THE VIRGINIA REGISTER INFORMATION PAGE

THE VIRGINIA REGISTER OF REGULATIONS is an official state publication issued every other week throughout the year. Indexes are published quarterly, and are cumulative for the year. The Virginia Register has several functions. The new and amended sections of regulations, both as proposed and as finally adopted, are required by law to be published in the Virginia Register. In addition, the Virginia Register is a source of other information about state government, including petitions for rulemaking, emergency regulations, executive orders issued by the Governor, the Virginia Tax Bulletin issued periodically by the Department of Taxation, and notices of public hearings and open meetings of state agencies.

ADOPTION, AMENDMENT, AND REPEAL OF REGULATIONS

An agency wishing to adopt, amend, or repeal regulations must first publish in the Virginia Register a notice of intended regulatory action; a basis, purpose, substance and issues statement; an economic impact analysis prepared by the Department of Planning and Budget; the agency’s response to the economic impact analysis; a summary; a notice giving the public an opportunity to comment on the proposal; and the text of the proposed regulation.

Following publication of the proposal in the Virginia Register, the promulgating agency receives public comments for a minimum of 60 days. The Governor reviews the proposed regulation to determine if it is necessary to protect the public health, safety and welfare, and if it is clearly written and easily understandable. If the Governor chooses to comment on the proposed regulation, his comments must be transmitted to the agency and the Registrar no later than 15 days following the completion of the 60-day public comment period. The Governor’s comments, if any, will be published in the Virginia Register. Not less than 15 days following the completion of the 60-day public comment period, the agency may adopt the proposed regulation.

The Joint Commission of Administrative Rules (JCAR) or the appropriate standing committee of each house of the General Assembly may meet during the promulgation or final adoption process and file an objection with the Registrar and the promulgating agency. The objection will be published in the Virginia Register. Within 21 days after receipt by the agency of a legislative objection, the agency shall file a response with the Registrar, the objecting legislative body, and the Governor.

When final action is taken, the agency again publishes the text of the regulation as adopted, highlighting all changes made to the proposed regulation and explaining any substantial changes made since publication of the proposal. A 30-day final adoption period begins upon final publication in the Virginia Register.

The Governor may review the final regulation during this time and, if he objects, forward his objection to the Registrar and the agency. In addition to or in lieu of filing a formal objection, the Governor may suspend the effective date of a portion or all of a regulation until the end of the next regular General Assembly session by issuing a directive signed by a majority of the members of the appropriate legislative body and the Governor. The Governor’s objection or suspension of the regulation, or both, will be published in the Virginia Register. If the Governor finds that changes made to the proposed regulation have substantial impact, he may require the agency to provide an additional 30-day public comment period on the changes. Notice of the additional public comment period required by the Governor will be published in the Virginia Register.

The agency shall suspend the regulatory process for 30 days when it receives requests from 25 or more individuals to solicit additional public comment, unless the agency determines that the changes have minor or inconsequential impact.

A regulation becomes effective at the conclusion of the 30-day final adoption period, or at any other later date specified by the promulgating agency, unless (i) a legislative objection has been filed, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 21-day objection period; (ii) the Governor exercises his authority to require the agency to provide for additional public comment, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 30-day public comment period and no earlier than 15 days from publication of the readopted action. Proposed regulatory action may be withdrawn by the promulgating agency at any time before the regulation becomes final.

FAST-TRACK RULEMAKING PROCESS

Section 2.2-4012.1 of the Code of Virginia provides an exemption from certain provisions of the Administrative Process Act for agency regulations deemed by the Governor to be noncontroversial. To use this process, Governor’s concurrence is required and advance notice must be provided to certain legislative committees. Fast-track regulations will become effective on the date noted in the regulatory action if no objections to using the process are filed in accordance with § 2.2-4012.1.

EMERGENCY REGULATIONS

If an agency demonstrates that (i) there is an immediate threat to the public’s health or safety; or (ii) Virginia statutory law, the appropriation act, federal law, or federal regulation requires a regulation to take effect no later than (a) 280 days from the enactment in the case of Virginia or federal law or the appropriation act, or (b) 280 days from the effective date of a federal regulation, it then requests the Governor’s approval to adopt an emergency regulation. The emergency regulation becomes operative upon its adoption and filing with the Registrar of Regulations, unless a later date is specified. Emergency regulations are limited to addressing specifically defined situations and may not exceed 12 months in duration. Emergency regulations are published as soon as possible in the Register.

During the time the emergency status is in effect, the agency may proceed with the adoption of permanent regulations through the usual procedures. To begin promulgating the replacement regulation, the agency must (i) file the Notice of Intended Regulatory Action with the Registrar within 60 days of the effective date of the emergency regulation and (ii) file the proposed regulation with the Registrar within 180 days of the effective date of the emergency regulation. If the agency chooses not to adopt the regulations, the emergency status ends when the prescribed time limit expires.

STATEMENT

The foregoing constitutes a generalized statement of the procedures to be followed. For specific statutory language, it is suggested that Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2 of the Code of Virginia be examined carefully.

TITLE 14. INSURANCE

STATE CORPORATION COMMISSION

Final Regulation

REGISTRAR'S NOTICE: The State Corporation Commission is exempt from the Administrative Process Act in accordance with §2.2-4002 A 2 of the Code of Virginia, which exempts courts, any agency of the Supreme Court, and any agency that by the Constitution is expressly granted any of the powers of a court of record.

Title of Regulation: 14VAC5-270, Rules Governing Annual Audited Financial Reports (amending 14VAC5-270-10 through 14VAC5-270-150, 14VAC5-270-170, 14VAC5-270-180, adding 14VAC5-270-144, 14VAC5-270-146, 14VAC5-270-148, 14VAC5-270-174).

Effective Date: January 1, 2010.
with the Clerk's Office. State Farm stated that it was opposed to the proposed revisions due to concerns regarding the cost of complying with the proposed amendments, as well as its belief that the impact of imposing the new requirements would far outweigh any potential benefit to the citizens of the Commonwealth of Virginia.

On October 30, 2007, The National Association of Mutual Insurance Companies ("NAMIC") filed comments to the proposed revisions with the Clerk. NAMIC opposed the adoption of the rules on similar grounds as State Farm. It requested a hearing, but made its request contingent on the Commission granting a hearing at the request of any other interested party.

On October 29, 2007, American Council of Life Insurers, American Insurance Association, America's Health Insurance Plans, Blue Cross Blue Shield Association, Property Casualty Insurers Association of America, and Reinsurance Association of America ("the Associations") collectively filed comments with the Clerk, in which they supported adoption of the rules on the grounds that they were limited in scope and enhanced the regulatory oversight of insurers without undue burden on the industry.

On December 12, 2007, the Commission entered an Order scheduling a hearing for February 6, 2008. The Order directed that any parties intending to appear and be heard at the hearing were to file a written notice of their intention to do so with the Clerk on or before January 6, 2008.

On January 4, 2008, the Property Casualty Insurers Association of America, by counsel, filed with the Clerk a request reserving the right to appear and be heard at the hearing scheduled for January 1, 2010, if such hearing was held.

On January 9, 2008, State Farm filed a letter with the Clerk withdrawing its request for a hearing.

Because NAMIC’s request for a hearing was contingent upon the Commission granting a hearing at the request of any other interested party, it appears that a hearing in this matter is no longer necessary.

THE COMMISSION, having considered the proposed revisions and the filed comments, is of the opinion that the attached revisions to the rules should be adopted.

IT IS THEREFORE ORDERED THAT:

(1) The revisions at Chapter 270 of Title 14 of the Virginia Administrative Code entitled "Rules Governing Annual Audited Financial Reports" which amend the rules at 14 VAC 5-270-10 through 14 VAC 5-270-150, 14 VAC 5-270-170 and 14 VAC 5-270-180 and add new proposed rules at 14 VAC 5-270-144, 14 VAC 5-270-146, 14 VAC 5-270-148, and 14 VAC 5-270-174, and which are attached hereto and made a part hereof, should be, and they are hereby, ADOPTED to be effective January 1, 2010.

