VIRGINIA REGISTER INFORMATION PAGE

THE VIRGINIA REGISTER OF REGULATIONS is an official state publication issued every other week throughout the year. Indexes are published quarterly, and are cumulative for the year. The *Virginia Register* has several functions. The new and amended sections of regulations, both as proposed and as finally adopted, are required by law to be published in the *Virginia Register*. In addition, the *Virginia Register* is a source of other information about state government, including petitions for rulemaking, emergency regulations, executive orders issued by the Governor, and notices of public hearings on regulations.

ADOPTION, AMENDMENT, AND REPEAL OF REGULATIONS

An agency wishing to adopt, amend, or repeal regulations must first publish in the *Virginia Register* a notice of intended regulatory action; a basis, purpose, substance and issues statement; an economic impact analysis prepared by the Department of Planning and Budget; the agency's response to the economic impact analysis; a summary; a notice giving the public an opportunity to comment on the proposal; and the text of the proposed regulation.

Following publication of the proposal in the *Virginia Register*, the promulgating agency receives public comments for a minimum of 60 days. The Governor reviews the proposed regulation to determine if it is necessary to protect the public health, safety and welfare, and if it is clearly written and easily understandable. If the Governor chooses to comment on the proposed regulation, his comments must be transmitted to the agency and the Registrar no later than 15 days following the completion of the 60-day public comment period. The Governor's comments, if any, will be published in the *Virginia Register*. Not less than 15 days following the completion of the 60-day public comment period, the agency may adopt the proposed regulation.

The Joint Commission on Administrative Rules (JCAR) or the appropriate standing committee of each house of the General Assembly may meet during the promulgation or final adoption process and file an objection with the Registrar and the promulgating agency. The objection will be published in the *Virginia Register*. Within 21 days after receipt by the agency of a legislative objection, the agency shall file a response with the Registrar, the objecting legislative body, and the Governor.

When final action is taken, the agency again publishes the text of the regulation as adopted, highlighting all changes made to the proposed regulation and explaining any substantial changes made since publication of the proposal. A 30-day final adoption period begins upon final publication in the *Virginia Register*.

The Governor may review the final regulation during this time and, if he objects, forward his objection to the Registrar and the agency. In addition to or in lieu of filing a formal objection, the Governor may suspend the effective date of a portion or all of a regulation until the end of the next regular General Assembly session by issuing a directive signed by a majority of the members of the appropriate legislative body and the Governor. The Governor's objection or suspension of the regulation, or both, will be published in the *Virginia Register*. If the Governor finds that changes made to the proposed regulation have substantial impact, he may require the agency to provide an additional 30-day public comment period on the changes. Notice of the additional public comment period required by the Governor will be published in the *Virginia Register*.

The agency shall suspend the regulatory process for 30 days when it receives requests from 25 or more individuals to solicit additional public comment, unless the agency determines that the changes have minor or inconsequential impact.

A regulation becomes effective at the conclusion of the 30-day final adoption period, or at any other later date specified by the promulgating agency, unless (i) a legislative objection has been filed, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 21-day objection period; (ii) the Governor exercises his authority to require the agency to provide for additional public comment, in which event the regulation,

unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the period for which the Governor has provided for additional public comment; (iii) the Governor and the General Assembly exercise their authority to suspend the effective date of a regulation until the end of the next regular legislative session; or (iv) the agency suspends the regulatory process, in which event the regulation, unless withdrawn, becomes effective on the date specified, which shall be after the expiration of the 30-day public comment period and no earlier than 15 days from publication of the readopted action.

A regulatory action may be withdrawn by the promulgating agency at any time before the regulation becomes final.

FAST-TRACK RULEMAKING PROCESS

Section 2.2-4012.1 of the Code of Virginia provides an exemption from certain provisions of the Administrative Process Act for agency regulations deemed by the Governor to be noncontroversial. To use this process, Governor's concurrence is required and advance notice must be provided to certain legislative committees. Fast-track regulations will become effective on the date noted in the regulatory action if no objections to using the process are filed in accordance with § 2.2-4012.1.

EMERGENCY REGULATIONS

Pursuant to § 2.2-4011 of the Code of Virginia, an agency, upon consultation with the Attorney General, and at the discretion of the Governor, may adopt emergency regulations that are necessitated by an emergency situation. An agency may also adopt an emergency regulation when Virginia statutory law or the appropriation act or federal law or federal regulation requires that a regulation be effective in 280 days or less from its enactment. The emergency regulation becomes operative upon its adoption and filing with the Registrar of Regulations, unless a later date is specified. Emergency regulations are limited to no more than 18 months in duration; however, may be extended for six months under certain circumstances as provided for in § 2.2-4011 D. Emergency regulations are published as soon as possible in the *Register*. During the time the emergency status is in effect, the agency may proceed with the adoption of permanent regulations through the usual procedures. To begin promulgating the replacement regulation, the agency must (i) file the Notice of Intended Regulatory Action with the Registrar within 60 days of the effective date of the emergency regulation and (ii) file the proposed regulation with the Registrar within 180 days of the effective date of the emergency regulation. If the agency chooses not to adopt the regulations, the emergency status ends when the prescribed time limit expires.

STATEMENT

The foregoing constitutes a generalized statement of the procedures to be followed. For specific statutory language, it is suggested that Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2 of the Code of Virginia be examined carefully.

Proposed Regulation

Title of Regulation: **1VAC20-90. Campaign Finance and Political Advertisements (adding 1VAC20-90-30).**

Statutory Authority: § 24.2-103 of the Code of Virginia.

Public Hearing Information:

August 6, 2019 - 1 p.m. - Virginia State Capitol, Senate Room 3, Richmond, VA 23219

Public Comment Deadline: August 9, 2019.

Agency Contact: David Nichols, Director of Election Services, Department of Elections, 1100 Bank Street, Richmond, VA 23219, telephone (804) 864-8952, or email david.nichols@elections.virginia.gov.

Basis: The Department of Elections is promulgating this regulation on behalf of the State Board of Elections (the board) per § 24.2-103 of the Code of Virginia.

Purpose: Current campaign finance summaries define express advocacy as a direct or indirect contribution, in-kind contribution, independent expenditure, or loan made to a candidate or political committee for the purpose of influencing the outcome of an election; or an advertisement that refers to a party or candidate by name and states "Vote for..."; "Support..."; "Elect..."; "Smith for Congress"; "Send him home"; "Oppose..." etc. The board has repeatedly expressed concern that the definition currently included in campaign finance summaries does not provide sufficient clarity to citizens and entities of the Commonwealth wishing to sponsor political campaign advertisements.

