted amendments to the Virginia Pollutant Discharge Elimination System (VPDES) Permit Regulation (9 VAC 25-31) pursuant to Chapter 372 of the 2004 Virginia Acts of Assembly (HB1177). These revisions deleted elements of the State Water Control Board's regulations related to federal National Pollutant Discharge Elimination System permit issuance for Municipal Separate Storm Sewer System (MS4s) and construction activities. The final amendments to the State Water Control Board regulations were published in 21:9 VA.R 1073-1154 January 10, 2005, with an effective date of February 9, 2005, or 30 days after the U.S. Environmental Protection Agency's authorization for delegation of program authority for administering the issuance of national pollutant discharge elimination system permits for the control of stormwater discharges from MS4 and construction activities to the State Water Control Board, whichever is the latter.

The Virginia Soil and Water Conservation Board and the State Water Control Board hereby notice EPA approval of the program revision transferring the permitting program for construction and MS4 stormwater discharges from the Department of Environmental Quality to the Department of Conservation and Recreation via a letter dated December 30, 2004, from Donald S. Welsh, Regional Administrator, EPA Region 3, to The Honorable W. Tayloe Murphy, Jr., Secretary of Natural Resources, with copies to Mr. Joseph H. Maroon, Director of VADCR and to Mr. Robert Burnley, Director of VADEQ.

EMERGENCY REGULATIONS

TITLE 4. CONSERVATION AND NATURAL RESOURCES

MARINE RESOURCES COMMISSION

<u>Title of Regulation:</u> 4 VAC 20-910. Pertaining to Scup (Porgy) (amending 4 VAC 20-910-45).

Statutory Authority: §§ 28.2-201 and 28.2-210 of the Code of Virginia.

Effective Dates: January 1, 2005, through January 30, 2005.

Agency Contact: Deborah Cawthon, Agency Regulatory Coordinator, Marine Resources Commission, 2600 Washington Avenue, 3rd Floor, Newport News, VA 23607, telephone (757) 247-2248, FAX (757) 247-2002 or e-mail debbie.cawthon@mrc.virginia.gov.

Summary:

The amendments increase the possession and landing limit in Virginia to 30,000 pounds of scup during each consecutive 14-day landing period starting the 14-day period beginning on January 2.

The amendments eliminate the seven-day period time frame when it has been projected that 80% of the coastwide quota for the period has been attained and tied to the 1,000 pound possession limit of scup.

Commercial harvest and landing of scup in Virginia is decreased to 5,040 pounds during the May 1 through October 31 time period.

4 VAC 20-910-45. Possession limits and harvest quotas.

- A. During the period January 1 through April 30 of each year, it shall be unlawful for any person to do any of the following:
 - 1. Possess aboard any vessel in Virginia more than 45,000 30,000 pounds of scup.
 - 2. Land in Virginia more than a total of 15,000 30,000 pounds of scup during each consecutive seven day 14-day landing period, with the first seven-day 14-day period beginning on January 4 2.
- B. When it is projected and announced that 80% of the coastwide quota for this period has been attained, it shall be unlawful for any person to do any of the following: 1. possess aboard any vessel *or to land* in Virginia more than a total of 1,000 pounds of scup.
 - 2. Land in Virginia more than a total of 1,000 pounds of scup during each seven day landing period, with the first seven day landing period beginning upon the announcement that 80% of the coastwide quota has been projected to be attained.
- C. During the period November 1 through December 31 of each year, it shall be unlawful for any person to possess aboard any vessel or to land in Virginia more 3,500 pounds of scup.

- D. During the period May 1 through October 31 of each year, the commercial harvest and landing of scup in Virginia shall be limited to 7,911 5,040 pounds.
- E. For each of the time periods set forth in this section, the Marine Resources Commission will give timely notice to the industry of calculated poundage possession limits and quotas and any adjustments thereto. It shall be unlawful for any person to possess or to land any scup for commercial purposes after any winter period coastwide quota or summer period Virginia quota has been attained and announced as such.
- F. It shall be unlawful for any buyer of seafood to receive any scup after any commercial harvest or landing quota has been attained and announced as such.
- G. It shall be unlawful for any person fishing with hook and line, rod and reel, spear, gig or other recreational gear to possess more than 50 scup. When fishing is from a boat or vessel where the entire catch is held in a common hold or container, the possession limit shall be for the boat or vessel and shall be equal to the number of persons on board legally eligible to fish multiplied by 50. The captain or operator of the boat or vessel shall be responsible for any boat or vessel possession limit. Any scup taken after the possession limit has been reached shall be returned to the water immediately.