(2) AN ATTESTED COPY hereof, shall be sent by the Clerk of the Commission to the Bureau of Insurance in care of Deputy Commissioner Douglas C. Stolte, who forthwith shall give further notice of the adoption of the revisions to the rules by mailing a copy of this Order, including a clean copy of the attached final revised rules, to all licensed insurers, home protection companies, burial societies, fraternal benefit societies, health service plans, health maintenance organizations, legal services plans, dental or optometric services plans and dental plan organizations authorized by the Commission pursuant to Title 38.2 of the Code of Virginia, and certain interested parties designated by the Bureau of Insurance.

(3) The Commission's Division of Information Resources forthwith shall cause a copy of this Order, including a copy of the attached new rules, to be forwarded to the Virginia Registrar of Regulations for appropriate publication in the Virginia Register of Regulations and shall make this Order and the attached new rules available on the Commission's website, http://www.scc.virginia.gov/caseinfo.htm.

(4) The Bureau of Insurance shall file with the Clerk of the Commission an affidavit of compliance with the notice requirements of paragraph (2) of this Order.

14VAC5-270-50. Filing. General requirements related to 
filing and extensions for filing of annual Audited 
Financial Reports and Audit Committee appointment.

A. All insurers shall have an annual audit by an Accountant 
accountant and shall file an Audited Financial Report with the 
Commission on or before the applicable due date for the year ended 
December 31 immediately preceding.

The Commission may require an insurer to file 
an Audited Financial Report earlier than the due date with 90 
days advance notice to the insurer.

B. An extension of the due date filing date may be granted 
by the Commission for periods of up to 30 days 
upon a showing by the insurer and its Accountant 
accountant of the reasons for requesting such an extension and upon 
determination by the Commission of good cause for an extension. The request for extension must be 
submitted in writing not less than 10 days prior to the due
date in sufficient detail to permit the Commission to make an informed decision with respect to the requested extension.

C. If an extension is granted in accordance with the provisions of subsection B of this section, an extension of 30 days also is granted to the filing of Management’s Reports of Internal Control over Financial Reporting.

D. An insurer required to file an annual Audited Financial Report pursuant to this chapter shall designate a group of individuals as constituting its Audit Committee. The Audit Committee of an entity that controls an insurer may be deemed to be the insurer’s Audit Committee for purposes of this chapter at the election of the controlling person.

The annual Audited Financial Report shall report the financial position of the insurer as of the end of the most recent calendar year and the results of its operations, cash flows, and changes in capital and surplus for the year then ended in conformity with statutory accounting practices prescribed, or otherwise permitted, by the insurer's state of domicile. The annual Audited Financial Report shall include the following:

7. The financial statements included in the annual Audited Financial Report shall be prepared in a form and using language and groupings substantially the same as the relevant sections of the annual statement the insurer filed with the commission, and the financial statements shall be comparative, presenting the amounts as of December 31 of the current year and the amounts as of the immediately preceding December 31. However, in the first year in which an insurer is required to file an Audited Financial Report, the comparative data may be omitted.

14VAC5-270-70. Designation of Independent Certified Public Accountant.

A. Each insurer required by this chapter to file an annual Audited Financial Report must within 60 days after becoming subject to such the requirement register with the commission in writing the name and address of the independent certified public accountant retained to conduct the annual audit set forth in this chapter.

B. As part of this registration, the insurer shall obtain a letter from the accountant and file a copy with the commission stating that the accountant is aware of the provisions of the insurance code and the rules and regulations of the insurance department of the state of domicile that relate to accounting and financial matters, and affirming that the accountant will express his an opinion on the financial statements in terms of their conformity to the statutory accounting practices prescribed or otherwise permitted by that department, specifying such exceptions as the accountant may believe appropriate.

C. If the accountant who was the insurer’s accountant for the immediately preceding filed Audited Financial Report is dismissed or resigns, the insurer shall notify the commission within five business days of this event. The insurer also shall furnish the commission with a separate letter within 10 business days of the above notification stating whether in the 24 months preceding such the event there were any disagreements with the former accountant on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures which disagreements, if not resolved to the satisfaction of the former accountant, would have caused him the accountant to make reference to the subject matter of the disagreement in his the opinion. The disagreements required to be reported in response to this section subsection include those resolved to the former accountant's satisfaction and those not resolved to the former accountant's satisfaction. Disagreements contemplated by this section subsection are those that occur at the decision-making level, i.e., between personnel of the insurer responsible for presentation of its financial statements and personnel of the accounting firm responsible for rendering its report. The insurer also in writing shall request such the former accountant to furnish a letter addressed to the insurer stating whether the accountant agrees with the statements contained in the insurer's letter and, if not, stating the reasons for disagreement; and the insurer shall furnish such a responsive letter from the former accountant to the commission together with its own letter.

14VAC5-270-80. Qualifications of accountant.

A. The commission shall not recognize a person or firm as a qualified accountant if that person or firm:
1. Is not in good standing with the AICPA and in all states in which the accountant is licensed to practice, or, for a Canadian or British company, that is not a chartered accountant; or

2. Has either directly or indirectly entered into an agreement of indemnity or release from liability, collectively referred to as indemnification, with respect to the audit of the insurer.

B. Except as otherwise provided in this chapter, the commission shall recognize an independent Certified Public Accountant certified public accountant as qualified as long as he or she the accountant conforms to the standards of his or her the profession, as contained in the AICPA Code of Professional Conduct of the AICPA and the Rules and Regulations, including the Standards of Practice, regulations of the Virginia Board of Accountancy (18VAC5-21) or similar code.

C. A qualified independent Certified Public Accountant certified public accountant may enter into an agreement with an insurer to have disputes relating to an audit resolved by mediation or arbitration. However, in the event of a delinquency proceeding commenced against the insurer under Chapter 15 (§38.2-1500 et seq.) of Title 38.2 of the Code of Virginia, the mediation or arbitration provisions shall operate at the option of the statutory successor.

D. No partner or other person responsible for rendering a report The lead (or coordinating) audit partner (having primary responsibility for the audit) may not act in that capacity for more than seven five consecutive years. Following any period of service, such person shall be disqualified from acting in that or a similar capacity for the same company or its insurance subsidiaries or affiliates for a period of two five consecutive years. An insurer may make application to the commission for relief from the above rotation requirement on the basis of unusual circumstances. This application shall be made at least 30 days before the end of the calendar year. The commission may consider the following factors in determining if the relief should be granted:

1. Number of partners, expertise of the partners or the number of insurance clients in the currently registered firm;

2. Premium volume of the insurer; or

3. Number of jurisdictions in which the insurer transacts business.

The insurer shall file, with its annual statement filing, the commission’s letter granting relief from this subsection with the states in which it is licensed or doing business and with the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer shall file the letter granting relief in an electronic format acceptable to the NAIC.

E. The commission shall not recognize as a qualified accountant nor or accept any annual Audited Financial Report prepared in whole or in part by, any person who:

1. Has been convicted of fraud, bribery, a violation of the Racketeer Influenced and Corrupt Organizations Act (18 USC §§1961-1968) (18 USC §1961 et seq.) or any dishonest conduct or practices under federal or state law;

2. Has violated the insurance laws of this Commonwealth with respect to any previous reports submitted under this chapter; or

3. Has demonstrated a pattern or practice of failing to detect or disclose material information in previous reports filed under the provisions of this chapter.

F. The commission may (i) make a determination as to whether an accountant is qualified and may, based upon the facts considered, determine that such accountant is not qualified for purposes of expressing an opinion on the financial statements in the annual Audited Financial Report made pursuant to this chapter and (ii) require the insurer to replace such accountant with another whose relationship with the insurer is qualified within the meaning of this chapter.