The purpose of this regulation is to provide the State Board of Elections with authority to regulate campaign advertisements that unambiguously call for the election or defeat of a candidate; to further the public welfare and public interest in fair and fully informed elections by requiring sponsors of campaign advertisements to identify to the public who paid for or sponsored the advertisement; and in cases where another candidate is mentioned, to inform the public whether candidates mentioned in the advertisements did or did not approve the advertisement.

Substance: This regulatory action adds the definition of "express advocacy" to the Virginia Administrative Code. The proposed definition is taken from federal regulations governing campaign finance.

Issues: The primary advantage to the public, the Commonwealth, and the Department of Elections is that this amendment clarifies which political advertisements must be disclosed. This clarity also advantages sponsors of political advertisements by making them aware that, regardless of whether certain words are used, advertisements that expressly advocate must be disclosed. The advantage of the amendment to the public is that they will be able to see which candidate or sponsor paid for a political advertisement. The Department of Elections is not aware of any disadvantages of implementing the amendment.

Department of Planning and Budget's Economic Impact Analysis:

Summary of the Proposed Amendments to Regulation. The State Board of Elections (Board) proposes to adopt the federal definition of "express advocacy." The definition of express

advocacy is important in determining if disclosure statements need to be made in advertisements.

Result of Analysis. Whether the benefits exceed the costs depend on the policy views of the observer. Detailed analysis of the benefits and costs can be found in the next section.

Estimated Economic Impact. Generally speaking, disclosure statements identify the person(s) or organization(s) that has paid for the advertisement. Code of Virginia § 24.2-955 states that disclosure requirements for political campaign advertisements apply to any sponsor of an advertisement in the print media or on radio or television the cost or value of which constitutes an expenditure or contribution.¹ "Expenditure" is defined in § 24.2-945.1 as:

"money and services of any amount, and any other thing of value, paid, loaned, provided, or in any other way disbursed by any candidate, campaign committee, political committee, or person for the purpose of expressly advocating the election or defeat of a clearly identified candidate or by any inaugural committee for the purpose of defraying the costs of the inauguration of a Governor, Lieutenant Governor, or Attorney General."

"Contribution" is defined in § 24.2-945.1 as:

"money and services of any amount, in-kind contributions, and any other thing of value, given, advanced, loaned, or in any other way provided to a candidate, campaign committee, political committee, or person for the purpose of expressly advocating the election or defeat of a clearly identified candidate or to an inaugural committee for the purpose of defraying the costs of the inauguration of a Governor, Lieutenant Governor, or Attorney General. "Contribution" includes money, services, or things of value in any way provided by a candidate to his own campaign and the payment by the candidate of a filing fee for any party nomination method."

Thus, the definition of express advocacy is important in determining if disclosure statements need to be made in political campaign advertisements.

The Board currently uses the following definition for "express advocacy":

"a direct or indirect contribution, in-kind contribution, independent expenditure or loan made to a candidate or political committee for the purpose of influencing the outcome of an election; an advertisement that refers to a party or candidate(s) by name and states "Vote for..."; "Support"; "Elect..."; "Smith for Congress"; "Send Him Home"; "Oppose", etc."

There has been concern that this definition has provided a loophole by effectively permitting the absence of disclosure statements for political advertising that is intended to affect the outcome of an election, but does not use the specific

wording listed above. Consequently, the Board proposes to adopt the federal definition of "express advocacy," which is expected to close the loophole. This definition includes the specific wording above, and adds:

or any variations thereof or any communication when taken as a whole and with limited reference to external events, such as the proximity to the election, could only be interpreted by a reasonable person as containing advocacy of the election or defeat of one or more clearly identified candidates because (i) the electoral portion of the communication is unmistakable, unambiguous, and suggestive of only one meaning; and (ii) reasonable minds could not differ as to whether it encourages actions to elect or defeat one or more clearly identified candidates.

The proposed new definition does appear to close the loophole and would require that more advertising be accompanied with disclosure statements. For those who believe the more transparent political campaigns and their associated advertising are, the better, the Board's proposed new definition would produce a net benefit. For those who believe privacy should trump transparency, the proposed new definition of "express advocacy" would not be beneficial.

Businesses and Entities Affected. The proposed amendment affects persons and organizations that pay for political advertisements.

Localities Particularly Affected. The proposed amendment does not disproportionately affect particular localities.

Projected Impact on Employment. The proposed amendment is unlikely to affect employment.

Effects on the Use and Value of Private Property. The proposed amendment is unlikely to significantly affect the use and value of private property.

Real Estate Development Costs. The proposed amendment is unlikely to affect real estate development costs.

Small Businesses:

Definition. Pursuant to § 2.2-4007.04 of the Code of Virginia, small business is defined as "a business entity, including its affiliates, that (i) is independently owned and operated and (ii) employs fewer than 500 full-time employees or has gross annual sales of less than \$6 million."

Costs and Other Effects. The proposed amendment is unlikely to significantly affect costs for small businesses.

TITLE 3. ALCOHOLIC BEVERAGES

ALCOHOLIC BEVERAGE CONTROL AUTHORITY

Proposed Regulation

Title of Regulation: **3VAC5-50. Retail Operations (amending 3VAC5-50-160).**

Statutory Authority: §§ 4.1-103 and 4.1-111 of the Code of Virginia.

Public Hearing Information: No public hearings are scheduled.

Public Comment Deadline: August 11, 2019.

Agency Contact: LaTonya D. Hucks-Watkins, Legal Liaison, Virginia Alcoholic Beverage Control Authority, 2901 Hermitage Road, Richmond, VA 23220, telephone (804) 213-4698, FAX (804) 213-4574, or email latonya.hucks-watkins@abc.virginia.gov.

Basis: The Board of Directors of the Virginia Alcoholic Beverage Control Authority (ABC) is granted the authority to promulgate regulations under § 4.1-101 of the Code of Virginia, and § 4.1-111 of the Code of Virginia provides the board with the authority to adopt reasonable regulations that "...shall prescribe the terms for any 'happy hour' conducted by on-premises licensees. Such regulations shall permit on-premises licensees to advertise any alcoholic beverage products featured during a happy hour but prohibit the advertising of any pricing related to such happy hour."