GENERAL NOTICES/ERRATA

DEPARTMENT OF ENVIRONMENTAL QUALITY

Total Maximum Daily Load (TMDL) for Lower Blackwater River Basin and Its Tributaries

The Virginia Department of Environmental Quality (DEQ) and the Department of Conservation and Recreation seek written and oral comments from interested persons on the development of an Implementation Plan (IP) for the Total Maximum Daily Load (TMDL) to address multiple impairments in the Lower Blackwater River Basin and its tributaries. The affected streams were identified as impaired due to violations of Virginia's water quality standards for fecal coliform bacteria and therefore do not support the Primary Contact (swimming) Designated Use. The impaired stream segments are located in Franklin County and include 20.0 miles of the Lower Blackwater River, 21.3 miles of Maggodee Creek and 27.9 miles of Gills Creek. TMDLs for these impairments were completed and approved by EPA in 2001 and 2002 and are available on DEQ's website http://www.deg.virginia.gov/tmdl.

Section 62.1-44.19.7 C of the Code of Virginia requires the development of an IP for approved TMDLs. The IP should provide measurable goals and the date of expected achievement of water quality objectives. The IP should also include the corrective actions needed and their associated costs, benefits and environmental impacts.

The first public meeting on the development of the IP for the Lower Blackwater River Basin impairments will be held on Wednesday, February 2, 2005, at 1:30 p.m. at the Antioch Church of the Brethren, located at 2996 Callaway Road (Route 641) in Rocky Mount, Virginia. The purpose of the meeting is to discuss the proposed reductions in fecal bacteria needed in the Lower Blackwater River watershed and to solicit public participation for the IP development.

The public comment period for this public meeting will end on March 3, 2005. A fact sheet on the development of an IP for the Lower Blackwater River Basin TMDLs is available upon Questions or information requests should be addressed to Jason Hill. Written comments and inquiries should include the name, address, and telephone number of the person submitting the comments and should be sent to Jason R. Hill. Virginia Department of Environmental Quality. 3019 Peters Creek Road, Roanoke, VA 24019, telephone 562-6724, FAX (540)562-6860, or e-mail jrhill@deq.virginia.gov.

Total Maximum Daily Load (TMDL) for Lynnhaven Bay, Broad Bay and Linkhorn Bay in Virginia Beach

The Department of Environmental Quality (DEQ), the Department of Conservation and Recreation, the Hampton Roads Planning District Commission, and the City of Virginia Beach seek written and oral comments from interested persons on the development of an Implementation Plan to begin to achieve the Total Maximum Daily Load (TMDL) established for fecal coliform bacteria in Lynnhaven Bay, Broad Bay and Linkhorn Bay in Virginia Beach, Virginia.

The final bacteria TMDL report that establishes the loading limits for the Lynnhaven, Broad and Linkhorn Bays is available on DEQ's website at http://www.deq.virginia.gov. These waters are identified in Virginia's 1998 303(d) TMDL Priority List and Report as impaired due to violations of the state's water quality standard for fecal coliform bacteria in shellfish waters.

Section 303(d) of the Clean Water Act and § 62.1-44.19:7 C of the Code of Virginia, require DEQ to develop TMDLs for pollutants responsible for each impaired water contained in Virginia's 303(d) TMDL Priority List and Report. The Code of Virginia further requires DEQ to prepare implementation plans for the TMDL and take measures to implement those plans.

The first public meeting on the development of the Lynnhaven, Broad and Linkhorn Bays TMDL Implementation Plan will be held on Thursday, February 3, 2004, at 7 p.m. at the Advanced Technology Center, 1800 College Crescent, Virginia Beach, Virginia. Public input to the preparation of the Implementation Plan for the Shellfish Bacteria TMDL for the greater Lynnhaven River Watershed in Virginia Beach will be solicited at this meeting.