G. The commission shall not recognize as a qualified independent certified public accountant or accept an annual Audited Financial Report prepared in whole or in part by an accountant who provides to an insurer, contemporaneously with the audit, the following nonaudit services:

1. Bookkeeping or other services related to the accounting records or financial statements of the insurer;

2. Financial information systems design and implementation;

3. Appraisal or valuation services, fairness opinions or contribution-in-kind reports;

4. Actuarially oriented advisory services involving the determination of amounts recorded in the financial statements. The accountant may assist an insurer in understanding the methods, assumptions and inputs used in the determination of amounts recorded in the financial statement only if it is reasonable to conclude that the services provided will not be subject to audit procedures during an audit of the insurer’s financial statements. An accountant’s actuary may also issue an actuarial opinion or certification (opinion) on an insurer’s reserves if the following conditions have been met:

   a. Neither the accountant nor the accountant’s actuary has performed any management functions or made any management decisions;

   b. The insurer has competent personnel (or engages a third-party actuary) to estimate the reserves for which management takes responsibility; and

c. The accountant’s actuary tests the reasonableness of the reserves after the insurer’s management has determined the amount of the reserves;

5. Internal audit outsourcing services;

6. Management functions or human resources;

7. Broker or dealer, investment adviser, or investment banking services;

8. Legal services or expert services unrelated to the audit; or

9. Any other services that the commission determines, by regulation, are impermissible.

(In general, the principles of independence with respect to services provided by the accountant are largely predicated on three basic principles, violations of which would impair the accountant’s independence. These principles are that the accountant cannot function in the role of management, cannot audit his own work, and cannot serve in an advocacy role for the insurer.)

H. Insurers having direct written and assumed premiums of less than $100 million in any calendar year may request an exemption from subsection G of this section. The insurer shall file with the commission a written statement discussing the reasons why the insurer should be exempt from these provisions. An exemption may be granted if the commission finds, upon review of this statement, that compliance with this chapter would constitute a financial or organizational hardship upon the insurer.

I. An accountant who performs the audit may engage in other nonaudit services, including tax services, that are not described in or that do not conflict with subsection G of this section, only if the activity is approved in advance by the Audit Committee, in accordance with subsection J of this section.

J. All auditing services and nonaudit services provided to an insurer by the accountant of the insurer shall be preapproved by the Audit Committee. The preapproval requirement is waived with respect to nonaudit services if the insurer is a SOX compliant entity or a direct or indirect wholly-owned subsidiary of a SOX compliant entity or:

1. The aggregate amount of all nonaudit services provided to the insurer constitutes not more than 5.0% of the total amount of fees paid by the insurer to its accountant during the fiscal year in which the nonaudit services are provided;

3. This subsection shall only apply to partners and senior managers involved in the audit. An insurer may make application to the commission for relief from the above requirement on the basis of unusual circumstances.

The insurer shall file, with its Annual Statement filing, the commission’s letter granting relief from this subsection with the states in which it is licensed or doing business and the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer shall file the letter granting relief in an electronic format acceptable to the NAIC.

In such cases, a columnar consolidating or combining worksheet shall be filed with the report, as follows:

recovery in rates of costs that the Commission "finds reasonably can be predicted to occur during the rate year", and (iv) amends prior law governing performance-based regulation of gas utilities to include electric utilities within its scope.

The new regulatory scheme for Virginia electric utilities necessitates revisions to the Commission's existing rules governing utility rate increase applications ("Rate Case Rules"), 20 VAC 5-200-30, and the provisions of Chapter 933 of the 2007 Acts of Assembly correspondingly direct the Commission to promulgate such rules and regulations "as may be necessary" to implement this new legislation. Additionally, the necessity of changing the rules in order to implement Chapter 933 provides the Commission an opportunity to update and refine the provisions of these rules generally applicable to all utilities whose rates are subject to the Commission's ratemaking authority.

Summary:

Based on Chapter 933 of the 2007 Acts of Assembly the commission proposes to repeal the existing Rate Case Rules in 20 VAC 5-200-30, and to promulgate revised Rate Case Rules 9 in a new Chapter 201 in Title 20 of the Virginia Administrative Code, consisting of 20 VAC 5-201-10 through 20 VAC 5-201-90.

The proposed rules include the following: (i) new general filing requirements; (ii) requirements for optional performance based rate regulation, biennial reviews and rate adjustment clauses; and (iii) refinement of general and expedited rate case requirements, annual informational filing requirements, temporary increase requirements and fuel factor requirements.

AT RICHMOND, JANUARY 29, 2008
COMMONWEALTH OF VIRGINIA

At the relation of the
STATE CORPORATION COMMISSION

CASE NO. PUE-2008-00001

Ex Parte: In the matter of revising the rules of the State Corporation Commission governing utility rate increase applications

ORDER FOR NOTICE AND COMMENT

The 2007 Session of the Virginia General Assembly of Virginia approved Senate Bill 1416 (and companion bill, House Bill 3068), enacted as Chapter 933 of the 2007 Acts of Assembly.¹ This legislation, inter alia, (i) requires incumbent electric utilities' rates to be reviewed in 2009 and biennially thereafter, subject to certain, statutory earnings benchmarks;² (ii) establishes new cost-recovery mechanisms (including certain financial incentives) by which Virginia's incumbent electric utilities may recover their capital and operating costs,³ (iii) modifies statutory provisions governing cost recovery applicable to rate cases filed by all utilities to allow, inter alia, utilities' recovery in rates of costs that the Commission "finds reasonably can be predicted to occur during the rate year",⁴ and (iv) amends prior law governing performance-based regulation of gas utilities to include electric utilities within its scope.⁵

The new regulatory scheme for Virginia electric utilities thus necessitates revisions to the Commission's existing rules governing utility rate increase applications ("Rate Case Rules"), 20 VAC 5-200-30, and the provisions of SB 1416 correspondingly direct the Commission to promulgate such rules and regulations "as may be necessary" to implement this new legislation.

NOW THE COMMISSION, upon consideration of the matter, is of the opinion and finds that a proceeding should be established to revise its existing Rate Case Rules to reflect and to accommodate statutory changes enacted in Chapter 933 of the 2007 Acts of Assembly. Additionally, the necessity of making such changes also provides the Commission an opportunity to update and refine the provisions of these rules generally applicable to all utilities whose rates are subject to the Commission's ratemaking authority.

Accordingly, the Commission proposes to repeal the existing Rate Case Rules in 20 VAC 5-200-30, and to promulgate revised Rate Case Rules in a new Chapter 201 in Title 20 of the Virginia Administrative Code, consisting of sections 20 VAC 5-201-10 through 20 VAC 5-201-110. To initiate this proceeding, the Commission's Staff has prepared proposed rules ("Proposed Rules") which are appended to this Order. We will direct that notice of the Proposed Rules be given to the public and that interested persons be provided an opportunity to file written comments on, propose modifications or supplements to, or request oral argument on the Proposed Rules.

In addition, we note that the new legislation shortens the time periods within which electricity rate cases must be completed. These shorter time periods reduce the time available for discovery and analysis of the requested rate changes. To meet these shorter time frames, the Proposed Rules make several changes to current practice, with the goal of affording all parties due process. Thus, interested persons may comment on, among other things, whether the filing requirements set forth in the Proposed Rules should be expanded, reduced or otherwise modified to address such matters.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUE-2008-00001.

(2) The Commission's Division of Information Resources shall forward a copy of this Order to the Registrar of Regulations for publication in the Virginia Register.
(3) On or before February 18, 2008, the Commission's Division of Information Resources shall publish the following notice as classified advertising in newspapers of general circulation throughout the Commonwealth of Virginia.