Purpose: Virginia ABC has undertaken this action as a measure to allow its licensees to engage in responsible advertising for happy hour events. These changes will provide the public with a regulation that is condensed and easily

accessible and understandable by eliminating some redundancies and clarifying the rules relating to happy hour advertising, all of which lends itself to the ongoing protection of the health, safety, and welfare of citizens. Virginia ABC does not anticipate any potential issues that would have to be addressed as this regulation is developed. Virginia ABC hopes that the change will afford licensees more discretion in the language that they choose to use in their advertising while still maintaining compliance with the Code of Virginia.

Substance: The substantive changes to the existing regulation include adding a new subsection B to 3VAC5-50-160 that permits happy hour advertising so long as the advertisement does not induce minors or interdicted individuals to consume alcohol or encourage people to consume in excess. The section is relabeled to accommodate the addition of the regulation permitting happy hour advertising, and a cross reference to the definition of "advertising" in 3VAC5-20-10 is included. Subdivisions B 2, B 5, and B 6 are deleted because those provisions are addressed in other regulations.

Subsection E is added and includes a provision that the regulation is subject to and shall be adhered to in a manner consistent with all other regulations of the authority.

Issues: The primary advantage to the public is that licensees will have more discretion in advertising happy hour events, provided they do so responsibly and according to the provisions of the Code of Virginia. The primary advantage to the agency is that the regulation maintains compliance the Code of Virginia and removes some redundancies. There are no disadvantages to the public or Commonwealth associated with this regulatory change.

Department of Planning and Budget's Economic Impact Analysis:

Summary of the Proposed Amendments to Regulation. The Virginia Alcoholic Beverage Control Board of Directors (Board) proposes to repeal prescriptive restrictions on happy hour advertising.

Result of Analysis. The benefits likely exceed the costs for all proposed changes.

Estimated Economic Impact. Section 4.1-111(B)(15) of the Code of Virginia authorizes the Board to permit on-premises licensees to advertise any alcoholic beverage products featured during a happy hour. The statute, however, prohibits the advertising of any pricing related to such happy hour.¹

Under the current regulation, licensees are prohibited to advertise happy hour anywhere other than within the interior of the licensed premises unless they only use the terms "Happy Hour" or "Drink Specials" in outside advertisements and only provide a list of the alcoholic beverage products featured during a happy hour as well as the time period within which alcoholic beverages are being sold at reduced prices.

The Board proposes to repeal this permissive but prescriptive language allowing happy hour advertising only in certain ways, which would effectively afford licensees more discretion in how they advertise their happy hour event. However, the Board also proposes to add new language stating that a licensee may advertise its happy hour so long as the advertising does not tend to induce minors or other interdicted individuals to drink or encourage persons to consume to excess; and that the new language is subject to and shall be adhered to in a manner consistent with all other regulations of the authority. As a result, licensees would be allowed to advertise as they wish so long as they do not induce minors, encourage excess consumption, and do comply with the other regulations of the Board. These changes would benefit the licensees in terms of the flexibility they would provide for happy hour advertising, but also establish performance criteria on what the advertisement shall not do.

The remaining changes repeal language duplicative of other regulations, which are not expected to create any economic impact.

Businesses and Entities Affected. There are 7,579 on-premises alcoholic beverage licensees. Most of the licensees are likely small businesses such as restaurants, bars, grocery stores, wineries, etc. According to the Virginia Alcoholic Beverage Control Authority, there were three advertising-related violations in the last three calendar years.

Localities Particularly Affected. The proposed changes would not disproportionately affect particular localities.

Projected Impact on Employment. The proposed changes are unlikely to affect employment.

Effects on the Use and Value of Private Property. The proposed changes are unlikely to significantly affect the use and value of private property.

Real Estate Development Costs. The proposed changes would not affect real estate development costs.

Small Businesses:

Definition. Pursuant to § 2.2-4007.04 of the Code of Virginia, small business is defined as "a business entity, including its affiliates, that (i) is independently owned and operated and (ii) employs fewer than 500 full-time employees or has gross annual sales of less than \$6 million."

Costs and Other Effects. The proposed changes would not have costs on small businesses licensees, but allow more flexibility in how they advertise their happy hour events.

Alternative Method that Minimizes Adverse Impact. The proposed changes would not impose adverse impacts on small businesses.

Adverse Impacts:

Businesses. The proposed changes would not impose adverse impacts on non-small business licensees.

Localities. The proposed changes would not adversely affect localities.

Other Entities. The proposed changes would not adversely affect other entities.

¹According to the Alcoholic Beverage Control Authority, an advertisement that does not state the dollar price is allowed. For example, an advertisement stating "one-half of regular menu price during happy hour" is not prohibited.

Agency's Response to Economic Impact Analysis: The Virginia Alcoholic Beverage Control Authority concurs with the Department of Planning and Budget's economic impact analysis.

Summary:

The proposed amendments (i) permit advertising of happy hour so long as the advertisement does not tend to induce minors or other individuals who cannot legally drink to drink or encourage persons to drink in excess, (ii) remove superfluous provisions that appear in other authority regulations, and (iii) add a reminder that the regulation is subject to and shall be adhered to in a manner consistent with all other authority regulations.

Summary:

Pursuant to Chapter 449 of the 2018 Acts of Assembly, this chapter establishes a fast-track permitting program for dredging and the selection and use of appropriate sites for disposal of dredge material on state-owned submerged lands for projects in Tidewater Virginia. The new chapter includes requirements for the permit application, qualifications for authorization of projects, and implementation of the fast-track permitting program.

CHAPTER 1340

FAST-TRACK PERMITTING PROGRAM FOR DISPOSAL OF DREDGED MATERIAL

4VAC20-1340-10. Purpose.

The purpose of this chapter is to establish the necessary application requirements and review procedures for fast-track permitting of dredging and dredged material disposal sites involving state-owned submerged lands. Fast-track permitting shall be available only to local governments in Tidewater Virginia, as "Tidewater Virginia" is defined in § 28.2-100 of the Code of Virginia.

4VAC20-1340-20. Definitions.

The following words and terms when used in this chapter shall have the following meanings, unless the context clearly indicates otherwise:

"Coastal resilience" means the ability of natural and built coastal environments to withstand and recover from hazardous events such as extreme weather, storm surge, and recurrent flooding.