The public comment period will begin on Friday, February 4. 2004, and end on March 7, 2004. Questions or information requests should be addressed to Chester Bigelow and should include the name, address, and telephone number of the person submitting the comments. Requests should be sent to Chester Bigelow, Department of Environmental Quality, 629 East Main Street, Richmond, VA 23240, telephone (804) 698-4554. FAX (804)698-4116, or ccbigelow@deq.virginia.gov or John M. Carlock, Hampton Roads Planning District Commission, 723 Woodlake Drive, Chesapeake, VA 23320, telephone (757) 420-8300, FAX (757) 523-4881, email jcarlock@hrpdc.org.

Total Maximum Daily Load (TMDL) for Middlesex County

The Department of Environmental Quality (DEQ), Virginia Department of Health and the Department of Conservation and Recreation seek written and oral comments from interested persons on the development of a Total Maximum Daily Load (TMDL) for fecal coliform bacteria in shellfish propagation waters located in Middlesex County, Virginia.

All impaired segments are located wholly within Middlesex County with the exception of the Piankatank River segments, these are in part located in Mathews County. These areas are described in the following publications:

- 1) Growing Area 27 as described in Virginia Department of Health, Notice and Description of Shellfish Area Condemnation Numbers 90 and 202, Rappahannock River: Mud and Parrotts Creek, effective 27 April 1989 and 8 October 1996 respectively.
- 2) Growing Area 28 as described in Virginia Department of Health, Notice and Description of Shellfish Area Condemnation Numbers 127 and 177, Rappahannock River: LaGrange and Robinson Creeks, effective 11 June 1996 and 28 May 1997 respectively.

General Notices/Errata

- 3) Growing Area 29 as described in Virginia Department of Health, Notice and Description of Shellfish Area Condemnation Number 42, Rappahannock River: Urbanna Creek, effective 17 September 1993.
- 4) Growing Area 30 as described in Virginia Department of Health, Notice and Description of Shellfish Area Condemnation Numbers 51 and 179, Rappahannock River: Whiting and Meachin Creeks, effective 7 June 1994 and 9 December 1996 respectively.
- 5) Growing Area 34 as described in Virginia Department of Health, Notice and Description of Shellfish Area Condemnation Numbers 126, 129 and 170, Piankatank River, Lower, Wilton, Healy and Cobbs Creeks, effective 2 March 1993, 3 March 1997, and 2 March 1993 respectively.

The affected water body segments are identified in Virginia's 1998 303(d) TMDL Priority List and Report as impaired due to violations of the state's water quality standard for fecal coliform bacteria in shellfish waters. Section 303(d) of the Clean Water Act and § 62.1-44.19:7 C of the Code of Virginia, require DEQ to develop TMDLs for pollutants responsible for each impaired water contained in Virginia's 303(d) TMDL Priority List and Report.

The final public meeting on the development of the fecal coliform TMDLs will be held on February 17, 2005, from 7 p.m. to 9 p.m. at the Cooks Corner Community Center, 2893 General Puller Highway, Saluda, Virginia. Directions can be obtained by calling Chris French at (804) 521-5124.

The public comment period will begin on February 17, 2005, and end on March 19, 2005. Questions or information requests should be addressed to Chester Bigelow and should include the name, address, and telephone number of the person submitting the comments. Requests should be sent to Chester Bigelow, Department of Environmental Quality, 629 East Main Street, Richmond, Virginia, 23240, telephone (804) 698-4554, FAX (804) 698-4116, or e-mail ccbigelow@deq.state.va.us.

STATE CORPORATION COMMISSION

January 3, 2005

ADMINISTRATIVE LETTER 2005-4

- TO: All Insurers Licensed to Write Accident and Sickness Insurance in Virginia, and All Health Services Plans and Health Maintenance Organizations Licensed In Virginia
- RE: 14 VAC 5-190-10 et seq.: Rules Governing the Reporting of Cost and Utilization Data Relating to Mandated Benefits and Mandated Providers Notification of Additional Reporting Requirement for the 2004 Reporting Period

The purpose of this letter is to alert carriers to an additional category of coverage for which cost and utilization information must be reported to the State Corporation Commission ("Commission"), on Form MB-1, due on or before May 1, 2005. Carriers are responsible for making necessary

adjustments to their data capturing systems to ensure that Form MB-1 accurately reflects cost and utilization data relating to this additional reporting category for the 2004 reporting period (calendar year).