NOTICE TO THE PUBLIC
OF A PROCEEDING TO AMEND
REGULATIONS GOVERNING UTILITY
RATE INCREASE APPLICATIONS
CASE NO. PUE-2008-00001

The 2007 Session of the Virginia General Assembly of Virginia approved Senate Bill 1416 (and companion bill, House Bill 3068), enacted as Chapter 933 of the 2007 Acts of Assembly. This legislation: (i) requires incumbent electric utilities' rates to be reviewed in 2009 and biennially thereafter, subject to certain, statutory earnings benchmarks; (ii) establishes new cost-recovery mechanisms (including certain financial incentives) by which Virginia's incumbent electric utilities may recover their capital and operating costs; (iii) modifies statutory provisions governing cost recovery applicable to rate cases filed by all utilities to allow, inter alia, utilities' recovery in rates of costs that the Commission "finds reasonably can be predicted to occur during the rate year"; and (iv) amends prior law governing performance-based regulation of gas utilities to include electric utilities within its scope. In particular, the new legislation shortens the time periods within which electricity rate cases must be completed. These shorter time periods reduce the time available for discovery and analysis of the requested rate changes. To meet these shorter time frames, these proposed rules make several changes to current practice, with the goal of affording all parties due process.

The new regulatory scheme for Virginia electric utilities thus necessitates revisions to the Commission's existing rules governing utility rate increase applications ("Rate Case Rules"), 20 VAC 5-200-30, and the provisions of Chapter 933 of the 2007 Acts of Assembly correspondingly direct the Commission to promulgate such rules and regulations "as may be necessary" to implement this new legislation. Additionally, the necessity of making such changes also provides the Commission an opportunity to update and refine the provisions of these rules generally applicable to all utilities whose rates are subject to the Commission's ratemaking authority.

Accordingly, the Commission has established a proceeding in which it proposes to repeal the existing Rate Case Rules in 20 VAC 5-200-30, and to promulgate revised Rate Case Rules in a new Chapter 201 in Title 20 of the Virginia Administrative Code, consisting of sections 20 VAC 5-201-10 through 20 VAC 5-201-110 ("Proposed Rules"). The Proposed Rules were prepared by the Commission's Staff, and are appended to the Commission's Order for Notice and Comment establishing this proceeding. Interested persons are encouraged to obtain copies of this Commission Order and the Proposed Rules. Copies are available for public inspection at the Commission's Document Control Center, Tyler building, First Floor, 1300 East Main Street, Richmond, Virginia 23219, Monday through Friday, 8:15 a.m. to 5:00 p.m. Copies may also be downloaded from the Commission's website: http://www.scc.virginia.gov/caseinfo.htm

On or before April 14, 2008, any interested person may comment on, propose modifications or supplements to, or request oral argument on the Proposed Rules by filing an original and fifteen (15) copies of such comments with the Clerk of the Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118, making reference in such comments to Case No. PUE-2008-00001. Interested persons desiring to submit comments electronically may do so by following the instructions available at the Commission's website: http://www.scc.virginia.gov/caseinfo.htm.

All filings in this proceeding shall be directed to the Clerk of the Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118, making reference in such comments to Case No. PUE-2008-00001.

2 As described in SB 1416's legislative summary "[T]he ratemaking procedure requires the State Corporation Commission (SCC) to conduct a rate case for investor-owned utilities in 2009; thereafter, the SCC will review each utility's rates, terms, and conditions using two 12-month test periods ending December 31, 2010, though the SCC is given discretion to stagger the years in which it conducts such reviews. In these biennial reviews the SCC will determine fair rates of return on common equity for the utility's generation and distribution services, using any methodology it finds consistent with the public interest. However, the return shall not be set: (i) lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods by a peer group of a majority of the other vertically-integrated investor-owned electric utilities in the southeastern United States with a Moody's bond rating of at least Baa; or (ii) higher than 300 basis points above that average."

3 As described in SB 1416's legislative summary "[E]ach utility may seek rate adjustment clauses to recover: (i) costs for transmission services provided by PJM Interconnection under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission (FERC) and costs of FERC-approved demand response programs; (ii) deferred environmental and reliability costs authorized under prior capped rate rules; (iii) costs of providing incentives for the utility to design and operate fair and effective demand-management, conservation, energy efficiency, and load management programs; (iv) costs of participation in the new renewable energy portfolio standard program; and (v) costs of projects that the SCC finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations, which costs may include the enhanced rate of return for new base load generation if the project would reduce the need for construction of new generation facilities by enabling the continued operation of existing generation facilities. A utility may also apply a rate adjustment clause for recovery from customers of the costs of: (i) a coal-fired generation facility..."
that utilizes Virginia coal and is located in the coalfield region of the Commonwealth, (ii) one or more other generation facilities, or (iii) one or more major unit modifications of generation facilities, to meet the utility's projected native load obligations. The utility may recover an enhanced rate of return on common equity associated with the type of project, which may include projects utilizing nuclear power, renewable technologies, carbon capture facilities, combined cycle combustion turbines, and conventional coal facilities.”

20VAC5-201-20. General and expedited rate increase
applications.

A. An application for a general or expedited rate increase
pursuant to Chapter 10 (§56-232 et seq.) of Title 56 of the
Code of Virginia for a public utility having annual revenues
exceeding $1 million, shall conform to the following
requirements:

1. Exhibits consisting of Schedules 1 through 44 and the
utility's direct testimony shall be submitted. Such
schedules shall be identified with the appropriate schedule
number and shall be prepared in accordance with the
instructions contained in 20VAC5-201-90.

2. An applicant subject to §56-585.1 of the Code of
Virginia shall file Schedules 46 and 49 in addition to the
schedules required in 20VAC5-201-20 A 1 in accordance
with the instructions accompanying such schedules in
20VAC5-201-90.

3. An exhibit consisting of additional schedules may be
submitted with the utility's direct testimony. Such exhibit
shall be identified as Schedule 50 (this exhibit may include
numerous sub-schedules labeled 50A et seq.).

B. The selection of a historic test period is up to the
applicant. However, the use of overlapping test periods will
not be allowed.

C. If not otherwise constrained by law or regulatory
requirements, an applicant who has not experienced a
substantial change in circumstances may file an expedited
rate application as an alternative to a general rate application.
Such application need not propose an increase in regulated
operating revenues. If, upon timely consideration of the
expedited application and supporting evidence, it appears that
a substantial change in circumstances has taken place since
the applicant's last rate case, then the commission may take
appropriate action, such as directing that the expedited
application be dismissed or treated as a general rate
application. Prior to public hearing, and subject to applicable
provisions of law, an application for expedited rate increase
may take effect within 30 days after the date the application is
filed. Expedited rate increases may also take effect in less
than 12 months after the applicant's preceding rate increase so
long as rates are not increased as a result thereof more than
once in any calendar year. An applicant making an expedited
application shall also comply with the following rules:

1. In computing its cost of capital, as prescribed in
Schedule 3 in 20VAC5-201-90, the applicant, other than
those utilities subject to §56-585.1 of the Code of Virginia,
shall use the equity return rate approved by the
commission and used to determine the revenue
requirements in the utility's most recent rate proceeding.

2. An applicant, in developing its rate of return statement,
shall make adjustments to its test period jurisdictional
results only in accordance with the instructions
accompanying Schedule 25 in 20VAC5-201-90.

3. The applicant may propose new allocation
methodologies, rate designs and new or revised terms and
conditions provided such proposals are supported by
appropriate cost studies. Such support shall be included in
Schedule 40.

D. Rates authorized to take effect 30 days following the
filing of any application for an expedited rate increase shall
be subject to refund in a manner prescribed by the
commission. Whenever rates are subject to refund, the
commission may also direct that such refund bear interest at a
rate set by the commission.

20VAC5-201-30. Annual informational filings.