"Joint Permit Application" means the current standard application utilized by the U.S. Army Corps of Engineers, Virginia Marine Resources Commission, Virginia Department of Environmental Quality, and local wetlands boards to evaluate projects involving submerged lands, wetlands, and coastal primary sand dunes and beaches for permit review.

"Living shoreline" means the same as defined in § 28.2-104.1 of the Code of Virginia, that is, a shoreline management practice that provides erosion control and water quality benefits; protects, restores, or enhances shoreline habitat; and maintains coastal processes through the strategic placement of plants, stone, sand fill, and other structural and organic material.

"Local government" means counties, cities, towns, and political subdivisions of the Commonwealth.

"Sand" or "beach sand" means material that is SM (silty sands), SP (poorly graded sand), or SW (well graded sand), using the Unified Soil Classification System, with a minimum median grain size of around 0.25 mm with no more than 20% passing through a #100 sieve (0.149mm) and no more than 10% passing through a #200 sieve (0.074mm).

"Sand dunes and beaches" means the jurisdictional areas defined as "coastal primary sand dunes" and "beaches" in § 28.2-1400 of the Code of Virginia.

"Submerged aquatic vegetation bed" or "SAV bed" means those areas of submerged aquatic vegetation identified and annually mapped by Virginia Institute of Marine Science (VIMS) during at least one of the previous five years. "Submerged aquatic vegetation" means any of a diverse assemblage of underwater plants found in the shoal areas of the Chesapeake Bay and Virginia's coastal bays and river tributaries, that are primarily eelgrass (*Zostera marina*), widgeon grass (*Ruppia maritima*), or may include Eurasian watermilfoil (*Myriophyllum spicatum*), redhead grass (*Potamogeton perfoliatus*), wild celery (*Vallisneria americana*), common elodea (*Elodea canadensis*), water stargrass (*Heteranthera dubia*), coontail (*Ceratophyllum demersum*), water-weed (*Egeria densa*), muskgrass (*Najas minor*), pondweeds (*Potamogeton* sp.), Hydrilla (*Hydrilla verticillata*), and naiads (*Najas* sp.).

"VMRC" means the Virginia Marine Resources Commission.

Regulations

"Wetlands" means the jurisdictional areas defined as "vegetated wetlands" and "nonvegetated wetlands" in § 28.2-1300 of the Code of Virginia.

4VAC20-1340-30. Applicability and procedures.

A. Fast-track consideration of Joint Permit Applications for dredging projects and associated dredge material disposal sites involving state-owned submerged lands shall be provided to local governments in Tidewater Virginia when shoreline or open water placement of dredge material is preferable for habitat creation or development of living shoreline features or to enhance coastal resilience.

B. When placement of dredge material does not involve use of state-owned submerged lands, upland disposal sites must be identified in the Joint Permit Application.

C. To qualify for fast-track review, the applicant must submit to VMRC a request for fast-track review, a complete Joint Permit Application, the additional information identified in subsection D of this section, and any supplemental information deemed necessary by VMRC or the applicable wetlands board.

D. The application shall include a dredging plan, a dredged material placement plan, and the following additional information:

1. Geotechnical analysis of the material in the proposed channel to be dredged, unless the dredged material is sand with the same properties as the sand at the placement location and the placement location is adjacent to the dredge site;
2. Chemical analysis of the material to be dredged when VMRC determines chemical analysis is necessary due to the presence of known chemical contaminants;
3. Analysis of the benthic, marine, and fishery resources in the placement site;
4. Current recreational and commercial fishing activity in the proposed dredge and placement areas;
5. Any impact on historical artifacts in the proposed dredge and placement areas;
6. Any impact on other uses of the state waters and bottomlands at the dredge and placement sites; and
7. Anticipated environmental impact of the dredge material proposed for placement on (i) wetlands, dunes or beaches, submerged lands, and (ii) nearby benthic, marine, and fishery resources, including an assessment of any coastal resilience or beneficial ecological services provided by such placement.

E. VMRC, in consultation with the Department of Environmental Quality, the Virginia Department of Health, the Department of Historic Resources, the Virginia Institute of Marine Science, and any other interested state agency,

shall coordinate a review process to ensure the orderly evaluation of a Joint Permit Application that qualifies for fast-track review. The review process shall be completed by all agencies that have been asked to comment within 45 days of VMRC notifying the agency of the Joint Permit Application.

F. Any property owner adjacent to or within 200 feet of the disposal site shall be identified in the Joint Permit Application, and VMRC shall notify such property owners of the proposed project and provide an opportunity for comment.

G. VMRC shall issue a public notice for any dredge or dredge material placement project requiring public notice under 4VAC20-120-10.

H. A wetlands or sand dunes and beaches permit will not be required for any use authorized under subdivision 3 of § 28.2-1302 or subdivision 3 of § 28.2-1403 of the Code of Virginia.

I. When a wetlands or sand dunes and beaches permit is required, VMRC will not make a decision on the Joint Permit Application until receiving proof that a wetlands or sand dunes and beaches permit has been issued by the appropriate authority pursuant to § 28.2-1302 or 28.2-1403 of the Code of Virginia. After receiving such proof, or after receipt of a complete application if no wetlands or sand dunes and beaches permit is required, VMRC shall make a decision on the Joint Permit Application no more than 90 days thereafter to the extent practicable.

J. If an objection to a Joint Permit Application is filed with VMRC, VMRC shall allow 90 days from completion of the application to attempt to resolve the objection. If resolution cannot be achieved, VMRC shall consider the Joint Permit Application at a public hearing no later than 30 days after the time for resolution has ended or as soon as practicable.

4VAC20-1340-40. Fast-track limitations.

A. Fast-track permitting shall not apply under the following conditions:

1. Placement of dredged material on SAV beds or where the dredged material will flow onto SAV beds.
2. Placement of dredged material on any oyster planting ground lease without written consent by the lessee.
3. Placement of dredged material, excluding sand, within 1,500 feet of an oyster planting ground lease without written consent by the lessee.
4. Placement of dredged material on sanctuary oyster reefs; natural oyster beds, rocks, or shoals; or where the dredged material will flow onto sanctuary oyster reefs or natural oyster beds, rocks, or shoals.

B. When dredged material is to be placed on shorelines not owned by the local government or political subdivision

conducting the dredging, the local government or political subdivision must have a suitable property interest or written permission from the landowner to place dredging material on that property for any single dredging event and subsequent maintenance dredging.