In accordance with the provisions of § 38.2-3418.14 of the Code of Virginia, insurers, health services plans and health maintenance organizations are required to provide coverage for lymphedema. The requirements of this mandated benefit apply to all insurance policies, contracts and plans delivered, issued for delivery, reissued, or extended in Virginia on and after January 1, 2004, or at any time thereafter when any term of the policy, plan or contract was or is changed, or any premium adjustment was or is made. Carriers should review § 38.2-3418.14 of the Code of Virginia in its entirety for additional guidance concerning coverage requirements.

Carriers are encouraged to review all requirements applicable to mandated benefits and mandated providers as well as the associated reporting requirements to determine the extent to which this new reporting requirement affects their organization and to ensure compliance with all existing mandated benefit and provider requirements.

In order to avoid confusion and to facilitate the capturing of appropriate data relating to the coverage requirement for lymphedema, the Bureau of Insurance has identified CPT and ICD-9-CM codes for this requirement. The codes on the attached listing supplement the CPT and ICD-9-CM codes furnished to carriers previously. Carriers should refer to the complete listing of CPT and ICD-9-CM codes to ensure compliance with all reporting requirements.

Please refer any questions regarding this matter to Mary Ann Mason, Senior Insurance Market Examiner, State Corporation Commission, Bureau of Insurance – Life and Health Division, P. O. Box 1157, Richmond, VA 23218, telephone (804) 371-9348, FAX (804) 371-9944.

BOARD OF EDUCATION

February 13, 2005 - Public comments may be submitted until this date.

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the Board of Education intends to repeal regulations entitled **8 VAC 20-200**, **Diploma - High School Completion**. The purpose of the proposed action is to repeal this regulation. The requirements for a diploma are prescribed by the Standards of Quality in § 22.1-253.13:4 of the Code of Virginia and by the Board of Education in the Regulations for Establishing Standards for Accrediting Public Schools in Virginia, 8 VAC 20-131-50. Additionally, the Regulations Governing Adult High School Programs, 8 VAC 20-30-20, prescribe the requirements for an adult high school diploma and the Emergency Regulations Governing the General Achievement Diploma, 8 VAC 20-680-10, prescribe the requirements for that diploma. Therefore, this regulation should be repealed because it is no longer necessary.

Statutory Authority: § 22.1-16 of the Code of Virginia.

Contact: Dr. Margaret N. Roberts, Office of Policy and Public Affairs, Department of Education, P.O. Box 2120, James Monroe Bldg., 101 N. 14th St., 25th Floor, Richmond, VA 23219, telephone (804) 225-2540, FAX (804) 225-2524, or e-mail mroberts@mail.vak12ed.edu.

February 14, 2005 - Public comments may be submitted until this date.

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the Board of Education intends to repeal regulations entitled **8 VAC 20-260**, **Regulations Governing Financial Retention Schedule**. The purpose of the proposed action is to repeal the regulation because it is in conflict with the Code of Virginia. Section 42.1-82 of the Code of Virginia vests the Library of Virginia with the authority to set the retention and disposition schedules for

public records. The Library of Virginia has developed a retention schedule specific to the maintenance of records in Virginia's public schools. Therefore, the Board of Education no longer has the authority to set this schedule.

Statutory Authority: § 22.1-16 of the Code of Virginia.

Contact: Dr. Margaret N. Roberts, Office of Policy and Public Affairs, Department of Education, P.O. Box 2120, James Monroe Bldg., 101 N. 14th St., 25th Floor, Richmond, VA 23219, telephone (804) 225-2540, FAX (804) 225-2524, or e-mail mroberts@mail.vak12ed.edu.

February 14, 2005 - Public comments may be submitted until this date.

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the Board of Education intends to repeal regulations entitled 8 VAC 20-380, Regulations Governing Public School Building Construction (Literary Fund). The requirements for literary loans are now prescribed by the Board of Education in the Regulations Governing Literary Loan Applications in Virginia (8 VAC 20-100). Therefore, this regulation should be repealed because the requirements for loans from the literary fund have been promulgated by the Board of Education in another regulation and the provisions in this regulation are no longer correct.