Unless modified per a commission-approved alternative
regulatory plan, each utility not subject to §56-585.1 of the
Code of Virginia, and which is not requesting a base rate
increase shall make an annual informational filing consisting
of Schedules 1-7, 9, 11-12, 14-19, 21-22, 24-25, 27-31, 34-
36, 38-40 and 44 as identified in 20VAC5-201-90. The test
period shall be the current 12 months ending in the same
month used in the utility's most recent rate application. This
information shall be filed with the commission within 120
days after the end of the test period. Accounting adjustments
reflected in Column (2) of Schedule 21 shall incorporate the
ratemaking treatment approved by the commission in the
utility's last rate case and shall be calculated in accordance
with the Expedited Rules of Schedule 25. Requirements
found in 20VAC5-201-10 B 2 through 4 may be omitted in
Annual Informational Filings.

20VAC5-201-40. Optional performance-based regulations
applications.

A. An applicant, other than those subject to §56-585.1 of the
Code of Virginia, that files an application for performance-
based regulation pursuant to §56-585.1 of the Code of
Virginia shall file Schedules 1-32 and 34-43 as identified in
20VAC5-201-90.
B. An applicant subject to §56-585.1 of the Code of Virginia that files a performance-based regulation filing pursuant to §56-235.6 of the Code of Virginia shall file Schedules 1-46 and 49 as identified in 20VAC5-201-90.

20VAC5-201-50. Biennial review applications.
A. A biennial review application filed pursuant to §56-585.1 of the Code of Virginia shall include the following:

1. Exhibits consisting of Schedules 3, 6-7, 9-18, 40a and 44-45 as identified in 20VAC5-201-90 shall be submitted with the utility's direct testimony for two successive 12-month test periods.

2. Exhibits consisting of Schedules 1-2, 4-5, 8, 19-39, 40b-d, 41-43, 46, and 49 as identified in 20VAC5-201-90 shall be submitted with the utility's direct testimony for the second of the two successive 12-month test periods.

3. An exhibit consisting of additional schedules may be submitted with the utility's direct testimony. Such exhibit shall be identified as Schedule 50 (this exhibit may include numerous sub-schedules labeled 50A et seq.).

B. The assumed rate year for purposes of determining ratemaking adjustment in Schedules 21 and 24, as identified in 20VAC5-201-90, shall begin on December 1 of the year following the two successive 12-month test periods.

C. For purposes of attaining timelines established for biennial reviews in §56-585.1 A 8 of the Code of Virginia, by March 31 of each year that a biennial review is not filed pursuant to §56-585.1 of the Code of Virginia, each investor-owned electric utility subject to §56-585.1 of the Code of Virginia shall submit two copies of Schedules 9-25, 27-29, 40, and 44-45 for the previous 12-month test period with the commission's Division of Public Utility Accounting, the Division of Economics and Finance and the Division of Energy Regulation. These schedules do not constitute an Annual Informational Filing and will not result in any findings or conclusions outside the context of legislated biennial reviews.

20VAC5-201-60. Rate adjustment clause filings.
An application filed pursuant to §56-582 or §56-585.1 A 4, 5 or 6 of the Code of Virginia shall include Schedules 46-48 as identified and described in 20VAC5-201-90, and that shall be submitted with the utility's direct testimony.

20VAC5-201-70. Temporary increases of rates.

The filing shall include projections required by the commission's Fuel Monitoring System as well as the testimony and exhibits supporting the fuel factor projections.

B. Electric utilities not seeking a change in the fuel factor shall file fuel factor projections at least six weeks prior to the expiration of the last projection or as required by the commission.

*Job Development Credits shall not be included as part of equity capital nor shall a deduction be made from earnings for a capital charge on these Job Development Credits in Schedule 1.

**An average based on monthly highs and lows is also acceptable. If this alternative is chosen, provide monthly market prices and sufficient data to show how the calculation was made.

**Schedule 2 - Interest and Cash Flow Coverage Data

Instructions: This schedule shall be prepared using the definitions and instructions given below and presented in the format of the attached schedule. The information shall be provided for the test year and the four prior fiscal years based on information for the Applicant and for the consolidated company if Applicant is a subsidiary.

- Interest (Lines 3, 4, & 5) shall include amortization of expenses, discounts, and premiums on debt without deducting an allowance for borrowed funds used during construction.

- Income taxes (Line 2) shall include federal and state income taxes.

- Allowance for Funds Used During Construction ("AFUDC") (Line 8), where applicable, is total AFUDC -- for borrowed and other funds.

- Preferred dividends (Line 13) for a subsidiary may need to be allocated from the parent's total preferred dividends. Specify the allocation factor and the methodology used in a footnote.

- Construction expenditures (Line 15) are net of AFUDC.

- Common dividends (Line 16) for a subsidiary shall be stated per books. If the subsidiary's dividend payout ratio differs from the consolidated company's payout ratio, show in a footnote the subsidiary's common dividends based on the consolidated company's payout ratio.

Schedule 3 - Capital Structure and Cost of Capital Statement – Per Books and Average

Instructions: This schedule shall show the amount of each capital component per balance sheet, the amount for ratemaking purposes, the percentage weight in the capital structure, the component cost and weighted cost, using the format in the attached schedule. The information shall be provided for the test period, the four prior fiscal years, and on a 13-month average or five-quarter average basis for the test period. The data shall be provided for the entity whose capital structure was approved for use in the applicant's last rate case.

In Part A, the information shall be compatible with the latest Stockholders' Annual Report (including any restatements). In Parts B, C, and D the methodology shall be consistent with that approved in the applicant's last rate case. Reconcile differences between Parts A and B for both end-of-test-period and average capital structures.

The amounts for short-term debt and revolving credit agreements (and similar arrangements) in Part B shall be based where possible on a daily average over the test year, or alternatively on a 13-month average over the test year. Except for the Part B amount for short-term debt and average amounts in Column (6), all other accounts are end-of-year and end-of-test period.

The component weighted cost rates equal the product of each component's capital structure weight for ratemaking purposes times its cost rate. The weighted cost of capital is equal to the sum of the component weighted cost rates. The Job Development Credits cost is equal to the weighted cost of permanent capital (long-term debt, preferred stock, and common equity).

For investor-owned electric utilities subject to §56-585.1 of the Code of Virginia, Parts A, B, C, and D shall be based on the utility’s actual, end-of-period capital structure.

Schedule 4 - Schedules of Long-Term Debt, Preferred and Preference Stock, Job Development Credits, and Any Other Component of Ratemaking Capital

Instructions: For each applicable capital component, provide a schedule that shows, for each issue, the amount outstanding, its percentage of the total capital component, and effective cost based on the embedded cost rate. This data shall support the amount and cost rate of the respective capital components contained in Schedule 3, consistent with the methodology approved in applicant’s last rate case. In addition, a detailed breakdown of all job development credits should be provided that reconciles to the per books balance of investment tax credits. These schedules should reflect disclosure of any associated hedging/derivative instruments, their respective terms and conditions (instrument type, notional amount and associated series of debt or preferred stock hedged, period in effect, etc.), and the impact of such instruments on the cost of debt or preferred stock.

Schedule 5 - Schedule of Short-Term Debt, Revolving Credit Agreements, and similar Short-Term Financing Arrangements

Instructions: Utilities that are not subject to §56-585.1 of the Code of Virginia shall provide data and explain the
methodology, which should be consistent with the methodology approved in the applicant’s last rate case, used to calculate the cost and balance contained in Schedule 3 for short-term debt, revolving credit agreements, and similar arrangements.

Investor-owned electric utilities subject to §56-585.1 of the Code of Virginia shall file data consistent with the utility’s end of test period capital structure and cost of short-term debt.

This schedule should also provide detailed disclosure of any hedging/derivative instruments related to short-term debt, their respective terms and conditions (instrument type, notional amount and associated series of debt hedged, period in effect, etc.), and the impact of such instruments on the cost of short-term debt.