Public Comment Deadline: July 10, 2019.

Agency Contact: Michael Skiffington, Regulatory Coordinator, Department of Mines, Minerals and Energy, 1100 Bank Street, 8th Floor, Richmond, VA 23219-3402, telephone (804) 692-3212, FAX (804) 692-3237, TTY (800) 828-1120, or email mike.skiffington@dmme.virginia.gov.

Basis: The regulatory authority for the Department of Mines, Minerals and Energy (DMME) for this action is located in §§ 45.1-161.3, 45.1-161.292:19, and 45.1-180.3 of the Code of Virginia.

Purpose: This regulatory change is necessary to clarify and codify longstanding agency policy. This change will result in

clearer, more precise requirements that will enhance worker and public safety, as well as environmental protection.

Rationale for Using Fast-Track Rulemaking Process: This rulemaking is noncontroversial because it merely makes minor changes and clarifies and codifies longstanding agency policy.

Substance: Substantive changes to existing sections in this regulatory action include specifying requirements for operation and reclamation plans, clarification of permit application notification requirements, clarification of top soil requirements for reclamation, clarification of temporary cessation conditions, and the addition of a standard for fire extinguishers on mineral mine sites. Other changes clarify existing agency policy.

Issues: The public, DMME, and the regulated community will all benefit from regulatory requirements that codify and clarify longstanding agency policy. These changes will result in enhanced environmental protection and public and worker health and safety. There are no known disadvantages to the public or the Commonwealth.

Small Business Impact Review Report of Findings: This fast-track regulatory action serves as the report of the findings of the regulatory review pursuant to § 2.2-4007.1 of the Code of Virginia.

Department of Planning and Budget's Economic Impact Analysis:

Summary of the Proposed Amendments to Regulation. Pursuant to a periodic review,¹ the Department of Mines, Minerals and Energy (DMME) proposes to 1) require mine operators to cover on-site generated mine waste used as a fill by an "adequate" cover instead of requiring coverage by four inches of top soil, 2) require operators to send a copy of the permit notification to DMME at the time they are mailed to those who must be noticed, and 3) make changes to clarify numerous other requirements or delete redundant language.

Result of Analysis. The benefits likely exceed the costs for all proposed changes.

Estimated Economic Impact. One of the proposed substantive changes is requiring mine operators to cover mine waste used as a fill by "adequate" cover as opposed to requiring four inches of top soil cover in every case for reclamation purposes. According to DMME, using mine waste as fill is a site-specific exercise that should not be regulated in a one-size-fits-all fashion. This change would provide greater flexibility to the mine operators in terms of choosing the type and the amount of cover. The proposed change is essentially replacing a prescriptive criterion by a performance criterion. Generally, performance criteria lead to better allocation of scarce resources with proper enforcement. While some operators may incur greater cost to provide "adequate" cover than the cost of four inches of top soil cover and in other

Regulations

cases may incur less, this change should help prevent unnecessary use of cover material overall. Under the proposed change, only the just right type and amount of cover would be required while maintaining "adequate" cover. DMME notes however, any savings or costs from this change would be minor, but is unable to quantify the likely magnitude as it depends on the site, the materials, frequency of the work, etc.

Another proposed change would require operators to send a copy of a permit notification to DMME at the time they are mailed to those who must be noticed. According to DMME, this will serve as a heads up to the agency that it will soon receive a permit application and may increase efficiency. The cost of this change would be sending an additional copy of an already existing notice to DMME, which should be very small.

The remaining changes include numerous clarifications of long-standing agency practices and removal of fees set by statute from this regulation. These changes are not expected to create any significant economic impact beyond improving the clarity of the requirements and language.

Businesses and Entities Affected. According to DMME, there are approximately 440 permitted mineral mine sites operated by 278 entities across the Commonwealth. Approximately 90% of these operators would qualify as small business.

Localities Particularly Affected. The proposed amendments would affect all localities in the Commonwealth that have mineral mines. According to DMME, 91% of Virginia's counties have mineral mines governed by these regulations.

Projected Impact on Employment. The proposed amendments may increase or decrease demand for labor at different sites by a small margin depending on whether adequate coverage can be achieved by more or less coverage than the currently required four inches of top soil.

Effects on the Use and Value of Private Property. The proposed amendments could have a positive or negative impact on the asset values of the affected operators by a small margin depending on whether their site-specific compliance costs increase or decrease.

Real Estate Development Costs. The proposed amendments should not significantly affect real estate development costs.

Small Businesses:

Definition. Pursuant to § 2.2-4007.04 of the Code of Virginia, small business is defined as "a business entity, including its affiliates, that (i) is independently owned and operated and (ii) employs fewer than 500 full-time employees or has gross annual sales of less than \$6 million."

Costs and Other Effects. The costs and other impact on mine operators that are small businesses are the same as discussed above.

Alternative Method that Minimizes Adverse Impact. There is no known alternative that would minimize the likely small adverse impact in some cases while accomplishing the same goals.

Adverse Impacts:

Businesses. The likely small adverse impact for some mine operators will depend on the specific site conditions as discussed above.

Localities. The proposed amendments would not adversely affect localities.

Other Entities. The proposed amendments would not adversely affect other entities.

Agency's Response to Economic Impact Analysis: The Department of Mines, Minerals and Energy concurs with the economic impact analysis conducted by the Department of Planning and Budget.

Summary:

The amendments update reclamation requirements for mineral mining to clarify and codify longstanding agency policy. Additionally, one minor technical amendment is being made to the mineral mining safety and health regulations to correct an omission.

Planted earth berms, tree plantings, natural topography, or appropriately designed fences or walls may be used if approved in the mineral mining plan.

C. On permanent berms for screening, the spoils (~~waste materials~~) shall be initially placed on the proposed berm area, and top soil (~~where available~~) shall be spread over the spoil areas berm, not less than six inches in thickness, and if possible, 12 inches in thickness. 4VAC25-31-440. Drainage and sediment control.

All mining operations shall have adequate drainage, erosion, and sediment control measures installed and maintained in accordance with the approved drainage plan or as acceptable to the division. Drainage from disturbed areas shall be directed into a sediment control structure before it is discharged from the permitted area. If adequate drainage, erosion, and sediment control measures cannot be provided, the permit for the affected portion or the entire mine may be denied.