Statutory Authority: § 22.1-16 of the Code of Virginia.

Contact: Dr. Margaret N. Roberts, Office of Policy and Public Affairs, Department of Education, P.O. Box 2120, James Monroe Bldg., 101 N. 14th St., 25th Floor, Richmond, VA 23219, telephone (804) 225-2540, FAX (804) 225-2524, or e-mail mroberts@mail.vak12ed.edu.

February 14, 2005 - Public comments may be submitted until this date.

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the Board of Education intends to repeal regulations entitled **8 VAC 20-400**, **Rules Governing Division Superintendent Salary and Expenses**. Section 22.1-253.13:2 E of the Code of Virginia provides that, pursuant to the appropriation act, support services shall be funded from basic school aid on the basis of prevailing statewide costs. The term "support services" includes those services provided by the superintendent. Therefore, this regulation should be repealed because the requirements are out of date and incorrect.

Statutory Authority: § 22.1-16 of the Code of Virginia.

Contact: Dr. Margaret N. Roberts, Office of Policy and Public Affairs, Department of Education, P.O. Box 2120, James Monroe Bldg., 101 N. 14th St., 25th Floor, Richmond, VA 23219, telephone (804) 225-2540, FAX (804) 225-2524, or e-mail mroberts@mail.vak12ed.edu.

February 14, 2005 - Public comments may be submitted until this date.

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the Board of Education intends to repeal regulations entitled **8 VAC 20-430**, **Regulations Governing Contractual Agreements with Professional Personnel**. The provisions in this regulation are now prescribed by the Board of Education in the Regulations Governing the Employment of Professional Personnel (8 VAC 20-440-10). Therefore, this regulation should be repealed because the requirements have been promulgated by the Board of Education in another regulation making this regulation unnecessary.

Statutory Authority: § 22.1-16 of the Code of Virginia.

Contact: Dr. Margaret N. Roberts, Office of Policy and Public Affairs, Department of Education, P.O. Box 2120, James Monroe Bldg., 101 N. 14th St., 25th Floor, Richmond, VA 23219, telephone (804) 225-2540, FAX (804) 225-2524, or e-mail mroberts@mail.vak12ed.edu.

February 14, 2005 - Public comments may be submitted until this date.

Notice is hereby given in accordance with § 2.2-4007 of the Code of Virginia that the Board of Education intends to repeal regulations entitled 8 VAC 20-480, Regulations Governing Pupil Rights and Hearings. This regulation should be repealed because the requirements are unnecessary. The Regulations Governing Management of the Student's Scholastic Record (8 VAC 20-150) require local school divisions to adhere to provisions of the Family Education Rights and Privacy Act (FERPA). FERPA regulations at 34 CFR 99.21 and 99.22, require that school divisions provide a hearing when the parent or eligible student wants to challenge information in the student's educational record. FERPA also includes the process that must be followed. Since school divisions are required to adhere to the board's regulation and to FERPA, this regulation is redundant and unnecessary.

VIRGINIA RECYCLING MARKETS DEVELOPMENT COUNCIL

† March 23, 2005 - 10 a.m. -- Open Meeting Department of Environmental Quality, Southwest Regional Office, 355 Deadmore Street, Abingdon, Virginia.

The council (VRMDC) will meet from 10 a.m. to noon, will break for lunch and then hold a joint meeting of its Local Government Assistance and Recycling Subcommittees from 1 p.m. to 3 p.m. The primary purpose of the meeting is to obtain comments from Southwest Virginia localities, waste management authorities and other interested parties on (i) what, if any, changes are recommended in Virginia's 25% recycling rate mandate (including the statutes and regulations implementing that mandate) and (ii) ways in which the VRMDC and state could assist localities and waste management authorities in meeting the state recycling mandate. The VRMDC is traveling to Southwest Virginia in an effort to make it easier for localities, waste management authorities and members of the public from that region of the state to submit their views and the submission of comments at the meeting is encouraged. Public comments will be sought at the meeting of the full council (to be held from 10 a.m. to noon) and the two subcommittees will then meet jointly (from 1 p.m. to 3 p.m.) to consider the comments received and to discuss their plans for continuing their work in 2005.