Schedule 6 - Public Financial Reports

Instructions: Provide copies of the most recent Stockholder's Annual Report, Securities and Exchange Commission Form 10-K, and Form 10-Q for the applicant and the consolidated parent company if applicant is a subsidiary. If published, provide a copy of the most recent statistical or financial supplement for the consolidated parent company.

Schedule 7 - Comparative Financial Statements

Use format of attached schedule.

Schedule 9 shall reflect average rate base, capital and common equity capital. Interest expense, preferred dividends and common equity capital shall be calculated by using the average capital structure included in Schedule 3 B and average rate base.

Utilities not subject to §56-585.1 of the Code of Virginia shall file only Columns (1)-(3) on Schedule 9.

Schedule 10 - Rate of Return Statement – Earnings Test – Generation and Distribution Per Books

VA.R. Doc. No. R08-1134; Filed January 30, 2008, 8:40 a.m.

TITLE 23. TAXATION

DEPARTMENT OF TAXATION

Fast-Track Regulation

Title of Regulation: 23VAC10-10. Guidelines for Public Participation in Regulation Development and Promulgation (amending 23VAC10-10-10 through 23VAC10-10-70, 23VAC10-10-80; repealing 23VAC10-10-90).

Statutory Authority: §§2.2-4007.02 and 58.1-203 of the Code of Virginia.

Public Hearing Information: No public hearings are scheduled.

Public Comments: Public comments may be submitted until 5 p.m. on April 4, 2008.

Effective Date: April 19, 2008.

Agency Contact: Jennifer Lewis, Analyst, Department of Taxation, 600 East Main Street, Richmond, VA 23219, telephone (804) 371-2341, FAX (804) 371-2355, or email jennifer.lewis@tax.virginia.gov.

Basis: Section 58.1-203 of the Code of Virginia provides that the "Tax Commissioner shall have the power to issue regulations relating to the interpretation and enforcement of the laws of this Commonwealth governing taxes administered by the Department." Additionally, §2.2-4007.02 of the Code of Virginia requires agencies to develop, adopt and utilize public participation guidelines for soliciting the input of interested parties in the formation and development of its regulations pursuant to the provisions of this chapter. The authority for the current regulatory action is discretionary.

Purpose: This regulatory action is necessary to ensure a predictable and adequate revenue stream for the government to provide for the health, safety and welfare of its citizens. As the result of a comprehensive review of all of its regulations, TAX has identified numerous regulations that need to be promulgated, amended or repealed, including its Public Participation Guidelines. The purpose of this action is to update the guidelines to reflect changes in the APA made subsequent to the promulgation of the guidelines and to reflect the requirements of Executive Order 36 (2006) requiring all agencies to post all rulemaking actions on the Virginia Regulatory Town Hall to ensure that the public is adequately informed of rulemaking activity.

Given the volume of regulatory actions planned by TAX, this regulatory action is necessary to update the guidelines to fully take advantage of the Town Hall and changes in the APA that streamline the regulatory process.

Rationale for Using Fast-Track Process: As the changes to TAX’s Public Participation Guidelines made by this regulatory action are consistent with the Administrative Process Act and Executive Order 36 (2006), this action is not expected to be controversial.

Substance: This regulatory action will amend TAX’s Guidelines for Public Participation in Regulation Development and Promulgation (23VAC10-10) (guidelines) to reflect the establishment of the Virginia Regulatory Town Hall (Town Hall) and changes in the Administrative Process Act (APA).

This action will amend 23VAC10-10-10 to reflect changes in APA regarding the procedures for individuals and groups to petition TAX to promulgate or revise regulations.

23VAC10-10-10 currently provides that TAX will respond to petitions requesting revision or development of a regulation within 180 days from the date the petition is received by TAX. This provision is no longer consistent with the APA. This action amends 23VAC10-10-10 to simply state that TAX will handle requests for rulemaking as set forth in the APA. The APA sets forth detailed procedures for responding to requests for rulemaking that do not need to be repeated in the guidelines.

23VAC10-10-10 currently requires interested parties to contact TAX in writing to express interest in participating in the regulation development process generally, or in specific regulation development efforts, or to petition for the development or revision of a regulation or regulations. This action will amend 23VAC10-10-10 to specify that interested parties should notify the department’s regulatory coordinator or other contact listed on the Town Hall.

23VAC10-10-10 currently requires interested parties to contact TAX in writing to express interest in participating in the regulation development process generally, or in specific regulation development efforts, or to petition for the development or revision of a regulation or regulations. This action will amend 23VAC10-10-10 to specify that interested parties should notify the department’s regulatory coordinator or other contact listed on the Town Hall.

Volume 24, Issue 12 Virginia Register of Regulations February 18, 2008
23VAC10-10-20 currently requires TAX to take the following steps prior to the development of any regulation to identify associations, committees, groups, or individuals who may be interested in or affected by the proposal: (i) obtain annually from the Secretary of the Commonwealth a list of all registered lobbyists; (ii) utilize the statewide listing of business, professional, civic, and charitable associations and societies in Virginia published by the state Chamber of Commerce; (iii) utilize department subject matter files to identify persons who have previously raised questions or expressed an interest in the subject matter under consideration through requests for formal rulings or administrative appeals; (iv) utilize a standing list, compiled by TAX, of persons who have previously participated in public proceedings relative to similar subject matters or who have expressed an interest in all tax regulations; (v) utilize a standing list, compiled by TAX, of attorneys, certified public accountants, and corporate tax personnel who practice in the field of state and local taxation; and (vi) develop a list of persons who have petitioned for the development or revision of a regulation or notified the department of an interest in participating in the regulation development process. This action will amend 23VAC10-10-20 to specify that TAX will use these methods to identify and encourage interested parties to register with the Town Hall to receive notification of TAX's regulatory actions and meetings. Additionally, this action will create a procedure for TAX to request that the Department of Planning and Budget remove persons who have enrolled as registered users on the Town Hall with respect to the department’s regulatory activities but are no longer interested in receiving such notification or whose electronic mail is returned as undeliverable from the Town Hall’s list of registered users with respect to the department’s regulatory activities.

23VAC10-10-30 currently requires TAX to prepare a Notice of Intended Regulatory Action (NOIRA) prior to the development of any regulation not exempt from the public participation provisions of the APA. This action will amend 23VAC10-10-30 to allow TAX to omit the NOIRA in situations where a NOIRA is not required by the APA.

23VAC10-10-30 currently details the content that TAX must place in the NOIRA. This action will amend 23VAC10-10-10 to simply state that the NOIRA issued by TAX must conform with the requirements of the APA. The APA sets forth detailed procedures for responding to requests for rulemaking that do not need to be repeated in the guidelines.

23VAC10-10-40 currently requires TAX to (i) send the NOIRA to all persons identified as having a potential interest in the regulation; (ii) publish the NOIRA in the Virginia Register; and (iii) request that industry, professional and taxpayer associations to whom the NOIRA is sent publish it in newsletters or journals or use any other means available to them to disseminate the notice to their membership. This action amends 23VAC10-10-40 to limit the mandatory dissemination of the NOIRA to posting it on the Town Hall and publishing it in the Virginia Registrar.

23VAC10-10-50, which concerns the development of the working draft of the regulation by TAX, currently reiterates the APA requirement that it will not submit a proposed regulation publication in the Virginia Register until a minimum of 30 days after the notice is published in the Virginia Register. This action amends 23VAC10-10-50 to delete this requirement. As the APA requirement is clear and unambiguous, it does not need to be repeated in the guidelines.

23VAC10-10-70, which concerns the submission of the regulation under the APA by TAX, currently reiterates numerous requirements of the APA. This action amends 23VAC10-10-70 to delete these requirements. As the APA requirements are clear and unambiguous, they do not need to be repeated in the guidelines.