4VAC25-31-450. Sediment basins.

~~Drainage from disturbed areas shall be directed into a sediment basin before it is discharged from the permit area.~~ Sediment basins shall be located as close to the disturbed area as possible. Sediment basins shall not be located in perennial streams. Sediment control measures shall be installed prior to land disturbing activities within the drainage area controlled by the sediment basin. Each primary sediment basin shall provide at least 0.125 acre feet of storage capacity for each acre of disturbed land draining to it. Storage basins shall be cleaned as necessary to ensure proper functioning before they reach 60% capacity. Alternate sediment control measures that are as effective as sediment basins may be approved. The measures may include reduced basin storage capacity for small short-term disturbances, sediment channels, check dams, or mining methods that incorporate sediment control.

4VAC25-40-670. Fire extinguishers.

A. Whenever a fire or its effects could impede escape from self-propelled equipment, a fire extinguisher shall be on the equipment.

B. Whenever a fire or its effects would not impede escape from the equipment but could affect the escape of other persons in the area, a fire extinguisher shall be on the equipment or within 100 feet of the equipment.

Regulations

C. All fire extinguishers required by this chapter shall meet the current standards established by the National Fire Prevention Association.

Public Hearing Information: No public hearings are scheduled.

Public Comment Deadline: July 10, 2019.

Effective Date: July 25, 2019.

Agency Contact: Stephanie Williams, Deputy Director, Department of Historic Resources, 2801 Kensington Avenue, Richmond, VA 23229, telephone (804) 482-6082, FAX (804) 367-2391, or email stephanie.williams@dhr.virginia.gov.

Rationale for Using Fast-Track Rulemaking Process: The amendment was recommended by the Department of Planning and Budget and is intended to merely conform the regulation to the statute. Therefore, there is no controversy in its promulgation.

The current Public Participation Guidelines state that: "In considering any nonemergency, nonexempt regulatory action, the agency shall afford interested persons an opportunity to submit data, views, and arguments, either orally or in writing, to the agency." The Board proposes to append "and (ii) be accompanied by and represented by counsel or other representative."

Chapter 795 of the 2012 Acts of Assembly added to § 2.2-4007.02 of the Code of Virginia. Since the Code of Virginia already specifies that interested persons shall be afforded an opportunity to be accompanied by and represented by counsel or other representative, the Board's proposal to add this language to the regulation will not change the law in effect but will be beneficial in that it will inform interested parties who read this regulation but not the statute of their legal rights concerning representation.

BOARD OF PHARMACY

Fast-Track Regulation

Title of Regulation: **18VAC110-20. Regulations Governing the Practice of Pharmacy (amending 18VAC110-20-10).**

Statutory Authority: §§ 54.1-2400 and 54.1-3307 of the Code of Virginia.

Public Hearing Information: No public hearings are scheduled.

Public Comment Deadline: July 10, 2019.

Effective Date: July 25, 2019.

Agency Contact: Caroline Juran, RPh, Executive Director, Board of Pharmacy, 9960 Mayland Drive, Suite 300, Richmond, VA 23233-1463, telephone (804) 367-4456, FAX (804) 527-4472, or email caroline.juran@dhp.virginia.gov.

Basis: Regulations are promulgated under the general authority of § 54.1-2400 of the Code of Virginia, which provides the Board of Pharmacy the authority to promulgate regulations to administer the regulatory system, and § 54.1-3307 of the Code of Virginia, which specifies that the board shall regulate the practice of pharmacy and the manufacturing, dispensing, selling, distributing, processing, compounding, or disposal of drugs and devices.

Purpose: The purpose of the amended regulation is to maintain state regulations for consistency with the national standards for temperature and storage of drugs found in Chapter 659 of the United States Pharmacopeia (USP), which is a pharmacopeia (compendium of drug information) for the United States. The USP is published in a combined volume with the National Formulary (a formulary) as the USP-NF. USP-NF standards have a role in federal law; a drug or drug ingredient with a name recognized in USP-NF is considered adulterated if it does not satisfy compendial standards for strength, quality, or purity. USP has no role in enforcing its standards. Enforcement is the responsibility of U.S. Food and Drug Administration (FDA) and other government authorities in the United States and elsewhere. Consistency of state regulations with USP standards protects the public health and safety in matters relating to drug storage and integrity.

Rationale for Using Fast-Track Rulemaking Process: The impetus for this action is conforming to a national standard for drug safety and purity and should not be controversial, so a fast-track rulemaking process is appropriate.

Substance: 18VAC110-20-10 is amended to conform the definition of "cold" to include the revised temperature range for drug storage in a freezer in accordance with recent guidance from the United States Pharmacopeia.

Issues: There are no real advantages or disadvantages to the public. There are no advantages or disadvantages to the agency or the Commonwealth.

Department of Planning and Budget's Economic Impact Analysis:

Summary of the Proposed Amendments to Regulation. The Board of Pharmacy (Board) proposes to update the definition of cold to mirror that of United States (U.S.) Pharmacopeia.

Result of Analysis. There is insufficient data to accurately compare the magnitude of the benefits versus the costs.

Estimated Economic Impact. Currently, the definition of cold in this regulation contains a temperature range for freezers (i.e., between -20 and -10 degrees Celsius or -4 and 14 degrees Fahrenheit). This language reflects the definition in the U.S. Pharmacopeia prior to its 2017 revision. Under the revised version, the freezer temperature range is -25 and -10 degrees Celsius or -13 and 14 degrees Fahrenheit.¹ The Board proposes to amend the regulation to reflect that change. Since the proposed range is broader than the current range, existing freezers at pharmacies would be sufficient to maintain the new range. Thus, no significant effect on pharmacies is expected from this change.

The 2017 version of the U.S. Pharmacopeia also established a new temperature range for articles that are recommended to be stored at a specific temperature that is below -20 Celsius or -4 degrees Fahrenheit. In those cases, the U.S. Pharmacopeia states the temperature of the storage location should be controlled to plus or minus 10 degrees of the recommended temperature.² The Board also proposes to incorporate this new range for articles that have a recommended storage condition. This new language can, theoretically, create a need to purchase new equipment for storage of such items or lead to no longer carrying those items if the pharmacy does not maintain the storage temperature within the recommended range. For example, a -40 degrees of Celsius recommended storage range would require the capability to control the temperature at -30 degrees of Celsius which is outside the temperature range of a freezer. The Board staff believes that this new language is unlikely to necessitate purchase of new equipment because most likely the pharmacies would already have the capability to maintain manufacturers recommended storage temperature range, or they would not stock those items. However, whether this change would lead to purchases of new equipment or no longer carrying some items at some

pharmacies, or no effect at all on any pharmacies, cannot be ascertained with any degree of certainty. Thus, the net impact of this change is not known.