23VAC10-10-70 currently does not provide for the use of the Town Hall. This regulatory action will amend 23VAC10-10-70 to conform with Executive Order 36 (2006) Development and Review of Regulations Proposed By State Agencies. Executive Order 36 provides that "[i]n addition to requirements set out in the Virginia Administrative Process Act, agencies shall post all rulemaking actions on the Virginia Regulatory Town Hall to ensure that the public is adequately informed of rulemaking activity."

23VAC10-10-70 currently requires TAX to publish notice of the public hearing regarding a proposed regulation "in the Richmond Times-Dispatch or another newspaper of general circulation in the state capital." 23VAC10-10-70 was promulgated at a time when (former) §9-6.14:7.1 of the Code of Virginia required newspaper publication regarding any proposed regulatory action unless it was exempted from the regulatory process. Section 2.2-4007.03 of the Code of Virginia, a successor statute to §9-6.14:7.1 of the Code of Virginia, no longer requires newspaper publication. This action will eliminate the newspaper publication requirement. As amended by this action, 23VAC10-10-70 will comply with the requirement of §2.2-4007.03 of the Code of Virginia that the proposed regulation and general notice of opportunity for oral or written submittals as to the regulation shall be published in the Virginia Register.

23VAC10-10-80, which concerns the adoption period for regulations, currently reiterates numerous requirements of the APA. This action amends 23VAC10-10-80 to delete these requirements. As the APA requirements are clear and unambiguous, they do not need to be repeated in the guidelines.

23VAC10-10-80 currently does not provide for the use of the Town Hall. This regulatory action will amend 23VAC10-10-
Regulations

80 to conform to the requirements of Executive Order 36 (2006).

23VAC10-10-90 currently requires TAX to physically print and distribute any regulation. This regulatory action would repeal 23VAC10-10-90 because TAX’s regulations are freely available on its website and that of the General Assembly.

Issues: The regulatory action poses no disadvantages to the public or the Commonwealth. The primary advantage to the public and to the Commonwealth is that by eliminating the cost of newspaper publication of notices of public hearings, it will decrease the cost to the Commonwealth and, ultimately, taxpayers of regulatory actions. The current requirement that TAX publish a notice of each public hearing in a newspaper of general circulation in the state capital is not only expensive, it does little to insure that the public will receive actual notice of public hearings. As there are several newspapers of general circulation in the state capital, interested parties would need to monitor each issue of each newspaper to obtain actual notice. Additionally, some or all of these newspapers may not be available throughout the Commonwealth or in other states. The Town Hall provides a simple, free notification service for interested parties to signup and receive email notification of regulatory actions by specific agencies. TAX has already notified taxpayers, tax practitioners and other persons who have expressed an interest in its regulatory actions to sign up for this notification service.

Another advantage of this regulatory action to the Commonwealth and, ultimately, taxpayers, is that by increasing its reliance on the Town Hall, the Commonwealth will be able to reduce its costs of mailing notices to interested parties and processing correspondence from interested parties.

Department of Planning and Budget's Economic Impact Analysis:

Summary of the Proposed Amendments to Regulation. The Department of Taxation (Department) proposes to amend its policies and procedures for public participation in the development and promulgation of regulations. The proposed amendments include the following changes. First, any person interested in participating in the regulation development process will need to contact the Department staff person listed on the Virginia Department of Planning and Budget’s Virginia’s Regulatory Town Hall. Second, the Department will notify stakeholders of regulatory activities via the Town Hall; instead of identifying interested parties before or during each regulatory change, the Department will initially encourage those individuals/entities to become registered users of Town Hall to receive general electronic notification of the Department’s regulatory activities. Third, the Department may periodically request that registered Town Hall users indicate their desire to continue to receive notification of the Department’s regulatory activity electronically. If the electronic mail is returned as undeliverable, or there has been no response to a request from the Department, the Department may request that such persons be removed from the Town Hall’s list of registered users. Finally, the method for disseminating a Notice of Intended Regulatory Action, a notice of a public hearing, a proposed regulation, a final regulation, and a published regulation will be limited to posting on the Town Hall and publishing in the Virginia Register of Regulations (when relevant).

Result of Analysis. The benefits likely exceed the costs for all proposed changes.

Estimated Economic Impact. The current regulation requires information dissemination about the Department’s regulatory activity to occur almost entirely through paper (mailings and newspaper). Under the proposed amendments, all of that dissemination will be done electronically. First, under current regulation, any person interested in participating in the regulation development process contacts the Assistant Commissioner for Tax Policy whose address is listed in the regulation. Under the proposed amendment, the person would have to notify the Regulatory Coordinator or other agency contact listed on the Virginia Department of Planning and Budget’s Virginia Regulatory Town Hall (Town Hall). Second, under current regulation, to disseminate a Notice of Intended Regulatory Action (NOIRA), the Department must send the notice to persons identified as having a potential interest in the regulation, publish the notice in the Virginia Register of Regulations (Virginia Register), and request that industry, professional, and taxpayer associations to whom the NOIRA is sent make it available to members. Under the proposed regulation, the Department must only post the NOIRA on the Town Hall and publish the NOIRA in the Virginia Register. Third, under current regulation, the Department shall furnish a copy of a proposed regulation to all interested parties, including a cover letter explaining the deadlines for submitting formal public comments under the Administrative Process Act (APA). Under the proposed regulation, the Department would be required only to post a proposed regulation to the Town Hall and publish it in the Virginia Register. Fourth, under current regulation, the time, date, and place of a public hearing must be clearly specified to interested parties, publicized in the Richmond Times Dispatch or another newspaper of general circulation in the state capital, and published in the Virginia Register. Under the proposed regulation, the Department would be required only to post the notice of a public hearing to the Town Hall and publish it in the Virginia Register. Fifth, under current regulation, the Department must send a copy of a final regulation—at least five days prior to adopting the regulation—with a summary of public comments to all interested parties. Under the proposed regulation, the Department must only post a final regulation to the Town Hall. Finally, under current regulation, the Department must
print and distribute the final, published regulation. This requirement is repealed in the proposed amendments.

The benefit of moving to an electronic format—with stakeholders being notified via email and the primary means of getting information being via the Town Hall web site—is in cost savings. According to the Department, publishing a regulatory change in a newspaper can cost the state several thousand dollars. In addition, depending on the size and state of the mailing list, one mailing generated from one regulatory change, can cost as much as a day of a full-time employee. When one adds the labor cost to the costs of paper, envelopes, and postage, and considers the number of regulatory changes the Department will make over a year, it is clear that moving to the electronic medium could provide significant cost savings.

The major cost of these amendments will be incurred by those stakeholders who do not have access to the internet, or who do not use the internet often enough to receive Department notification in a timely manner. If information about a regulatory change is not being disseminated across the state, the Department could run into problems with regulatory compliance and could spend more staff time and resources in dealing with unhappy constituents than would have been spent on dissemination through the newspaper or mailings. The Department argues, however, that most of their interested parties do use the internet regularly. The Department has already been requested by parties interested in their non-regulatory activity to send out all notification via email. In addition, the Department has mailed notices to all parties interested in regulatory activity on their current mailing list (around 4000 notices), alerting them that all future dissemination will happen through Town Hall and all notification will be via email. The Department has not received any complaints and less than five percent of the mailings were returned. Finally, the Department argues that because there are several newspapers of general circulation in the state capital, interested parties would need to monitor each issue of each newspaper to obtain notice of a regulatory change. In addition, these newspapers might not be available throughout the Commonwealth. Therefore, newspaper publication does little to insure that the public receives notices of public hearings.

The proposed amendments also include a section allowing the Department to periodically request that those persons who have enrolled as registered users on the Town Hall indicate their desire to continue to receive notification of the Department’s regulatory activity electronically. When electronic mail is returned as undeliverable or there has been no response to a request from the Department, the Department may request that such persons be removed from the Town Hall’s list of registered users. The benefit of this amendment is in being able to “clean the books” occasionally. The cost could be in deleting someone from the list who is interested in the Department’s regulatory activity, but who went on vacation and therefore could not respond to the request or whose server was temporarily down, causing the electronic mail to be returned as undeliverable. The Department has no intention of removing a party from the list quickly, however, and says that one undeliverable email will not result in removal.

On the whole, although it is important to remain vigilant about the reach of the electronic media, the benefits of these amendments outweigh the costs.

Businesses and Entities Affected. The proposed changes will affect all taxpayers and tax practitioners in the Commonwealth, particularly individuals and businesses interested in monitoring the Department’s activities. As of August 6, 2006, there were 687 people signed up on Town Hall to be on the Department’s mailing list.

Localities Particularly Affected. The proposed changes do not disproportionately affect any specific localities in the Commonwealth.

This study covers portions of Accotink Creek and Difficult Run that were identified as impaired on the Clean Water Act §303(d) list for not supporting the primary contact recreation use due to elevated levels of bacteria, as well as a portion of Difficult Run that was listed on the 303(d) list for not meeting the aquatic life use due to poor health in the benthic biological community. Virginia agencies are working to identify the sources of bacteria contamination in the impaired portions of Accotink Creek and Difficult Run, and to identify the stressors that are affecting the benthic community in Difficult Run. During the study, DEQ will develop a total maximum daily load for each impaired stream segment, for each specific impaired use. A TMDL is the total amount of a pollutant a water body can receive and still meet water quality standards. To restore water quality, contamination levels have to be reduced to the TMDL allocated amount.

How to comment: The public comment period on the materials presented at the public meeting will extend from March 6, 2008, to April 4, 2008. DEQ accepts written comments by email, fax, or postal mail. Written comments should include the name, address, and telephone number of the person commenting, and be received by DEQ during the comment period. Please send all comments to the contact listed below.

Total Maximum Daily Load-King George County

Purpose of notice: The Virginia Department of Environmental Quality (DEQ), Virginia Department of Health and the Virginia Department of Conservation and Recreation announce a total maximum daily load (TMDL) study for fecal coliform bacteria in shellfish propagation waters located in King George County, Virginia.

Public meeting: Wednesday, March 5, 2008, at 7 p.m., L. E. Smoot Memorial Library, 9533 Kings Highway, King George, VA 22485.
General Notices/Errata

Meeting description: This is the first public meeting for this project. The purpose of this meeting is to present the draft TMDL study to community members.

Description of study: The impaired segments are located in VDH Growing Area 001A-036 and include portions of Upper Machodoc Creek, and its tributaries, Williams Creek, Deep Creek, and Gambo Creek. These impaired waterbodies are located in King George County, Virginia.

The affected water body segments are identified in Virginia’s 1998 303(d) TMDL Priority List and Report as impaired due to exceedances of the state’s water quality standard for fecal coliform bacteria in shellfish waters. Section 303(d) of the Clean Water Act and §62.1-44.19:7 C of the Code of Virginia, require DEQ to develop TMDLs for pollutants responsible for each impaired water contained in Virginia’s 303(d) TMDL Priority List and Report.

How to comment: The public comment period on the materials presented at the meeting will extend from March 5, 2008, to April 4, 2008. DEQ accepts written comments by email, fax, or postal mail. Written comments should include the name, address, and telephone number of the person commenting, and be received by DEQ during the comment period. Please send all comments to the contact listed below.

Total Maximum Daily Load - Mountain Run, Mine Run Watersheds

Announcement of a public comment period for modifications to the TMDL study to restore water quality in the Mountain Run, Mine Run Watersheds in Orange County, Virginia.

Purpose of notice: To seek public comment on modifications of the water quality improvement study entitled "Bacteria TMDLs for Mountain Run and Mine Run, Orange County, Virginia" by the Virginia Department of Environmental Quality (VDEQ).

Description of study: Total maximum daily loads (TMDLs) of bacteria were developed to address bacteria impairments in the Mountain Run and Mine Run watersheds. These TMDLs were approved by the Environmental Protection Agency on November 15, 2005, and can be found at the following website: http://www.deq.virginia.gov/tmdl/apptmdls/rappvr/mtnmine.pdf. Following the approval of this TMDL, it became apparent that the Virginia Pollutant Discharge Elimination System (VPDES) Permit for Locust Grove Elementary School (VA0078131) was inadvertently omitted from the wasteload allocation (WLA) for Mine Run. While the original TMDL did leave room from some growth of point sources in the watershed, the growth allotted was not enough to cover the wasteload allocation for Locust Grove Elementary School. Accordingly, the purpose of this modification memo is to (i) update the WLA for Mine Run to include the load from Locust Grove Elementary School (VA0078131), (ii) update the WLA for Mine Run to include the load from two general permits for domestic sewage discharge that were permitted following the approval of this TMDL by EPA, and (iii) include a growth factor of five times the individual point source load for Mine Run (i.e. five times the WLA for Locust Grove Elementary School) to account for the future growth and expansion of point sources in the watershed.

The proposed increase in WLA will not cause a water quality exceedance because Virginia's Water Quality standards for bacteria require that treated effluent discharged into a receiving stream meet the bacteria criteria for the stream. VDEQ has performed additional modeling to confirm that at five times the wasteload allocation, the water quality standard would not be exceeded if permitted dischargers are required to discharge at an E. coli concentration of 126 cfu/100ml. DEQ is currently seeking written comments on the modification of this TMDL. To review the proposed revisions to the wasteload allocation tables and TMDL equation tables, please contact Katie Conaway using the information listed below.

How a decision is made: The modifications to the Mountain Run, Mine Run Bacteria TMDL will undergo a 30-day public comment period. After public comments have been considered and addressed, DEQ will prepare a TMDL modification document and submit the document to EPA for approval.

How to comment: DEQ accepts written comments by email, fax or postal mail. Written comments should include the name, address, and telephone number of the person commenting, and be received by DEQ at the address provided below during the comment period, February 18, 2008, to March 18, 2008.

VIRGINIA CODE COMMISSION

Elimination of the Calendar of Events Section

Effective July 1, 2007, the Calendar of Events section is no longer published in the Virginia Register of Regulations. Chapter 300 of the 2007 Acts of Assembly amended the Administrative Process Act by eliminating the requirement that all state agency meeting notices be published in the Virginia Register. In lieu of publication in the Virginia Register, the Virginia Freedom of Information Act was amended to require that agencies post meeting notices on the agency's website and on the Commonwealth Calendar.
maintained by the Virginia Information Technologies Agency. To access the Commonwealth Calendar, please visit the Commonwealth of Virginia's homepage at www.virginia.gov and click on the calendar on the right side of the screen. Public hearing information is still published in the Register and can be found with the corresponding proposed regulation.

**Notice to State Agencies**

**Mailing Address:** Virginia Code Commission, 910 Capitol Street, General Assembly Building, 2nd Floor, Richmond, VA 23219.

**Filing Material for Publication in the Virginia Register of Regulations**

Agencies are required to use the Regulation Information System (RIS) when filing regulations for publication in the Virginia Register of Regulations. The Office of the Virginia Register of Regulations implemented a web-based application called RIS for filing regulations and related items for publication in the Virginia Register. The Registrar's office has worked closely with the Department of Planning and Budget (DPB) to coordinate the system with the Virginia Regulatory Town Hall. RIS and Town Hall complement and enhance one another by sharing pertinent regulatory information.

The Office of the Virginia Register is working toward the eventual elimination of the requirement that agencies file print copies of regulatory packages. Until that time, agencies may file petitions for rulemaking, notices of intended regulatory actions and general notices in electronic form only; however, until further notice, agencies must continue to file print copies of proposed, final, fast-track and emergency regulatory packages.