Businesses and Entities Affected. The proposed amendments apply to 1,813 permitted pharmacies.

Localities Particularly Affected. The proposed amendments do not disproportionately affect particular localities.

Projected Impact on Employment. The proposed amendments are unlikely to significantly affect employment.

Effects on the Use and Value of Private Property. The proposed amendments are unlikely to significantly affect the use and value of private property.

Real Estate Development Costs. The proposed amendments are unlikely to affect real estate development costs.

Small Businesses:

Definition. Pursuant to § 2.2-4007.04 of the Code of Virginia, small business is defined as "a business entity, including its affiliates, that (i) is independently owned and operated and (ii) employs fewer than 500 full-time employees or has gross annual sales of less than \$6 million."

Costs and Other Effects. Most pharmacies are owned by large retail chains. Whether the proposed amendments would have any costs or other effects on small businesses is not known.

Alternative Method that Minimizes Adverse Impact. Whether the proposed amendments would adversely affect small businesses is not known.

Adverse Impacts:

Businesses. Whether the proposed amendments would adversely affect businesses is not known.

Localities. The proposed amendments do not adversely affect localities.

Other Entities. The proposed amendments do not adversely affect other entities.

Agency's Response to Economic Impact Analysis: The Board of Pharmacy concurs with the analysis of the Department of Planning and Budget.

Summary:

The amendments conform the definition of "cold" in reference to the temperature range for drug storage in a freezer to recent guidance from the United States Pharmacopeia.

**BOARD FOR PROFESSIONAL SOIL SCIENTISTS,
WETLAND PROFESSIONALS, AND GEOLOGISTS**

Fast-Track Regulation

Title of Regulation: 18VAC145-30. Regulations Governing Certified Professional Wetland Delineators (amending 18VAC145-30-140).

Statutory Authority: §§ 54.1-201 and 54.1-2203 of the Code of Virginia.

Public Hearing Information: No public hearings are scheduled.

Public Comment Deadline: July 10, 2019.

Effective Date: August 1, 2019.

Agency Contact: Kathleen R. Nosbisch, Executive Director, Board for Professional Soil Scientists, Wetland Professionals, and Geologists, 9960 Mayland Drive, Suite 400, Richmond, VA 23233, telephone (804) 367-8514, FAX (804) 527-4294, or email soilscientist@dpor.virginia.gov.

Basis: Section 54.1-201 of the Code of Virginia grants authority to the board to promulgate regulations " . . . in accordance with the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia) necessary to assure continued competency, to prevent deceptive or misleading practices by practitioners, and to effectively administer the regulatory system administered by the regulatory board."

Purpose: This proposed amendment addresses concerns in the wetland delineation community about the inappropriate use of

professional work. The board requested this proposed addition to the standards of practice and conduct to promote transparency and ensure minimum competency in the practice of wetland delineation by certified professionals. Ensuring a professional's work is not used or altered without permission protects the safety of the public.

Rationale for Using Fast-Track Rulemaking Process: The fast-track rulemaking process is being used to amend the board's standards of practice and conduct because the proposed amendment is not expected to be controversial. Members of the regulated community requested the change, and it provides helpful clarification to existing guidelines and prohibitions on representations of professional opinion.

Substance: The board's proposed amendment to 18VAC145-30-140 adds a new prohibited act to make explicit that a Virginia certified professional wetland delineator is prohibited from using the work of another without written consent.

Issues: The primary advantage to the public of adding the proposed amendment is ensuring the integrity of the regulatory program for Virginia certified professional wetland delineators and promoting an ethical marketplace overall by prohibiting certificate holders from using another professional's work without permission. Moreover, businesses engaged in wetland delineation and the individual employees of those businesses will be better protected against improper use of their work. There are no disadvantages to the public or individual private citizens or businesses.

The primary advantage to the Commonwealth is that the regulatory program will be able to take disciplinary action against certificate holders who use the work of another without permission. Not only do such individuals take advantage of other professionals in their field, but such behavior puts the public's health, safety, and welfare at potential risk. There are no identified disadvantages to the agency or the Commonwealth.

Department of Planning and Budget's Economic Impact Analysis:

Summary of the Proposed Amendments to Regulation. The Board for Professional Scientists, Wetland Professionals, and Geologists (Board) proposes to clarify that a Virginia certified professional wetland delineator is prohibited from using the work of another without written consent.

Result of Analysis. The benefits likely exceed the costs for all proposed changes.

Estimated Economic Impact. The current standards of practice and conduct already prohibit certified wetland delineators from signing work they do not themselves prepare, review, or approve.¹ The Board proposes to make explicit in the regulation that a wetland delineator is prohibited from using the work of another without written

Regulations

consent. The proposed change will allow the Board to take a disciplinary action against certificate holders who use the work of another without permission and strengthen the copyright protections afforded to the owners of original work.

Businesses and Entities Affected. There are 109 individuals certified as wetland delineators.

Localities Particularly Affected. There are no localities particularly affected.

Projected Impact on Employment. No significant impact on employment is expected.

Effects on the Use and Value of Private Property. No significant impact on the use and value of private property is expected.

Real Estate Development Costs. No impact on real estate development costs is expected.

Small Businesses:

Definition. Pursuant to § 2.2-4007.04 of the Code of Virginia, small business is defined as "a business entity, including its affiliates, that (i) is independently owned and operated and (ii) employs fewer than 500 full-time employees or has gross annual sales of less than \$6 million."

Costs and Other Effects. Most, if not all, of the wetland delineators in the private sector are believed to be working for small businesses.

Alternative Method that Minimizes Adverse Impact. No net adverse impact on small businesses is expected.

Adverse Impacts:

Businesses. The proposed amendments do not have an adverse impact on businesses.

Localities. The proposed amendments will not adversely affect localities.

Other Entities. The proposed amendments will not adversely affect other entities.

¹See 18VAC145-30-140(3).

Agency's Response to Economic Impact Analysis: The board concurs with the economic impact analysis.

Summary:

The amendments make explicit that a Virginia certified professional wetland delineator is prohibited from using the work of another without written consent. The standards of practice and conduct already prohibit certificate holders from signing work they do not themselves prepare, review, or approve; this amendment clarifies that using the work of another person or organization when rendering services requires written consent.

18VAC145-30-140. Standards of practice and conduct.

2. Shall not engage in any fraud, deceit, or misrepresentation in advertising, in soliciting or in providing professional services.
3. Shall not knowingly sign any plans, drawings, blueprints, surveys, reports, specifications, maps, or other documents not prepared or reviewed and approved by the certificate holder.

GOVERNOR

EXECUTIVE ORDER NUMBER THIRTY-ONE (2019)

Transfer of the Museum of Natural History to the Secretary of Education

Given under my hand and under the Seal of the Commonwealth of Virginia, this 14th day of May, 2019.

/s/ Ralph S. Northam
Governor

Importance of the Issue

The Commonwealth of Virginia is home to some of the finest state-owned museums in the nation. These museums are vital educational resources for citizens and visitors of the Commonwealth. Through these institutions, the public can study and enjoy history, science and the arts.

The Secretary of Education is responsible for coordinating among and supporting public education institutions throughout the Commonwealth. The secretariat provides guidance to the Virginia Department of Education, the Virginia Community College System and the State Council of Higher Education for Virginia, and Virginia's 16 public colleges and universities, 23 community colleges and five higher education and research centers, seven state-funded arts and cultural institutions, and the Library of Virginia.

Pursuant to the Code of Virginia, the Virginia Museum of Natural History investigates, preserves, and exhibits the various elements of natural history found in Virginia and other parts of the United States and the world. It encourages and promotes research in the varied natural heritage of Virginia and other parts of the world. It encourages individuals and scholars to study our natural history and to apply this understanding of the past to the challenges of the future. The museum coordinates an efficient network in Virginia where researchers and the public can readily access the museum's materials and its branches.

The mission and purpose of the Virginia Museum of Natural History can be achieved best if it is integrated into the network of Virginia's other museums, colleges, and universities. This requires transferring management and oversight responsibilities from the Secretary of Natural Resources to the Secretary of Education.

The Museum of Natural History will continue performing all existing functions and duties in accordance with Virginia law.

Transfer of the Museum

By virtue of the authority vested in me as Governor under §§ 2.2-208 and 2.2-215 of the Code of Virginia, I hereby authorize the transfer of administrative authority of the Virginia Museum of Natural History from the Secretary of Natural Resources to the Secretary of Education.

Effective Date of the Executive Order

This Executive Order shall be effective upon its signing and shall remain in force and effect unless amended or rescinded by further executive order.

Administrative Letter 2019-02

TO: All Health Carriers Licensed in Virginia and Interested Parties

RE: External Review of Adverse Coverage Determinations for Cancer Patients

The purpose of this Administrative Letter is to provide guidance for the submission of complaint system filings, notice and policy form requirements to comply with the provisions of Chapter 826 (House Bill 1915) and Chapter 840 (Senate Bill 1161) enacted by the General Assembly during its 2019 legislative session.

Chapter 826 (House Bill 1915) and Chapter 840 (Senate Bill 1161) of the Acts of General Assembly, became effective April 3, 2019, and amend the following sections within Title 38.2 of the Code of Virginia: §§ 38.2-3559, 38.2-3560, 38.2-

3561 and 38.2-3562. The bills establish that a covered person is not required to exhaust the health carrier's internal appeal process before seeking a standard or expedited external review of an adverse determination involving the treatment of cancer. In the event of an adverse determination, the health carrier must notify the covered person of this right. The bills are applicable to all plans offered by health carriers except those specifically excluded in § 38.2-3557 of the Code of Virginia.

Complaint System Filings

Section 38.2-5804 of the Code of Virginia requires all Managed Care Health Insurance Plans (MCHIPs) to file their complaint systems with the State Corporation Commission and the State Health Commissioner. The State Corporation Commission's Bureau of Insurance (Bureau) anticipates that all health carriers will need to revise existing complaint and appeal procedures, and that all MCHIPs that are health carriers will need to refile for approval revised complaint and appeal procedures. The Bureau's Complaint System and Appeal Procedures/MCHIP Filing Requirements checklist has been updated to incorporate the new legislative requirements. The checklist can be found on the Bureau's website at <http://www.scc.virginia.gov/boi/co/index.aspx>.

In order to expedite and facilitate the review and approval of MCHIP complaint and appeal procedure filings, the Bureau requests that applicable MCHIPs complete and return the checklist with the filing of its new or revised procedures. MCHIPs should provide a red-line identification of the changes made to its procedures. Revised complaint system and appeal procedure filings that comply with this new requirement must be filed with the Bureau by June 3, 2019.

External Review Request Form

The External Review Request Form, Form 216-A, has been updated to allow the covered person to request a standard or expedited external review if an adverse determination involves treatment of cancer. The revised Form 216-A can be found on the Bureau's website at http://www.scc.virginia.gov/boi/omb/ext_review.aspx.

Policy Forms

In lieu of carriers filing endorsements to 2019 policy forms, health carriers may use the attached notice to inform policyholders of the external review process change. If a carrier chooses not to use this notice, or if a carrier has already sent a notice, the carrier should submit its sent or intended notice to the Bureau for review and approval. The Bureau will not penalize a carrier for sending a notice without our approval if such notice was sent prior to this Administrative Letter and accurately reflects the new requirements. If a carrier wishes to amend its policy forms instead of using the attached general notice, the carrier must submit the amendment to the Bureau by May 28, 2019, for review and approval.

Please contact the Bureau with any questions or requests for clarification. Questions or clarification regarding the external review process should be addressed to Kim Naoroz, Principal Insurance Market Examiner, Office of Independent External Review, Life and Health Division, Bureau of Insurance, P.O. Box 1157, Richmond, VA 23218, telephone (804) 371-9913, FAX (804) 371-9915, or email kim.naoroz@scc.virginia.gov.

Questions or clarification regarding complaint system filings should be addressed to Todd Bryant, Principal Insurance Market Examiner, Office of the Managed Care Ombudsman, Life and Health Division, Bureau of Insurance, P. O. Box 1157, Richmond, VA 23218, telephone (804) 371-9760, FAX (804) 371-9944, or email todd.bryant@scc.virginia.gov.
